The Mechanism Of Evolution A New Look At Old Ideas:

The Mechanism of Evolution: A New Look at Old Ideas M. de Issekutz Wolsky, A. Wolsky, 1976-10-11 *The Role of Behavior in Evolution* Henry C. Plotkin, 1988 These six original essays focus on a potentially important aspect of evolutionary biology the possible causal role of phenotypic behavior in evolution Balancing theory with actual or potential empiricism they provide the first full examination of this topic Plotkin's opening chapter outlines the conceptual minefields that the contributors attempt to negotiate What is an adequate theory of evolution What is behavior and is it possible to maintain a distinction between behavior and other attributes of the phenotype is all or only a special subset of behavior both a cause and a consequence of evolution And what do the theoretical issues mean in empirical terms He concludes that any attempt to understand the causal role of behavior in evolution requires a more complicated theoretical structure than that of orthodox neoDarwinism a conceptualization of behavior as a distinctive set of phenotypic attributes and the accumulation of more data David L Hull Northwestern University provides an alternative account of the evolutionary process by developing a hierarchy of replicators interactors lineages to replace the traditional one of genes organisms species Robert N Brandon Duke University also posits hierarchy as an appropriate architecture for the theoretical complexity needed to support an examination of the role of behavior in evolution F J Odling Smee Brunel University outlines a theoretical structure to encompass the behavior of phenotypes concentrating on the unrestricted definition of behavior everything that an animal does The remaining chapters are as much concerned with evidence as with theory Plotkin concentrates on a restricted definition of behavior behavior that is a product of choosing intelligence reviewing our empirical knowledge of how learning might influence evolution R I M Dunbar University College London uses empirical studies of vertebrate social behavior to deal with the question of how the social systems especially of primates might have a causal role in species evolution A Bradford Book *Evolution: Genesis and Revelations* C. Leon Harris, 1981-06-30 In this comprehensive history of evolutionism C Leon Harris has combined primary source readings with clear pertinent background information to provide a solid basic understanding of the ways scientists have arrived at today's views of evolution Harris describes the major contributors to the theory of evolutionism placing each in the context of the general cultural influences to which he was exposed Each chapter also contains an explanation of the philosophical basis of the scientific approach of the period in question A lengthy bibliography provides direction for further reading on this important and timely subject Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 **The Origins of Agriculture** David Rindos, 2013-10-22 *The Origins of Agriculture An Evolutionary Perspective* presents an alternative approach to understanding cultural variation and change It aims to demonstrate that domestication and the origin of agricultural systems are best understood by attempting to explicate the evolutionary forces that affected that development of domesticates and agricultural systems The book begins by discussing cultural change the domestication of plants and the

origin of agricultural systems in the most general of terms It considers Darwinism in some depth concentrating on the relationship between natural selection and cultural change Subsequent chapters examine the world of domestication and agriculture and present a series of concepts that may permit a more natural explanation for these processes These include concepts such as incidental domestication specialized domestication and agricultural domestication The final two chapters present models for the origin and spread of agricultural systems based upon Darwinian evolutionary theory **The Play of Children: Current Theory and Research** D. J. Pepler,K. H. Rubin,1982-09-16 **Social Development in Youth: Structure and Content** J. A. Meacham,N. R. Santilli,1981-09-15 *The Origin of Species Revisited: Science* Wendell R. Bird,1991 Presents an in depth comparison of Darwin s theory of evolution versus the theory of creation and the theory of abrupt appearance **The Origin of Species Revisited: Philosophy of science, philosophy of religion, history, education, and constitutional issues** Wendell R. Bird,1991 Presents an in depth comparison of Darwin s theory of evolution versus the theory of creation and the theory of abrupt appearance **The Science of Human Evolution** John H. Langdon,2016-10-25 This textbook provides a collection of case studies in paleoanthropology demonstrating the method and limitations of science These cases introduce the reader to various problems and illustrate how they have been addressed historically The various topics selected represent important corrections in the field some critical breakthroughs models of good reasoning and experimental design and important ideas emerging from normal science *Origin of Species Revisited: Philosophy of science, philosophy of religion, history, education, and constitutional issues* Wendell R. Bird,1989 **Issues in Evolutionary Epistemology** Kai Hahlweg,Clifford Alan Hooker,1989-01-01 This book provides the fullest philosophical examination of theories of evolutionary epistemology now available Here for the first time are found major statements of new theories new applications and many new critical explorations The book is divided into four parts Part I introduces several new approaches to evolutionary epistemology Part II attempts to widen the scope of evolutionary epistemology either by tackling more traditional epistemological issues or by applying evolutionary models to new areas of inquiry such as the evolution of culture or of intentionality Part III critically discusses specific problems in evolutionary epistemology and Part IV deals with the relationship of evolutionary epistemology to the philosophy of mind Because of its intellectual depth and its breadth of coverage *Issues in Evolutionary Epistemology* will be an important text in the field for many years to come *The Facts of Life* Richard Milton,1992 **American Book Publishing Record Cumulative, 1950-1977** R.R. Bowker Company. Department of Bibliography,1978 **The Psychodynamic Foundations of Morality** Rachael M. Henry,1983 **Medical and Health Care Books and Serials in Print** ,1997 *Biology forum* ,1991 *Didakometry* ,1978 *Current Advances in Genetics* ,1977 *Medical Books and Serials in Print* ,1984
