development as well as teacher education      *Global Perspectives on Online Education During a Time of Emergency: Conditions, Contexts and Critiques* Patricia Marybelle Davies, 2025-02-18 *Global Perspectives on Online Education During a Time of Emergency* presents viewpoints on the unprecedented shift to online education as a result of the COVID 19 pandemic. It aims to broaden and deepen readers' understanding of studies that could better address academic issues related to teaching and learning online. The pandemic triggered the disruption of national educational systems and a rapid transition to online education, but there were few guidelines on how to proceed. Consequently, the role of educational technologies and distinctions between formal and informal learning became blurred. Greenhow, Lewin 2016. This volume examines how educators adopted new pedagogical practices adapted to flexible working environments and tackled new technologies to maintain educational systems following the global outbreak of the coronavirus. It showcases innovative practices and critiques several learning theories of online education. The chapters are developed using two main approaches: empirical investigations and reviews of existing research. The empirical chapters present significant new findings of broad relevance. The review chapters use established studies to describe recent developments of broad significance and highlight unresolved questions and future directions. The volume as a whole provides research-based insights on evidence on the contexts and conditions of the emergency transition to online education worldwide and useful recommendations on emergent directions in online education. This is a vital text for educational researchers, technologists, and practitioners. It includes empirical data, theoretical questions, and methodological approaches addressing online education. The volume explores flexible learning, alternative pedagogical practices, and changes in digital environments, examining futuristic approaches at a crucial moment of global reform in online education.

*Mathematical Work in Educational Context* Alain Kuzniak, Elizabeth Montoya-Delgadillo, Philippe R. Richard, 2022-03-31 This book is a friendly and complete introduction to one of the most comprehensive contemporary theories of mathematics teaching and learning. By focusing on mathematical work performed by students and teachers during mathematics sessions, the theory of Mathematical Workings Spaces (MWS) has opened up new perspectives and avenues on mathematics education and mathematical thinking. In particular, it enables the identification of students' knowledge production processes and helps teachers to shape them. The first part of the book explores the heart of the theory and aims to further describe and understand epistemological and cognitive aspects of mathematical work. The second part develops the different MWS dedicated to observing how this work depends on the expectations of educational systems, how it is formed and taught, and how individuals appropriate it. In the last part, some applications and perspectives are discussed regarding topics of major importance today in mathematics education, which relate to technological and digital tools, teacher training, and modeling activities. In line with the spirit of the theory, the book was written to reflect the conceptual unity at the heart of the theory of MWS and at the same time to show the freedom and diversity of approaches given space therein. Written for researchers and professionals in mathematics education, it offers plenty of concrete examples.

from different educational systems around the world to illustrate the theoretical concepts and show the applicability of the theory to practice and research      *Teaching English in Multilingual Contexts* Graeme Cane, 2011-01-18 This collection of innovative thought provoking papers discusses contemporary issues practices and research related to the role and teaching of English in multilingual countries The papers written by experienced practitioners in the field from a number of different countries examine how the English language can be more effectively taught to students in Asia who speak English as their second third or fourth language The book will be of interest not only to linguists language teachers and educators but also to social science researchers involved in exploring the effects language policy can have on education and society at large The eleven chapters in this book are divided into three sections multilingual aspects in the teaching and learning of English code switching and code mixing and assessment Their authors came to Karachi from different academic cultural and geographic backgrounds and with diverse experiences of the world of English Language Teaching in order to participate in the Fifth International Seminar hosted by the Aga Khan University Centre of English Language The contributors are all multi linguals for whom the question of how best to teach languages is a challenge they face on a daily basis This small collection of papers is likely to become a powerful resource for English teachers scholars and researchers interested in the problems facing language educators in today s multilingual multi cultural world      Teacher Induction Policy in Global Contexts Jian Wang, 2024-07-01 Teacher induction is becoming increasingly important focus of education policy developed to help beginning teachers develop professionally and stay in teaching work force as a way to meet the needs of global economy and social transformation for teaching quality and student learning in many countries Policy borrowing is a common practice in teacher induction across different countries Such a policy borrowing allow policymakers in particular countries to access different options and choices in their policy development instead of trial and error However it is often done without a careful policy analysis as its base especially the analysis that focuses on the problems the borrowed policy intends to solve social political and educational contexts in which it develops explicit and implicit conceptual assumptions underlying it its implementation and associated challenges and its intended and unintended impacts Without such an analysis as its base the implementations of policy borrowed from other countries can causes unnecessary financial human resource and emotional costs in its context even if the policy prove to be successful in the other place This book serves for such needs of policy analysis in the field of teacher induction It starts with the book editor s overview of the book and its intention Then there are 16 chapters each is written by a distinguished scholar or a policy analyst from a particular country that analyzes the focuses contexts assumptions implementation challenges and consequences of a specific teacher induction policy developed in their home country and then raise important research questions emerging from their analysis The book is expected to attract readers including scholars policy makers practitioners and graduate students in different countries who have interests in teacher induction research policy and practice      Behavior Analysis and Treatment Ron Van Houten, Saul

Axelrod, 2013-11-22 In May 1986 the Association for Behavior Analysis ABA established a task force on the right to effective behavioral treatment The mandate of this task force was to identify and delineate specific rights as they apply to behavioral treatment Impetus for this project came in part from the controversy over the use of aversive procedures which some held had no place in treatment and with evolution of the treatment process were no longer necessary In contrast others cited evidence that programs based on positive reinforcement alone were sometimes not effective in treating severe problems These researchers and practitioners desired to ensure that clients and guardians be permitted to choose treatments that included punishment procedures when assessments warranted their use The first editor approached Ogden Lindsley president of ABA about establishing a task force to examine this issue The ABA council decided to broaden the mandate to include an examination of clients right to effective behavioral treatment in general The first editor was asked to chair the task force and appointed Saul Axelrod Jon S Bailey Judith E Favell Richard M Foxx and O Ivar Lovaas as members Brian A Iwata was appointed liaison by the ABA council
