Democracy in the States Bruce E. Cain, Todd Donovan, Caroline J. Tolbert, 2011-06-01 Democracy in the States offers a 21st century agenda for election reform in America based on lessons learned in the fifty states Combining accessibility and rigor leading scholars of U S politics and elections examine the impact of reforms intended to increase the integrity fairness and responsiveness of the electoral system While some of these reforms focus on election administration which has been the subject of much controversy since the 2000 presidential election others seek more broadly to increase political participation and improve representation For example Paul Gronke Reed College and his colleagues study the relationship between early voting and turnout Barry Burden University of Wisconsin Madison examines the hurdles that third party candidates must

clear to get on the ballot in different states Michael McDonald George Mason University analyzes the leading strategies for redistricting reform And Todd Donovan Western Washington University focuses on how the spread of safe legislative seats affects both representation and participation Supreme Court Justice Louis Brandeis famously observed that a single courageous state may if its citizens choose serve as a laboratory and try novel social and economic experiments without risk to the rest of the country Nowhere is this function more essential than in the sphere of election reform as this important book shows Tapping State Government Information Sources Lori L. Smith, Daniel C. Barkley, Daniel D. Cornwall, Eric W.

Johnson, J. Louise Malcomb, 2003-11-30 Each state government produces large varieties and quantities of useful information that are largely unknown outside their state of origin This book leads the public to the most useful information sources produced by each state as well as to depository libraries that will facilitate more effective research For each of the 50 states important publications are detailed along with information on how to obtain them The publications topics range from crime statistics to vital statistics business statistics health information statistical abstracts education directories state budgets economic indicators state laws and legal information and more Tapping State Government Information Sources has a broader focus than previously published books in this subject area most of which have focused solely on depository laws useful state publications or indexes to state publications This book covers all three The first chapter describes print and electronic sources that provide information about all 50 states Each state's resources are then described in individual chapters When possible information about how to order a copy of the source is given as are Web addresses for titles that are available online At the beginning of each state chapter the state's legal definition of public document or its equivalent is given which may be of interest to librarians in states that are reexamining their own depository laws *Out of the Running* Shauna

Shames, 2018-07-03 An inside look into why Millennials are rejecting careers in politics and what this means for the future of America's political system Millennials are often publically criticized for being apathetic about the American political process and their lack of interest in political careers But what do millennials themselves have to say about the prospect of holding political office Are they as uninterested in political issues and the future of the American political system as the media suggests Out of the Running goes directly to the source and draws from extensive research including over 50 interviews with graduate students in elite institutions that have historically been a direct link for their graduates into state or federal elected office Harvard Law Harvard's Kennedy School of Government and Boston's Suffolk University Law School Shauna Shames herself a young graduate of Harvard University suggests that millennials are not uninterested rather they don't believe that a career in politics is the best way to create change Millennials view the system as corrupt or inefficient and are particularly skeptical about the fundraising frenzied media attention and loss of privacy that have become staples of the American electoral process They are clear about their desire to make a difference in the world but feel that the broken political system is not the best way to do so a belief held particularly by millennial women and women of color The implications of Shames

argument are crucial for the future of the American political system how can a system adapt and grow if qualified intelligent leaders are not involved An engaging and accessible resource for anyone who follows American politics Out of the Running highlights the urgent need to fix the American political system as an absence of diverse millennial candidates leaves its future in a truly precarious position *Cohesion and Discipline in Legislatures* Reuven Y. Kim,2007 As he systemically studies the barriers that Asian Americans face in the electoral and legislative processes Thomas Kim shows how racism is embedded in America s two party political system Here Kim examines the institutional barriers that Asian Americans face in the electoral and legislative processes Utilizing approaches from ethnic studies and political science including rational choice theory he demonstrates how the political logic of two party competition actually works against Asian American political interests According to Kim political party leaders recognize that Asian Americans are tagged with ethnic markers that label them as immutably foreign and as such parties cannot afford to be too closely associated with racialized Asian Americans In publicly

repudiating Asian American efforts to gain political power Kim asserts party elites are making rational strategic calculations Although other commentators have blamed the diversity of the Asian American population for its lack of political success Kim argues convincingly that race itself is the chief barrier to political participation and it will not be overcome simply by electing or appointing more Asian Americans to political office **New Serial Titles** ,1997 A union list of serials commencing publication after Dec 31 1949
