The Middle East And The United States Perceptions And Policies:

The Middle East and the United States Haim Shaked, Itamar Rabinovich, 1980-01-01 Like its two predecessors in the Collected Papers series this volume is based on the proceedings of an international colloquium held at Tel Aviv University. The colloquium was organized in March 1978 by the Shiloah Center in cooperation with the University's newly established Center for Strategic Studies. As the title and subtitle imply special emphasis was laid on the images and perceptions that people of the Middle East and the United States have had of one another and the way in which their relationship is viewed from within the area from Washington and from other pertinent vantage points. The conference also dealt with five other major issues: the historic background and evolution of American policy in the Middle East papers by Elie Kedourie from the London School of Economics and Wilfrid Knapp from Oxford University; American interests in the Middle East papers by Uzi Arad from Tel Aviv University, Gad Gilbar from Haifa University and Bernard Reich from George Washington University; the international context within which American policy in the area is conducted Ya'acov Ro'i from Tel Aviv University, Richard Rosecrance from Cornell University and Udo Steinbach from the Orient Institut in Hamburg; the formulation of American policies in the Middle East Steven Spiegel from UCLA; and America's bilateral relationship with several Middle Eastern states papers by Yoram Dinstein, Yair Evron, Gideon Gera, Itamar Rabinovich and Shimon Shamir from Tel Aviv University and John Waterbury from Princeton University. The papers which dealt directly with views, images and their depiction were presented by Bernard Lewis from Princeton University and the Institute for Advanced Study and Haim Shaked from Tel Aviv University.

position when the Palestine issue came before the United Nations in 1947. In addition to political support at the UN from May 1947 to May 1949, important military assistance was rendered to the Jewish Palestinian Yishuv throughout 1948 by the Eastern bloc. Toward the end of that year, however, indications of change became apparent and the Soviet Union began criticizing Israel. This book studies the USSR's attitude toward the establishment of a Jewish state in Palestine in the immediate post-World War II period and toward Israel in the first years of its existence and it investigates the complex of considerations that caused the initial apparent reversal of traditional Soviet anti-Zionism. The author contends that this support for Israel contributed considerably to the evoking of Soviet Jewry's enthusiastic reaction to the establishment of the State. But this very reaction resulted in turn in Moscow changing its tactics again since it could not allow its Jewish citizens to identify with a state outside the Soviet Union and the Communist orbit. During the few years after the Israeli War for Independence in which the Arab-Israeli conflict was relatively low key, the USSR adopted a position of seeming neutrality between two sides while quietly wooing the Arab nations. Ro'i examines how, toward the end of the Stalin period, the Jewish problem again intervened with the infamous Doctor's Plot and how, early in 1953, the Soviet Union severed diplomatic relations with Israel. One year later, the USSR cast its first two pro-Arab vetoes in the UN Security Council and from this point on, Soviet-Israeli relations openly became a function of the increasingly cordial Soviet friendship with the Arab world.

European Union Policy towards the Arab-Israeli Peace Process C. Musu, 2010-02-12. What are the achievements, the limits and the failures of the EU's involvement in the Arab-Israeli conflict? This book sets out to answer this question by analysing the development of European policy towards the conflict over the last forty years. **Soviet Perceptions Of The Oil Factor**

In U.S. Foreign Policy Herbert L. Sawyer, 2019-06-21. America's energy position and that of the West in general is vulnerable. The major source of that vulnerability is the potential that oil supplies from the Gulf¹ could be interrupted for an extended period. The fact that during the first quarter of 1983 U.S. crude oil imports dropped to 2.8 million barrels a day (mbd) from 4 mbd during the same quarter in 1982 is a very substantial decrease of thirty percent from what was already a relatively low level; it is less comforting than it appears. In spite of this decrease in demand, U.S. reserve stocks could be eliminated by an increased demand for oil stemming from a vigorous economic recovery in the West. If in the context of such a recovery the members of the Organization of Petroleum Exporting Countries (OPEC) could overcome their current disagreements and introduce some discipline regarding production levels, they might be able to reestablish a tight supply situation in the world oil market. Moreover, even if such developments do not take place, there is always the chance of a major upheaval in the Middle East/Gulf region given the volatility of the area that could be disruptive enough to cause a substantial reduction in oil supplies. In this context, it must be recognized that America's energy vulnerability is inseparable from that of the West in general because of the fungibility of oil. *Southeast Asia Views the United States* Ann Marie Murphy, 2025-01-28. This book is a comprehensive study of Southeast Asian views of their respective countries' foreign

policies towards the United States The Southeast Asian contributors are all individuals who bridge both academia and foreign policy circles in their countries in Southeast Asia the Indo Pacific more broadly and globally There is a dearth of theoretically informed empirically rich literature on the foreign policies of Southeast Asian states This volume with eight chapters written by some of Southeast Asia s leading analysts is therefore important timely and fills a large gap in the literature

