original research Hart defines five ingredients that are critical to García Márquez's work: magical realism, a shortened and broken portrayal of time, punchy one liners, dark and absurd humor, and political allegory. These elements, as described by Hart, illuminate the extraordinary allure of García Márquez's work and provide fascinating insight into his approach to writing. Hart also explores the divisions between García Márquez's everyday life and his life as a writer, and the connection in his work between family history and national history. *Gabriel García Márquez* presents an original portrait of this well renowned writer and is a must read for fans of his work as well as those interested in magical realism, Latin American fiction, and modern literature.
