The Metaphysics of Experience Elizabeth M. Kraus,1998 The Metaphysics of Experience styles itself as a Sherpa guide to Process and Reality whose function is to assist the serious reader in grasping the meaning of the text and to prevent falls into misinterpretation Although originally published in 1925 Process and Reality has perhaps even more relevance to the contemporary scene in physics biology psychology and the social sciences than it had in the mid twenties Hence its internal difficulty its quasi inaccessibility is all the more tragic since unlike most metaphysical endeavors it is capable of interpreting and unifying theories in the above sciences in terms of an organic world view instead of selecting one theory as the paradigm and reducing all others to it Because Alfred North Whitehead is so crucial to modern philosophy The Metaphysics of Experience plays an important role in making Process and Reality accessible to a wider readership **The Metaphysics of**

The Epochal Nature of Process in Whitehead's Metaphysics F. B. Wallack, 1980-06-30 While my book attempts to reflect the full range of scholarly debate I have also attempted to make it useful to anyone interested in Whitehead To this end I have introduced the Whiteheadian terms one by one explaining each in the light of my interpretation and I have used examples wherever possible I try to show that Whitehead intended his philosophy have a place in our lives by reshaping our common conceptions and that he did not intend it to be relegated to purely abstract or esoteric application F Bradford Wallack The twentieth century has seen the greatest innovations in philosophical cosmology since Newton and Descartes and Alfred North Whitehead was the first and greatest of the philosophers to work out these innovations in systematic ways In a book that will be controversial in the philosophical community F Bradford Wallack argues that interpretations widely accepted by Whiteheadians need revaluation because these interpretations are based on materialist and substantialist assumptions that Whitehead sought to replace Specifically she proposes a thorough revision of accepted interpretations of Whitehead's concept of the actual entity Wallack then elucidates Whitehead's ideas in order of their increasing dependence upon other basic Whiteheadian terms to complete the study of Whiteheadian time and to clarify its purpose within the cosmology of Process and Reality Whitehead's philosophy then emerges as more intelligible and cohesive than is generally believed

Whitehead's Metaphysics Edward Pols, 1967 Edward Pols has made it his purpose in this perceptive study to deal with the aspects of Whitehead's philosophy that belong to traditional metaphysics Mr Pols closely examines Process and Reality Whitehead's chief metaphysical work and uses Science and the Modern World Adventures of Ideas and Modes of Thought to clarify difficulties with some of the doctrines in that work Mr Pols's primary concern is with freedom and he uses this single theme to examine Whitehead's metaphysical system in depth

An Interpretation of Whitehead's Metaphysics William A. Christian, 1959 This analysis of Whitehead's philosophy provides both a lucid interpretation of his metaphysical system and a guide to his later writings The author who has spent long years studying the development and significance of Whitehead's complex inquiry into the nature of man's universe shows the interrelationships of its separate phases and indicates the meaning of the whole Mr Christian does not attempt to judge the truth of Whitehead's system but in showing what Whitehead has said in his later writings does suggest how the system may be judged Publisher

Whitehead's Metaphysics of Creativity Friedrich Rapp, Reiner Wiehl, 1990-01-01 Twelve papers presented at the International Whitehead Symposium October 1983 in Bad Homburg West Germany Topics include Whitehead's place in the history of philosophy the connection between empirical results and their metaphysical interpretation cosmological and anthropological dimensions and the relation between the philosophical and theological interpretations of creativity Paper edition unseen 16 95 Annotation copyrighted by Book News Inc Portland OR

The Metaphysics of Becoming Thomas Padiyath, 2014-08-22 This study

attempts to elucidate a possible meeting point of the traditions of Eastern and Western metaphysical thinking In discussing Whitehead's and Aurobindo's views on being and becoming it seeks the possibility of a better engagement between the East and the West in the light of the philosophical insights It is an initiation into the *Sitz im Leben* of Whitehead's philosophy and his general thought pattern It carries a perceptive analysis to show the clear primacy of Becoming or Process in Whitehead that extends even to the Divine It also highlights Aurobindo as a unique Indian Philosopher who articulated Indian thought in Western categories He was able to integrate the evolutionary theory of the West with the Indian understanding of becoming The relationship between God and Creativity and Sachchidananda and the Supermind is studied within the context of Enlightenment and Modernity and the way of doing philosophy in the West and in the East *Coming to Be* James W. Felt, 2000-11-30 This book explores the possibility of using the twentieth century process philosophy of Alfred North Whitehead to modernize the thirteenth century metaphysics of St Thomas Aquinas in order to make better philosophical sense of the evolutionary processes of the world Due to certain limitations neither philosophy has been able to provide satisfactory metaphysical accounts of the world In joining the two these individual limitations are avoided and the advantages of each Thomistic metaphysics with its deeper ontology Whiteheadian metaphysics with its ability to account for the evolutionary advances now apparent in the universe provide a revised theory that is a kind of process enriched Thomism
