Spirituality and Deep Connectedness Michael C. Brannigan,2018-09-15 What is spirituality Does it enable us to be better persons Is spirituality related to religion These days is it even relevant On college campuses does it promote student well being Does it further moral growth Can spirituality make a difference in healthcare What about social justice and service to the marginalized This rich collection of essays by respected scholars and practitioners in diverse fields in academic healthcare social justice and interfaith contexts addresses these questions in strikingly profound and meaningful ways Their voices offer alternatives to the prevailing notion of spirituality as a purely private matter and make a case for living spiritually through deep and genuine engagement with others bridging our inherent and original fault line of Self and Other Their keen observations resuscitate the spiritual fabric of defiance against and liberation from forces of oppression which show their face not only through chronic inequities and social injustice but in consumer capitalism s grip on our souls This volume s dispatch to our minds and hearts is timely in an age of looming cynicism pessimism fear and distrust In carving out a renewed sense of what lies at the heart of living a life of the spirit or spirituality it offers an antidote to our widespread hermeneutic of suspicion None of the authors claims to encapsulate one pure meaning of the spiritual Yet they share one collective voice spirituality is indeed genuine when it calls forth compassion and wears the worn and tangled face of humaneness freeing ourselves from the prison of ego Here we find messages of hope much needed in a time when our society seems increasingly shadowed by dark clouds These essays remind us of what s right in the world

Burning Center, Porous Borders Eleazar S. Fernandez, 2011-10-17 Burning Center Porous Borders articulates what the church is and is called to be about in the world a world now globalized to the point that the local is lived globally and the global is lived locally The church must respond creatively and prophetically to the challenges economic disparity war and terrorism diaspora ecological threat health crisis religious diversity and so on posed by our highly globalized world It can do so only if the church's spiritual center burns mightily Conversely it can burn mightily in the spirit of Christ only if its borders are porous and allows the fresh air spirit of change to blow in and out While there is much rhetoric about change the most common response to change is to continue doing business as usual This is particularly the case in the face of perceived global threats In spite of the hoopla and euphoria of the global village walls of division and exclusion are rising hearts are constricting and moral imagination shrinking In response to this context Burning Center Porous Borders proposes alternative ways or images of being a church burning center and porous borders wall buster and bridge builder translocal global mending healer radical hospitality community of the earth spirit household of life abundant dialogians of life and community of hope In Burning Center Porous Borders congregational vitality and progressive praxis kiss and embrace

Teaching Ritual Catherine Bell, 2007-05-11 Many teachers share an interest in bringing a better appreciation of ritual into their religious studies classes but are uncertain how to do it Religious studies faculty know how to teach texts but they often have difficulty teaching something for which the meaning lies in the doing How do you teach such doing How much need be done How does the teacher talk about the religiosity that exists in personalized relationships not textual descriptions or prescriptions These practical issues also give rise to theoretical questions Giving more attention to ritual effectively suggests a reinterpretation of religion itself an understanding less focused on what people have thought and written and more focused on how they engage their universe Many useful analyses of ritual derive from anthropological and sociological premises which may be foreign to religious studies faculty and even seen by some as theologically problematic This is the first resource to address the issues specific to teaching this subject A stellar cast of contributors all scholars of ritual and teachers experienced in using ritual in a wide variety of courses and settings explain what has worked for them in the classroom what has not and what they have learned from the experience of being more real about religion Their voices range from personal to formal their topics from ways to use field trips to the role of architecture The result is a rich guide for teachers who are new to the subject as well as the experienced willing to think about new angles and fresh approaches

Precious Precarity Helen T. Boursier, 2024-05-21 Borders are places of collision People and politics compassion and cruelty law and lawlessness hope and despair idealism and

ideology life and death all collide at the border But these collisions have human faces North and south rich and poor nuns and nones desperation and courage a spirit draws all these poles together and a spirituality animates their encounter Precious Precarity examines the spirituality that emerges between life and death when vulnerable raced migrants must leave their homelands and traverse harsh environments to seek safety in an often unwelcoming foreign land The spirituality of displaced people mingles with that of volunteers advocates and environmentalists at the southwestern US Mexico border creating a unique and distinct spirituality in the borderlands It s a spirituality shaped by the reality of death and the passionate quest for safety and for life Informed by interviews activism scholarship original art and a practiced compassion Precious Precarity takes readers beyond the headlines policy debates good intentions and bad faith that too often dominate our understanding of the borderlands to reveal the ways in which human experience endures life s travails transcends its vagaries and vanities and persists in the face of danger and even death

Mysticism and Social Transformation Janet K. Ruffing, 2001-02-01 Where do Mysticism and and political action meet How does faith empower its adherents to resist oppression What are the origins of authentic contemporary mysticism From the thirteenth century Franciscan movement to African American mystics this wide ranging volume of essays considers exemplars of Christian mysticism including Teresa of Avila Ignatius of Loyola the Quakers and the Society of Friends whose practices and influence brought about social change Linking major conceptual issues and social theory the essays examine the historical impact of mysticism in contemporary life and argue for a hermeneutical approach to mysticism in its historical context The contributors look at how mystical empowerment can serve as a catalyst for expressing compassion in acts of justice and long term social change We learn how Sojourner Truth and Rebecca Cox Jackson driven by mystical experiences to take up lives of preaching faced the same misogynistic religious environments as did women mystics throughout history which has submerged this key area of women s experience The final two essays describe the development of socially engaged Buddhism in Asia and America and the mystical roots of deep ecology
