*Jerome and the Jews* William L. Krewson, 2017-05-31 Jerome rocked the boat in which the early church had been comfortably settled for two hundred years He upset Christian tradition by arguing for the priority of the Hebrew Old Testament over the supposedly inspired Greek Septuagint He learned Hebrew from a Jewish teacher and translated the Old Testament directly from Hebrew into Latin Not only did his new Latin translation create turmoil but the inclusion of Jewish interpretations in his commentaries furthered the controversy Unlike his contemporaries Jerome viewed the Jews and their homeland as a source of information and inspiration However at the same time Jerome freely admitted his hatred of the Jews and their religion His caustic rhetoric reinforced the Christian church's displacement of the Jews but it seems to oppose his move toward appreciating Jewish resources This book illuminates Jerome's contradictory personality proposes a solution and explores avenues for current Christian and Jewish relations in light of Jerome's model

**The Encroaching Desert: Egyptian Hagiography and the Medieval West** Jitse Dijkstra, Han van Dijk, 2006-11-30 This volume presents a series of case studies concerning the use and reuse of Egyptian hagiography in Late Antiquity and the Middle Ages The first three contributions analyze the use of Egyptian hagiography in the context of late antique Egypt and in particular examine to what extent these texts can be used as historical sources for the reconstruction of traditional pagan religion The other contributions illustrate the different contexts in which Egyptian hagiography was reused in the medieval West The book is an important contribution to the current debate about the usefulness of Egyptian hagiography as a historical source for late antique Egypt and to the study of the reception of the desert fathers in the medieval West Contributors include Lynda L Coon Mathilde van Dijk Jitse H F Dijkstra David Frankfurter Conrad Leyser Peter van Minnen Claudia Rapp Bert Roest Eric L Saak Gabriela Signori and Jacques van der Vliet

**The Insurmountable Darkness of Love** Douglas E. Christie, 2022 This book is a reflection on the meaning of spiritual darkness especially those difficult places in human experience where meaning seems to elude us where we are emptied out and are compelled to dig deeper into who we truly are. Douglas E. Christie takes up this facet of experience in ordinary human experience but also in relation to the Christian contemplative and mystical traditions where such experience is often understood to be both painful and transformative allowing the mind and heart to open in love.

**Sainthood and Race** Molly H. Bassett, Vincent W. Lloyd, 2014-09-04 In popular imagination saints exhibit the best characteristics of humanity universally recognizable but condensed and embodied in an individual. Recent scholarship has asked an array of questions concerning the historical and social contexts of sainthood and opened new approaches to its study. What happens when the category of sainthood is interrogated and inflected by the problematic category of race? **Sainthood and Race Marked Flesh** Holy Flesh explores this complicated relationship by examining two distinct characteristics of the saint's body: the historicized marked flesh and the universal holy flesh. The essays in this volume comment on this tension between particularity and universality by combining both theoretical and ethnographic studies of saints and race across a wide range of subjects within the humanities. Additionally, the book's group of emerging and established religion scholars enhances this discussion of sainthood and race by integrating topics such as gender, community, and colonialism across a variety of historical, geographical, and religious contexts. This volume raises provocative questions for scholars and students interested in the intersection of religion and race today.

**The Beginnings of the Cult of Relics** Robert Wiśniewski, 2019 Christians have often admired and venerated the martyrs who died for their faith but for a long time thought that the bodies of martyrs should remain undisturbed in their graves. Initially the Christian attitude towards the bones of the dead saint or not was that of respectful distance. **The Beginnings of the Cult of Relics** examines how this attitude changed in the mid-fourth century. Robert Wiśniewski investigates how Christians began to believe in the power of relics: first over demons, then over physical diseases and enemies. He considers how the faithful sought to reveal hidden knowledge at the tombs of saints and why they buried the dead close to them. An essential element of this new belief was a strong conviction that the power of relics was transferred in a physical way and so the following chapters study relics as material objects. Wiśniewski analyses how contact with relics operated and how close it was. Did people touch, kiss, or look at the very bones or just at tombs and reliquaries which contained them? When did the custom of dividing relics begin? Finally, the book deals with discussions and polemics concerning relics and attempts to find out the strength of the opposition which this new phenomenon had to face both within and outside Christianity on its way to become an essential element of medieval

religiosity      **The Pilgrimage of Egeria** Anne McGowan, Paul F. Bradshaw, 2018-06-01 This new version of the late fourth century diary of journeys in and around the Holy Land known as the *Itinerarium Egeriae* provides a more literal translation of the Latin text than earlier English renderings with the aim of revealing more of the female traveler's personality. The substantial introduction to the book covers both early pilgrimage as a whole especially travel by women and the many liturgical rites of Jerusalem that Egeria describes. Both this and the verse by verse commentary alongside the translated text draw on the most recent scholarship making this essential reading for pilgrims, students and scholars seeking insight into life and piety during one of Christianity's most formative periods.

**The Life of the Syrian Saint Barsauma**, 2020-09-01 Andrew N. Palmer's vivid translation of the Syriac *Life of Barsauma* opens a fascinating window onto the ancient Middle East seen through the life and actions of one of its most dramatic and ambiguous characters: the monk Barsauma, ascetic hero to some, religious terrorist to others. The *Life* takes us into the eye of the storm that raged around Christian attempts to define the nature of Christ in the great Council of Chalcedon, the effect of which was to split the growing Church irrevocably with the Oriental Orthodox on one side and Greek Orthodox and Roman Catholic on the other. Previously known only in extracts, this ancient text is now finally brought to readers in its entirety, casting dramatic new light on the relations among pagans, Jews and Christians in the Holy Land and on the role of religious violence, real or imagined, in the mental world of a Middle East as shot through with conflict as it is today.

*Jerome's Epitaph on Paula* Saint Jerome, 2013-07-11 Composed in 404, Jerome's *Epitaph on Saint Paula* (*Epitaphium Sanctae Paulae*) is an elaborate eulogy commemorating the life of Paula, 347-404, a wealthy Christian widow from Rome who renounced her senatorial status and embraced an ascetic lifestyle and in 386 co-founded with Jerome a monastic complex in Bethlehem.

*Liturgical Subjects* Derek Krueger, 2014-09-05 *Liturgical Subjects* examines the history of the self in the Byzantine Empire, challenging narratives of Christian subjectivity that focus only on classical antiquity and the Western Middle Ages. As Derek Krueger demonstrates, Orthodox Christian interior life was profoundly shaped by patterns of worship introduced and disseminated by Byzantine clergy. Hymns, prayers and sermons transmitted complex emotional responses to biblical stories, particularly during Lent. Religious services and religious art taught congregants who they were in relation to God and each other. Focusing on Christian practice in Constantinople from the sixth to eleventh centuries, Krueger charts the impact of the liturgical calendar, the eucharistic rite, hymns for vigils and festivals, and scenes from the life of Christ on the making of Christian selves. Exploring the verse of great Byzantine liturgical poets including Romanos the Melodist, Andrew of Crete, Theodore the Stoudite, and Symeon the New Theologian, he demonstrates how their compositions offered templates for Christian self-regard and self-criticism, defining the Christian. In Cantors' choirs and congregations sang in the first person singular, expressing guilt and repentance while prayers and sermons defined the collective identity of the Christian community as sinners in need of salvation. By examining the way models of selfhood were formed, performed and transmitted in the Byzantine Empire, *Liturgical Subjects* adds a vital

dimension to the history of the self in Western culture
