We Must Have Certainty J. Kenneth Van Dover,2005 We Must Have Certainty surveys the development of the genre of the detective story from its origins in the mid nineteenth century to its current profile in the early twenty first century It locates a principal appeal of the genre in the nature of the world that the detective necessarily inhabits a world of more or less realistic violence and excitement and at the same time a world that always in the end makes sense It suggests that there is a significance to a popular narrative formula that requires that an initial world of suspicion and uncertainty be inevitably transformed by the detective into a world of clarity and order Though scholarship in the field is acknowledged the author s citations are most often from detective stories themselves The essays are written in an accessible style those who have read a few novels in the genre as well as those who have read many will find the book stimulating and provocative *Make Mine a*
