Words on Cassette, 2002 R R Bowker Publishing,2002 Patrick O'Brian's Bodies at Sea Michael Leigh Sinowitz,2014-08-05 An exploration of the complex roles that bodies both literally and figuratively play in the 21 volume Aubrey Maturin series reveals much about the novels many meditations on mind and body Beginning with a consideration of genre norms and the bodies of the novels main characters the book s focus shifts to the ways the series offers interconnections between the human body and history More literal considerations of the body examine O Brian s depictions

of drug use particularly the opium addiction that afflicts Stephen Maturin and human sexuality in its many guises The work then focuses on Desolation Island the fifth novel in the series in light of the discussions above but also in terms of political and psychological tropes that draw upon the relationship of mind and body Questions are examined about the relationship of reader to author and what sustains such a long narrative and what continues to bring a reader back again and again
