fictional texts played an integral part in the violent acquisition of a foreign territory Through the production of myths around  
whiteness German and South African authors designed a literary space in which control destruction and the dehumanisation  
of African peoples are understood as a natural order one that is dictated by history and its linear continuation These

**My Lion's Heart** Gareth Patterson,2014-09-15 Environmentalist independent researcher and author Gareth Patterson has spent his entire adult life working tirelessly for the greater protection of African wildlife and more particularly for that of the lion Born in England in 1963 Gareth grew up in Nigeria and Malawi From an early age he knew where his life s path would take him it would be in Africa and his life s work would be for the cause of the African wilderness and its wild inhabitants His is an all encompassing African story From his childhood in West and East Africa to his study of a threatened lion population in a private reserve in Botswana to his work with George Adamson celebrated as the Lion Man of Africa we witness Gareth s growing commitment to his life s mission This is nowhere more evident than in his account of his life as a human member of a lion pride experiencing life and death through its eyes as he successfully rehabilitated three

famous orphaned lion cubs back into a life in the wilds At considerable risk to his own personal safety he exposed the sordid canned lion industry in South Africa bringing this shameful practice to international attention After moving to the Western Cape he took up the fight for the African elephant notably the unique endangered Knysna population and published his astonishing findings in his 2009 book *The Secret Elephants* Perhaps unsurprisingly given the stressful nature of his work Gareth suffered a massive physical and mental breakdown in his forties which he discusses here for the first time with an openness that underlines his courage Lesser men might have been broken but his lion's heart fought back and he ultimately overcame his illness Gareth Patterson's long awaited autobiography is a moving account of one man's single minded dedication to the preservation of Africa's wildlife It is also a stark reminder that if the human race does not want to lose Africa's priceless wild heritage there is no time to waste The lion is my totem animal and this is the story of my life in Africa for the lion *People, Places, and Mathematics* Thomas Ward, 2023-10-31 This memoir chronicles the journey of an academic tracing a path from primary school in Zambia to a career in higher education as a mathematician and educational leader Set against the backdrop of the 20th century the book explores how early influences and historical events shape an individual's life and professional trajectory The author shares childhood experiences across three parts of Africa providing an original perspective as a witness to the post colonial period Through personal reflections the memoir delves into the emergence of ideas and collaborations in mathematics and how these shape career choices It also offers candid observations on the major changes in British higher education since the 1980s Intended for a general audience this book provides a compelling read for anyone interested in the experience of becoming a mathematician and higher education in general

Under Different Skies Ron Player, 2013-05 Under Different Skies takes the reader to several countries in Africa and the Middle East during the 1950s and 60s at a time when many changes were happening. World War Two had caused a huge awakening in this region. All terrain vehicles and transistor radios were changing the expectations of people in many countries and revolution was always in the air.
