A high-contrast black and white image. The top half shows the dark, leafy branches of a tree against a bright, white sky. The bottom half shows the dark silhouettes of a man and a woman standing side-by-side, looking out over a bright, white landscape. The man is on the left, wearing a hat, and the woman is on the right. They are positioned in front of a dark, horizontal silhouette that appears to be a fence or a low wall.

Reproduction of the original *The Mayor's Wife* by Anna Katherine Green  
**States at War, Volume 3** Richard F. Miller, 2014-11-04  
While many Civil War reference books exist there is no single compendium that contains important details about the combatant states and territories that Civil War researchers can readily access for their work. People looking for information about the organizations, activities, economies, demographics, and prominent personalities of Civil War states and state governments must assemble data from a variety of sources, with many key sources remaining unavailable online. This volume provides a crucial reference book for Civil War scholars and historians, professional or amateur, seeking information about Pennsylvania during the war. Its principal sources include the Official Records, state adjutant general reports, legislative journals, state and federal legislation, executive speeches and proclamations on the federal and state levels, and the general and special orders issued by the military authorities of both governments, North and South. Designed and organized for easy use, this book can be read in two ways: by individual state, with each chapter offering a stand-alone history of an individual state's war years, or across states, comparing reactions to the same event or solutions to the same problems.

Džalto,2024-03-26 This book brings together essays by contemporary Orthodox theologians and scholars on Orthodox Christianity that analyze various aspects of the complex relationship between anarchism both as a concept and as a political philosophy and Orthodoxy As many studies have already shown the dominant theological approaches in Orthodox political theology have been characterized by the search for some kind of symphonia where a harmonious and mutually beneficial cooperation between the Church and the State has been sought Although one can see many alternative attempts in contemporary Orthodox political theology to move away from traditional monarchical and autocratic symphonic models the fact remains that most of those approaches still tend to provide theological articulations that rationalize and ultimately defend the dominant ideological systems such as those of the nation state or liberal democracy for instance There has been however another marginal and marginalized tradition in Orthodox Christian political theology which can be labelled as anarchist The purpose of this volume is to gather contemporary voices in and on Orthodox theology that explore this tradition in the history of Orthodox Christianity or that themselves employ an anarchist approach to the socio political sphere including the Church in its institutional functioning **Congressional Record** United States.
