Sins Of Scripture Beyond Texts Of Hate To The God Of Love:

The Sins of Scripture John Shelby Spong, 2009-10-13 In the history of the Western World the Bible has been a perpetual source of inspiration and guidance for countless Christians However this Bible has also left a trail of pain It is undeniable that the Bible is not always used for good Sometimes the Bible can seem overtly evil Sometimes its texts are terrible Bishop John Shelby Spong boldly approaches those texts that have been used through history to justify the denigration or persecution of others while carrying with them the implied and imposed authority of the claim that they were the Word of God As he exposes and challenges what he calls the terrible texts of the Bible laying bare the evil done by these texts in the name of God he also seeks to redeem these texts hoping to recover their ultimate depth and purpose Spong looks specifically at texts used to justify homophobia anti-Semitism treating women as second class humans corporal punishment and environmental degradation but he also delivers a new picture of how Christians can use the Bible today As Spong battles against the way the Bible has been used throughout history he provides a new framework introducing people to a proper way to engage this holy book of the Judeo Christian tradition

The Sins of Scripture John Shelby Spong, 2005-04-12 As Spong exposes and challenges what he calls the terrible texts of the Bible laying bare the evil done by them in the name of God he also seeks to redeem these texts hoping to recover their ultimate depth and purpose

Beyond Biblical Theology Timo Eskola, 2013-10-02 Reading Heikki Rönkä's hermeneutics in context Timo Eskola explores the development of Western New Testament interpretation Reclaiming a Wredean approach to the Scriptures Rönkä focuses on tradition and interpretation He builds on Weberian sociology adopted through Peter Berger's theories and substitutes sacralized culturalism for biblical theology After examining fourteenth century Quran criticism and its impact on Reimar Schüssler Eskola discusses the genesis of the revised history of religion theory that Rönkä developed when investigating the Quran's relationship to the Bible Sociology then becomes a link between standard historicism and poststructuralism as Rönkä reinterprets Berger's sociology of knowledge Rönkä's sacralized culturalism finally becomes the theory from which his magnum opus *The Rise of Christian Beliefs* has been written

Bloody, Brutal, and Barbaric? William J. Webb, Gordan K. Oeste, 2019-12-03 Christians cannot ignore the intersection of religion and violence In our own Scriptures war texts that appear to approve of genocidal killings and war rape raise hard questions about biblical ethics and the character of God Have we missed something in our traditional readings Identifying a spectrum of views on biblical war texts Webb and Oeste pursue a middle path using a hermeneutic of incremental redemptive movement ethics

The New Heretics Rebekka King, 2023-02-07 Charts the development of progressive Christianity's engagement with modern science historical criticism and liberal humanism Christians who have doubts about the existence of God Who do not believe in the divinity of Jesus Who reject the accuracy of the Bible The New Heretics explores the development of progressive Christianity a movement of Christians who do not reject their identity as Christians but who believe Christianity must be updated for today's times and take into consideration modern science historical criticism and liberal humanism Drawing on three years of ethnographic fieldwork in North America Rebekka King focuses on testimonies of deconversion collective reading practices and the ways in which religious beliefs and practices are adapted to fit secular lives King introduces the concept of lived secularity as a category with which to examine the ways in which religiosity often is entangled with and subsumed by secular identities over and against religious ones This theoretical framework provides insight into the study of religious and cultural hybridity new emerging groups such as the nones atheism religious apostasy and multi religious identities The New Heretics pays close attention to the ways that progressive Christians understand themselves vis vis a conservative or fundamentalist Christian other providing context concerning the presumed divide between the religious right and the religious left King shows that while it might be tempting to think of progressive Christians as atheists there are religious and moral dimensions to their disbelief For progressive Christians the act of questioning and rejecting God alongside other theological tenets is framed as a moral activity Ultimately the book showcases the importance of engaging with the ethics of belief in understanding contemporary Christianity
