A History of Personality Psychology Frank Dumont, 2010-02-18 In this book Frank Dumont presents personality psychology with a fresh description of its current status as well as its prospects Play sex cuisine creativity altruism pets grieving rituals and other oft neglected topics broaden

the scope of this fascinating study This tract is imbued with historical perspectives that reveal the continuity in the evolving science and research of this discipline over the past century The author places classic schemas and constructs as well as current principles in the context of their socio political catalysts He further relates this study of the person to life span developmental issues and to cultural gender specific trait based genetic epigenetic and evolutionary research findings Personality psychology has recently reconciled itself to more modest paradigms for describing explaining and predicting human behaviour than it generated in the 19th and 20th centuries This book documents that transformation providing valuable information for health service professionals as well as to teachers researchers and scientists

Shakespeare's Spiral François-Xavier P. Gleyzon, 2010-03-19 Shakespeare's Spiral aims to explore a figure forgotten in the dramatic texts of Shakespeare and in Renaissance painting the snail Taking as its point of departure the emergence of the gastropod object subject in the text of King Lear as well as its iconic interface in Giovanni Bellini's painting Allegory of Falsehood circa 1490 this study sets out to follow the particular path traced by the snail throughout the work From the central scene in which the metaphor of the snail and of its shell is specifically made manifest when Lear discovers in a raging storm the spectacle of Edgar disguised as Poor Tom coming out of his shelter III 3 6 9 to the monster this fiend displaying on the cliffs of Dover horns whelked and waved like the enridged sea IV 6 71 this work is the trace of a narrative of a journey of the gaze during the course of which the cryptic question of the gastropod Why a Snail I 5 26 does not cease to be developed and transformed Incorporating a wide ranging post structuralist critique the study aims to bring to light the particular functions of this revealing detail in both its textual and visual dimension so as to put forward a new and innovative understanding of the tragedy of King Lear

Causes, Agents, Explanations, and Free Will Martin Gerwin, 2018-02-13 Many have thought that if everything is caused human free will must be an illusion This kind of determinism however is seemingly antithetical to our lived experience of the world In *Causes Agents Explanations and Free Will* philosopher Martin Gerwin argues that there is no reason to doubt that we have free will rather the illusion is that everything is caused in the same deterministic way Our very idea of cause and effect is rooted in our experience of being agents who make things happen But from this experience we derive not a single unified idea of causation but an idea with different variants Gerwin traces the evolution of this agency view of causality in Western philosophy over the past three centuries He explores its relation to the canons of scientific explanation and the findings of quantum mechanics He also offers a brief formal development of a tensed modal logic that serves to articulate the distinctive sense of I can stemming from the experience of agency The result is a fresh innovative defence of the possibility of free will
