Lyons,John S. Lyons,Julie A. Samson,2021-07-21 This book explores the sea change in thinking about how to educate students of entrepreneurship uses extant theory to develop a conceptual model of entrepreneurship skill development describes an assessment tool for operationalizing this model discusses how this tool can be utilized to develop entrepreneurship skills and offers examples from the application of our approach in educational settings It concludes with implications of this methodology for furthering both entrepreneurship education and the research that shapes it The authors present an entrepreneurship skills assessment tool which uses a theory of measurement that breaks from psychometrics predictive approaches and honors the volatility and uncertainty that characterizes entrepreneurship This assessment tool can be used to integrate curriculum and co curricular activities to ensure skill development Focusing on a methodology for the measurement and development of entrepreneurship skills this book will serve as a valuable resource to researchers and students alike **Sustainability on University Campuses: Learning, Skills Building and Best Practices** Walter Leal Filho,Ugo Bardi,2019-06-03 The implementation of sustainability initiatives on campuses is an essential component of promoting sustainability in the higher education context In addition to reflecting an awareness of environmental issues campus programmes demonstrate how seriously universities take sustainability at the institutional level There is a lack of truly interdisciplinary publications that comprehensively address the issue of campus greening and there is an even greater

need for publications that do so at a truly international level This book meets these needs It is one of the outcomes of the Second Symposium on Sustainability in University Campuses SSUC 2018 which was jointly organised by the University of Florence Italy Manchester Metropolitan University UK the Research and Transfer Centre Sustainable Development and Climate Change Management and the European School of Sustainability Science and Research at the Hamburg University of Applied Sciences Germany in cooperation with the Inter University Sustainable Development Research Programme IUSDRP The book showcases examples of campus based research and teaching projects regenerative campus design low carbon and zero carbon buildings waste prevention and resilient transport among others Ultimately it demonstrates the role of campuses as platforms for transformative social learning and research and explores the means by which university campuses can be made more sustainable The aims of this publication are as follows to provide universities with essential information on campus greening and sustainable campus development initiatives from around the world to share ideas and lessons learned in the course of research teaching and projects on campus greening and design especially successful initiatives and good practice and to introduce methodological approaches and projects intended to integrate the topic of sustainable development in campus design and operations This book gathers contributions from researchers and practitioners in the field of campus greening and sustainable development in the widest sense from business and economics to the arts administration and the environment and hailing from Europe Latin America North America and Asia
