The Guinea-pigs Raymond Foxall, 1983 Englands f rste operation med luftb rne tropper fandt sted i Italien i 1941 De barske erfaringer fra denne operation dannede basis for opstillingen af de senere faldsk rmsbrigader **Night Raid** Taylor Downing, 2013-05-09 The loss of British bombers over Occupied Europe began to reach alarming levels in 1941 Could it be that the Germans were using a sophisticated form of radar to direct their night fighters and anti aircraft guns at the British bombers British aerial reconnaissance discovered what seemed to be a rotating radar tower on a clifftop at Bruneval near Le Havre The truth must be revealed The decision was taken to launch a daring raid on the Bruneval site to try and capture the technology for further examination The planned airborne assault would be extremely risky The parachute regiment had only been formed a year before on Churchill s insistence This night raid would test the men to the extreme limits of their abilities Night Raid tells the gripping tale of this mission from the planning stages to the failed rehearsals when the odds seemed stacked against them to the night of the raid itself and the scientific secrets that were discovered thanks to the paras precious cargo the German radar Its capture was of immense importance in the next stages of the war and the mission itself marked the birth of the legend of the Red Devils **Churchill's Shadow Raiders** Damien Lewis, 2020-04-28 From bestselling and award winning war reporter Damien Lewis and for fans of Erik Larsen s The Splendid and Vile and Alex Kershaw s The Forgotten 500 comes a thrilling account of one of the most daring raids of WWII the true story of the race to stop Hitler from developing a top secret weapon that would change the course of history One of the most readable World War 2 history books I have read in years We Are the Mighty In the winter of 1941 as Britain faced defeat on all fronts an RAF reconnaissance pilot photographed an alien looking object on the French coast near Le Havre The mysterious device a Wurzburg Dish appeared to be a new form of radar technology ultra compact highly precise and pointed directly across the English Channel Britain s experts found it hard to believe the Germans had mastered such groundbreaking technology But one young technician thought it not only possible he convinced Winston Churchill that the dish posed a unique and deadly threat to Allied forces one that required desperate measures and drastic action Capturing the radar on film had been an amazing coup Stealing it away from under the noses of the Nazis would be remarkable So was launched Operation Biting a mission like no other An extraordinary snatch and grab raid on Germany s secret radar installation it offered Churchill s elite airborne force the Special Air Service a rare opportunity to redeem themselves after a previous failed mission and to shift the tides of war forever Led by the legendary Major John Frost these brave paratroopers would risk all in a daring airborne assault with only a small stretch of beach menaced by enemy guns as their exit point With the help of a volunteer radar technician who knew how to dismantle the dish as well as the courageous men and women of the French Resistance they succeeded against all odds in their act of brazen robbery Some would die Others would be captured All fought with resolute bravery This is the story of that fateful night of February 27 1942 A brilliantly told thrillingly tense account of Churchill s

Dilley, 2013-09-30 The array of new technologies that came on the scene in the early 20th century resulted in widely varied new forms of military special operations once civilization embarked on its greatest war Suddenly fighting men could be delivered by parachute submarine glider jeeps and fast amphibious craft deep into enemy territory to perform special tasks yet others would continue to perform missions the same as their ancestors in previous wars on foot using stealth endurance and patience This work contains discussions of the employment of various special purpose special mission organizations during World War II These units operated in Allied and Axis countries and in various theaters of war including Europe North Africa the Pacific Asia and the continental United States Representing every major combatant the operations include various kinds of raids intelligence gathering missions support to partisan guerrilla groups prisoner rescues direct action missions and at least two where the object was simply to steal something Some missions would have been officially denied if the operations had been caught in the act The book is divided into two sections Behind Enemy Lines and Behind Friendly Lines to demonstrate that special purpose organizations can be employed wherever needed even in areas controlled by military units of their own or allied countries Many of the units described run the gamut of special mission types from commando to parachute units reconnaissance to sabotage units and partisan training units as well as those with combined missions Many of the operations described in this book continue to serve as templates for modern Special Operations missions while still others the first attempts of their kind continue to serve as examples of what not to try under the circumstances Michael F Dilley served for 20 years in the U S Army s Military Intelligence branch After retiring from the Army the author served for about ten years as
