Experience at the India-Bangladesh Border Debdatta Chowdhury, 2018-06-28 The effects of the partition of India in 1947 have been more far reaching and complex than the existing partition narratives of violence and separation reveal The immediacy of the movement of refugees between India and the newly formed state of Pakistan overshadowed the actual effect of the drawing of the border between the two states The book is an empirical study of border narratives across the India Bangladesh border specifically the West Bengal part of India s border with Bangladesh It tries to move away from the perpetrator state victim civilian framework usually used in the studies of marginal people and looks at the kind of agencies that the border people avail themselves of Instead of looking at the border as the periphery the book looks at it as the line of convergence and negotiations the centre of the people who survive it every day It shows that various social political and economic identities converge at the borderland and is modified in unique ways by the spatial specificity of the border thus forming a border identity and a border consciousness Common sense of the civilians and the state machinery embodied in the border guards collide cooperate and effect each other at the borderlands to form this unique spatial consciousness It is the

everyday survival strategies of the border people which aptly reflects this consciousness rather than any universal border theory or state centric discourses about the borders A bottom up approach is of utmost importance in order to understand how a spatially unique area binds diverse other identities into a larger spatial identity of a border people The book s relevance lies in its attempt to explore such everyday narratives across the Bengal border while avoiding any major theorising project so as not to choke the potential of such experience centred insights into the lives of a unique community of people In that it contributes towards a study of borders globally providing potential approaches to understand border people worldwide Based on detailed field research this book brings a fresh approach to the study of this border It will be of interest to researchers in the field of South Asian studies citizenship development governance and border studies

Gender, Sexuality and Identities of the Borderlands Suzanne Clisby,2020-05-26 Drawing on border thinking postcolonial and transnational feminisms and queer theory Gender Sexuality and Identities of the Borderlands brings an intersectional feminist and queer lens to understandings of borderlands liminality and lives lived at the margins of socio cultural and sexual normativities Bringing together new and contemporary interdisciplinary research from across diverse global contexts this collection explores the lived experiences of what Gloria Anzald a might have called threshold people people who live among and in between different worlds While it is often challenging difficult and even dangerous inhabiting marginal spaces living at the borders of socio cultural religious sexual ethnic or gendered norms can create possibilities for developing unique ways of seeing and understanding the worlds within which we live This collection casts a spotlight on the margins those queer spaces in literary cinematic and cultural borderlands postcolonial and transnational feminist perspectives on movement and migration and critical analyses of liminal lives within and between socio cultural borders Each chapter within this unique book brings a critical insight into diverse global human experiences in the 21st Century

Kaliningrad - an ambivalent transnational region within a European-Russian scope Evgeniy Chernyshev,2022-02-18 This book focuses on Kaliningrad s development as a transnational bordered zone and the self understanding and self positioning of its youth in the context of regional culture By taking into consideration historical and

geopolitical factors this empirical research was conducted in the Kaliningrad region Berlin and the cross border area of small border traffic between Kaliningrad and Poland **Migration and Activism in Europe since 1945** W. Pojmann,2008-09-29
The political and social activism of immigrants to Europe since 1945 takes the spotlight in this volume Each chapter draws on research from international scholars offering a riveting look at a variety of migrant experiences and providing welcome comparisons of the impact of migration on different countries **Encyclopedia of Public International Law** Ezio Biglieri,G. Prati,2014-06-28 Digital Communications
