**The Meaning of Life in Five Great Religions** Randolph Carleton Chalmers, John A. Irving, 1965      *Three Monotheistic Faiths - Judaism, Christianity, Islam* Dr. Andrea C. Paterson, 2009-05-21 This book is a synopsis of three monotheistic faiths Judaism Christianity and Islam their common areas and their differences The authors desire To show why she believes and to also prove that of the three main faiths existing in the world today Christianity a true and right personal relationship with Christ is the only vehicle to God It is only through Jesus Christ Gods Son that we find our way to Him John 14 6      *Exploring the Meaning of Life* Joshua W. Seachris, 2012-09-04 Much more than just an anthology this survey of humanity s search for the meaning of life includes the latest contributions to the debate a judicious selection of key canonical essays and insightful commentary by internationally respected philosophers Cutting edge viewpoint features the most recent contributions to the debate Extensive general introduction offers unprecedented context Leading contemporary philosophers provide insightful introductions to each section      *The Study of Religion and its Meaning* J.E. Barnhart, 2011-11-21 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline      **Meaning in Life** Thaddeus Metz, 2013-11-07 What makes a person s life meaningful Thaddeus Metz offers a new answer to an ancient question which has recently returned to the philosophical agenda He proceeds by examining what if anything all the conditions that make a life meaningful have in common The outcome of this process is a philosophical theory of meaning in life He starts by evaluating existing theories in terms of the classic triad of the good the true and the beautiful He considers whether meaning in life might be about such principles as fulfilling God s purpose obtaining reward in an afterlife for having been virtuous being attracted to what merits attraction leaving the world a better place connecting to organic unity or transcending oneself by connecting to what is extensive He argues that no extant principle satisfactorily accounts for the three fold significance of morality enquiry and creativity and that the most promising theory is a fresh one according to which meaning in life is a matter of intelligence contoured toward fundamental conditions of human existence      **The Meaning of Life in Five Great Religions. Edited by R.C. Chalmers and John A. Irving** Randolph Carleton Chalmers (Ed), John A. Irving (Joint Ed), 1965      *Eight Brief Lessons on Life* T. successful life      **The Mystery of the Universe and the Meaning of Human Life** Witness Lee, 2024-02-15 Today man feels empty insecure wavering and restless and has no calming and stabilizing power within simply because he lacks God within God is man's content and man should be God's expression For this goal God created a spirit especially for man This spirit is the organ for man to contact God just like a receiver in a radio Our conscience the deep part in us our spirit always gives us a feeling that there is a Supreme Being that there is a God in this universe This proves two things First we have a spirit within and second we need God in our spirit      **An Alternative Philosophy of Development** Birendra Prasad Mathur, 2016-11-25 16 Indian culture and money challenge of a materialist world 17 Quest for happiness public policies and national happiness 18 Synergizing development with cultural ethos Index      *Religious Books, 1876-1982*, 1983 Prepared by the R R Bowker Company's Department of Bibliography in collaboration with the Publications Systems Department Page opposite t p Includes indexes Author Index 3901 4069 Title Index 4071 4389      *Twenty-Five Years of the Life Review* Robert Disch, 2014-09-03 In this thought provoking book professionals in the field of aging examine the history and concept of the life review The life review a theory about the nature of the life cycle first presented in 1962 has become a foundation for program development with the elderly This unique analysis of the life review goes beyond the early formulation both in theory and practice Critics of the life review suggest ways in which the theory can be modified and expanded and offer several unique methods of creatively adapting these criticisms and changes to practical purposes Proponents of the life review while emphasizing that reminiscence is not a panacea proclaim its historical educational and therapeutic value

Rethinking Nature Aurélie Choné, Isabelle Hajek, Philippe Hamman, 2017-05-18 Contemporary ideas of nature were largely shaped by schools of thought from Western cultural history and philosophy until the present day concerns with environmental change and biodiversity conservation There are many different ways of conceptualising nature in epistemological terms reflecting the tensions between the polarities of humans as masters or protectors of nature and as part of or outside of nature The book shows how nature is today the focus of numerous debates calling for an approach which goes beyond the merely technical or scientific It adopts a threefold critical historical and cross disciplinary approach in order to summarise the current state of knowledge It includes contributions informed by the humanities especially history literature and philosophy and social sciences concerned with the production and circulation of knowledge about nature across disciplines and across national and cultural spaces The volume also demonstrates the ongoing reconfiguration of subject disciplines as seen in the recent emergence of new interdisciplinary approaches and the popularity of the prefix eco e g ecocriticism ecospirituality ecosophy and ecofeminism as well as subdivisions of ecology including urban ecology industrial ecology and ecosystem services Each chapter provides a concise overview of its topic which will serve as a helpful introduction to students and a source of easy reference This text is also valuable reading for researchers interested in philosophy sociology anthropology geography ecology politics and all their respective environmentalist strands      *LIFE*
