connections dispositional orientations and affective circuits that emerge in the meantime even in the most desperate times

**Yearnings in the Meantime** Stef Jansen, 2015-06-01 Shortly after the book's protagonists moved into their apartment complex in Sarajevo they like many others were overcome by the 1992-1995 war and the disintegration of socialist Yugoslavia. More than a decade later in post-war Bosnia and Herzegovina they felt they were collectively stuck in a time warp where nothing seemed to be as it should be. Starting from everyday concerns this book paints a compassionate yet critical portrait of people's sense that they were in limbo, trapped in a seemingly endless Meantime. Ethnographically investigating yearnings for normal lives in the European semi-periphery it proposes fresh analytical tools to explore how the time and place in which we are caught shape our hopes and fears.

**Faithful in the Meantime** Barry L. Callen, 2017-06-27 Barry Callen is a church theologian in the finest sense. In this book he once again brings the commitments nurtured by Pietist, Anabaptist, and Wesleyan theological streams into conversation with the issues and debates in contemporary church life and with the most formative voices in contemporary theology. The result is a convincing reminder that Christian teachings about ultimate things, eschatology, are much more concerned with providing hope and direction for living faithfully in our present settings than they are with providing timetables for the future. His exposition of the role of the church and sacrament in nurturing such hope is particularly helpful. Randy L. Maddox, Professor of Wesleyan and Methodist Studies, Duke University Divinity School. In a day when fanciful end-times speculations abound, the church does well to give heed to voices that call us back to the fundamentals of biblical eschatology. Barry Callen is such a voice. As he so forcefully declares, rather than focusing on dates and times, God calls us to be faithful in the meantime. Stanley J. Grenz, Professor Emeritus of Theology, Ethics, Baptist Heritage, Carey Theological College and Regent College. The doctrine of last things is important because faith would be empty if it could not hope for the coming of the kingdom of God. What we have in eschatology are not so much secrets about the future as images of God's final purposes which are meant to impact our every action and judgment. Here we have, thanks to Barry Callen, a responsible, informed, interesting, and up-to-date account of our blessed hope. Clark H. Pinnock, Professor Emeritus of Theology, McMaster Divinity College. Barry L. Callen is University Professor and Vice President of Academic Affairs, Emeritus, Anderson University. Editor of Aldersgate Press, author of *Radical Christianity* (1999), *Approaching Theology* (2015), *Heart of the Matter* (2016), and *Bible Stories for Strong Stomachs* (2017).

**Medicine in the Meantime** Ramah McKay, 2017-12-21 In Mozambique, where more than half of the national health care budget comes from foreign donors, NGOs and global health research projects have facilitated a dramatic expansion of medical services. At once temporary and unfolding over decades, these projects also enact deeply divergent understandings of what care means and who does it. In *Medicine in the Meantime*, Ramah McKay follows two medical projects in Mozambique through the day-to-day lives of patients and health care providers, showing how transnational medical resources and infrastructures give rise to diverse possibilities for work and care amid constraint. Paying careful attention to the specific postcolonial and postsocialist context

of Mozambique McKay considers how the presence of NGOs and the governing logics of the global health economy have transformed the relations between and within bodies medical technologies friends kin and organizations that care requires and how such transformations pose new challenges for ethnographic analysis and critique

In the Meantime Sarah Sharma, 2014-02-07 The world is getting faster This sentiment is proclaimed so often that it is taken for granted rarely questioned or examined by those who celebrate the notion of an accelerated culture or by those who decry it Sarah Sharma engages with that assumption in this sophisticated critical inquiry into the temporalities of everyday life Sharma conducted ethnographic research among individuals whose jobs or avocations involve a persistent focus on time taxi drivers frequent flyer business travelers corporate yoga instructors devotees of the slow food and slow living movements Based on that research she develops the concept of power chronography to make visible the entangled and uneven politics of temporality Focusing on how people's different relationships to labor configures their experience of time she argues that both speed up and slow down often function as a form of biopolitical social control necessary to contemporary global capitalism
