Simon Trussler, Clive Barker

The Masks Of Menander:

The Masks of Menander David Wiles, 2004 This book provides a detailed analysis of the conventions and techniques of performance characteristic of the Greek theatre of Menander and the subsequent Roman theatre of Plautus and Terence Drawing on literary and archaeological sources and on scientific treatises David Wiles identifies the mask as crucial to the actor's art and shows how sophisticated the art of the mask maker became He also examines the other main elements which the audience learned to decode costume voice movement etc In order to identify features that were unique to Hellenistic theatre he contrasts Greek new comedy with other traditions of masked performance A substantial part of the book is devoted to Roman comedy and shows how different Roman conventions of performance rest upon different underlying assumptions about religion marriage and class

The Masks of Menander David Wiles, 1991-07-18 An examination of the conventions and techniques of the Greek theatre of Menander and subsequent Roman theatre

Menander's Characters in Context Stavroula Kiritsi, 2020-01-06 Menander was renowned and still is for his naturalistic representations of character and emotion However times change and our ideas of what is natural change with them To appreciate Menander's art fully we need to attune ourselves to the expectations of his time and for this there is no better guide than Aristotle along with his successor Theophrastus who described and analysed notions of character and emotion in brilliant detail This book examines the relevant observations of Aristotle and explores two of Menander's comedies in this light It also discusses how these comedies which have only been recovered in the past century were adapted and performed on the Modern Greek stage where tastes were different and Menander had been virtually unknown The book's comparison of the ancient originals and the modern versions sheds new light on both as well as on cultural values then and now

New Theatre Quarterly 79: Volume 20, Part 3 Simon Trussler, Clive Barker, 2005-03-21 New Theatre Quarterly provides an international forum where theatrical scholarship and practice can meet and where prevailing dramatic assumptions can be subjected to vigorous critical questioning Volume 79 includes Karl Valentin's Illogical Subversion Stand up Comedy and Alienation Effect The Shaman and the Epic Theatre the Nature of Han in the Korean Theatre Dialogism and the Theatre Event Deborah Warner and Fiona Shaw's Medea 2001 The Irony of Passionate Chaos Modernity and Performing Medea Dance Culture and Statutory Politics Chiang Kai Shek and the Myth of Primitivism

Theatre in Ancient Greek Society J. R. Green, 2013-04-15 In *Theatre in Ancient Greek Society* the author examines the social setting and function of ancient Greek theatre through the thousand years of its performance history Instead of using written sources which were intended only for a small educated section of the population he draws most of his evidence from a wide range of archaeological material from cheap mass produced vases and figurines to elegant silverware produced for the dining tables of the wealthy This is the first study examining the function and impact of the theatre in ancient Greek society by employing an archaeological approach

Character and Person John Frow, 2014-04-17 Fictional character is an ontologically ambivalent category at once a formal construct and a quasi person

which lies at the heart of the life of textual fictions of all kinds Character and Person explores that ambivalence by investigating not only the kinds of thing that character is but how it works to engage readers and the range of typologies through which it has been constructed in very different periods media and genres John Frow seeks to explore the ways in which character is person like and through that the question of what it means to be a social person His focus is thus on the interaction between its two major categories and its method involves a constant play back and forth between them from philosophical theories of face to an account of the mask in the New Comedy from an exploration of medieval beliefs about the body's existence in the afterlife to a reading of Dante's Purgatorio from the history of humoral medicine to the figure of the melancholic in Jacobean drama and from Proust and Pessoa to cognitive science What develops from this methodological commitment to fusing the categories of character and person is an extended analysis of the schemata that underpin each of them in their distinct but mutually constitutive spheres of operation **Reproducing Athens** Susan Lape, 2009-01-10

Reproducing Athens examines the role of romantic comedy particularly the plays of Menander in defending democratic culture and transnational polis culture against various threats during the initial and most fraught period of the Hellenistic Era Menander's romantic comedies which focus on ordinary citizens who marry for love are most often thought of as entertainments devoid of political content Against the view Susan Lape argues that Menander's comedies are explicitly political His nationalistic comedies regularly conclude by performing the laws of democratic citizen marriage thereby promising the generation of new citizens His transnational comedies on the other hand defend polis life against the impinging Hellenistic kingdoms either by transforming their representatives into proper citizen husbands or by rendering them ridiculous romantic losers who pose no real threat to citizen or city In elaborating the political work of romantic comedy this book also demonstrates the importance of gender kinship and sexuality to the making of democratic civic ideology Paradoxically by championing democratic culture against various Hellenistic outsiders comedy often resists the internal status and gender boundaries on which democratic culture was based Comedy's ability to reproduce democratic culture in scandalous fashion exposes the logic of civic inclusion produced by the contradictions in Athens's desperately politicized gender system Combining careful textual analysis with an understanding of the context in which Menander wrote Reproducing Athens profoundly changes the way we read his plays and deepens our understanding of Athenian democratic culture Feminine Discourse in Roman Comedy Dorota M. Dutsch, 2008-08-07

As literature written in Latin has almost no female authors we are dependent on male writers for some understanding of the way women would have spoken Plautus 3rd to 2nd century BCE and Terence 2nd century BCE consistently write particular linguistic features into the lines spoken by their female characters endearments soft speech and incoherent focus on numerous small problems Dorota M Dutsch describes the construction of this feminine idiom and asks whether it should be considered as evidence of how Roman women actually spoke *The City as Comedy* Gregory W. Dobrov, 2017-10-10 These thirteen essays combine classical scholars

interest in theatrical production with a growing interdisciplinary inquiry into the urban contexts of literary production Taking as their departure point the annual comic competitions at the Athenian dramatic festivals the contributors examine how the polis as a place a political entity a specific social organization and a set of ideological representations was enacted on stage from the middle of the fifth century B C through the fourth Applying a variety of critical approaches to Athenian comedy these essays are grouped around three broad categories utopianism fissures in the social fabric and the new polis of fourth century comedy The contributors explore the sociopolitical and material contexts of the works discussed and trace the genre into the fourth century when it underwent profound changes Simultaneously a study of classical Greek literature and an analysis of cultural production this collection reveals how for two centuries Athens itself was transformed staged as comedy and ultimately shaped by contemporary material social and ideological forces The contributors are Elizabeth Bobrick Gregory Crane Gregory Dobrov Malcolm Heath Jeffrey Henderson Timothy P Hofmeister Thomas K Hubbard David Konstan Heinz GAnther Nesselrath Frank Romer Ralph M Rosen Niall W Slater and John Wilkins A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