The Origins of Alliances Stephen M. Walt, 2013-08-10 The Origins of Alliances offers a different way of thinking about our security and thus about our diplomacy It ought to be read by anyone with a serious interest in understanding why our foreign policy is so often self defeating New Republic How are alliances made In this book Stephen M Walt makes a significant contribution to this topic surveying theories of the origins of international alliances and identifying the most important causes of security cooperation between states In addition he proposes a fundamental change in the present conceptions of alliance systems Contrary to traditional balance of power theories Walt shows that states form alliances not simply to balance power but in order to balance threats Walt begins by outlining five general hypotheses about the causes of alliances Drawing upon diplomatic history and a detailed study of alliance formation in the Middle East between 1955 and 1979 he demonstrates that states are more likely to join together against threats than they are to ally themselves with threatening powers Walt also examines the impact of ideology on alliance preferences and the role of foreign aid and transnational penetration His analysis show however that these motives for alignment are relatively less important In his conclusion he examines the implications of balance of threat for U S foreign policy

Perceptions and Behavior in Soviet Foreign Policy Richard K. Herrmann, 2010-11-23 This book discerns Soviet leaders views of the United States and sees them in relation to foreign policy statements and actions Hermann first examines the subtle problem of analyzing perceptions and interpreting motives from the words and deeds of national leaders He then turns to cases measuring the dominant U S hypotheses about the USSR against Soviet behavior in Central Europe the Middle East Africa and Asia as well as Soviet participation in the arms race Finally he weighs his conclusions against a thematic study of speeches and publications by members of the Politburo

The Department of State Bulletin, 2010 Superpower Involvement In The Middle East Paul Marantz, Blema Steinberg, John Sigler, Shmuel Sandler, 2019-06-18 The contributors to this book offer an explanation of Soviet and U S policy in the Middle East by exploring how the superpowers define their goals in the region the factors that both stimulate and constrain the United States and the Soviet Union in the implementation of their objectives and how their mutual perceptions influence behavior The ch

US Foreign Policy and Global Standing in the 21st Century Efraim Inbar, Jonathan Rynhold, 2016-01-13 This book examines US foreign policy and global standing in the 21st Century The United States is the most powerful actor in world politics today Against this backdrop the present volume examines how the foreign policies pursued by Presidents George W Bush and Barack Obama have affected elite and public perceptions of the United States By examining America s standing from the perspective of different actors from across various regions including China

Russia Latin America and the Middle East while also assessing how these perceptions interact with America's own policies this book presents a fresh interpretation of America's global standing In doing so the volume evaluates how these perceptions affect the realities of US power and what impact this has on moulding US foreign policy and the policies of other global powers A number of books address the question of which grand strategy the United States should adopt and the issue of whether or not America is in relative decline as a world power However the debate on these issues has largely been set against the policies of the Bush administration By contrast this volume argues that while Obama has raised the popularity of America since the low reached by Bush America's credibility and overall standing have actually been damaged further under President Obama This book will be of much interest to students of US foreign policy US national security strategic studies Middle Eastern politics international relations and security studies generally

Foreign Perceptions of the United States under Donald Trump Gregory S. Mahler, 2021-09-20 Donald Trump and the Trump administration radically altered a number of international policies and behaviors of the United States and changed the position of the United States on many international agreements including environmental agreements trade agreements military agreements and human rights agreements This book studies the effect of those actions and Trump's style of behavior on the standing of the United States in the global community In eighteen individual case studies the authors examine traditional relationships between their countries and the United States prior to the Trump election including areas of tension and traditional areas of agreement and cooperation They address expectations about what the outcome of the 2016 American election would be and the immediate reaction to the election's outcome They explore how responses to American policies varied in their country and whether any American initiatives were especially controversial And they explore how the relations between their nation and the United States changed over the Trump years The authors reflect on whether anything was permanently lost or gained by the end of the Trump years and speculate on the lasting consequences of Trump foreign policies and international behavior for America's standing overseas

Egyptian Foreign Policy From Mubarak to Morsi Nael Shama, 2013-10-30 Egyptian Foreign Policy from Mubarak to Morsi explores an area rarely touched upon by researchers the relationship between regime security and the national interest Concentrating on Egyptian foreign policy under President Hosni Mubarak this book analyses how it was used to bolster his internal hold on power In considering Egyptian foreign policy two central case studies are examined Firstly Egypt's reluctance to re-establish diplomatic ties with Iran and secondly Egypt's response to the efforts of the Bush administration in promoting political reform in the Middle East When examining these case studies the impact of different societal factors on decision making is taken into consideration highlighting the role of business groups and the security apparatus in foreign policy decision making Concluding with a discussion of Egypt's foreign policy in the first year of Mohamed Morsi's rule and arguing that it has departed little from Mubarak's policy this book is a vital resource for anyone interested in contemporary Egyptian politics
