The Pharmaceutical Industry And Dependency In The Third World:

The Pharmaceutical Industry and Dependency in the Third World Gary Gereffi, 2017-03-14 Gary Gereffi first explains how foreign corporations took over the flourishing Mexican steroid industry in the 1950s and 1960s and thwarted the country's later attempts to establish a more equitable distribution of industry benefits. In this valuable theoretical contribution, Professor Gereffi uses the Mexican industry's plight as a crucial case test for dependency theory. Originally published in 1983, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The United Nations library on transnational corporations : [international business and the world economy]. 7. Governments and transnational corporations Theodore H.

Moran, 1993 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), **The Dependency Movement** Robert A. Packenham, 1992

In the first comprehensive scholarly treatment of dependency theory, Robert Packenham describes its origins, substantive claims, and methods. He analyzes the movement comparatively and sociologically as a significant episode in inter-American and North-South cultural relations. In his account, the positive intellectual contributions of dependency ideas as well as their role in the costly politicization of U.S. scholarship become evident and comprehensible. The Oxford Handbook of the Politics of Development Carol Lancaster, Nicolas van de Walle, 2018-05-01 In many discussions of nations' development, we often focus on their economic and social development. Is it becoming wealthier? Is its society modernizing? Is it becoming more technologically sophisticated? Are social outcomes improving for the broad mass of the public? The process of development policy implementation, however, is always and inevitably political. Put simply, regime type matters when it comes to deciding on a course of development to follow. Further, political institutions matter. When a government's institutional capacity is low, the chances of success severely decline, regardless of the merits of the development plan. In The Oxford Handbook of the Politics of Development, two of America's leading political scientists on the issue, Carol Lancaster and Nicolas van de Walle, have assembled an international cast of leading scholars to craft a broad state-of-the-art work on this vitally important topic. This volume is divided into five sections: major theories of the politics of development organized historically (e.g., modernization theory, dependency theory, the Washington Consensus of policies without politics, etc.); key domestic factors and variables; key international factors and variables; political systems and structures; and geographical perspectives inclusive of regional dynamics. A comprehensive and cross-regional examination on key issues of political development, this Handbook not only provides an authoritative synthesis of past scholarship but also sets the agenda for future research in this discipline. Towards A New Political Economy Of Agriculture William H Friedland, 2021-11-28 The emergence of a truly global economy in the 1970s and the need to understand the subsequent changes in economic structure provided the impetus for this synthesis of the sociology of agriculture The book offers the first formulations of a political economy theory that explains the transnational social and production relations of food and agriculture Drawing upon studies of labour technology the state and gender the contributors put forward a basis for reassessing and restating the intellectual framework of agriculture

Dependency and Interdependency in Old Age Chris Phillipson, Miriam Bernard, Patricia Strang, 2024-05-10 Originally published in 1986 Dependency and Interdependency in Old Age presents papers from the British Society of Gerontology annual conference in 1985 The areas covered include the sociology of ageing methodological issues evaluations of service provision ethnographies of growing old historical studies and political perspectives on ageing A creative dialogue between the proponents of these themes was urgently needed at the time and it was hoped that this volume would stimulate such a discussion

The Politics of Capitalist Transformation Jeff Seward, 2016-12-08 The Politics of Capitalist Transformation is the only book length study of the highly protectionist Brazilian informatics policy from its origins in the early 1970s to the collapse of the market reserve in the early 1990s and its impact in subsequent decades Jeff Seward provides a sophisticated political analysis of how state activists constructed high levels of state autonomy to try to shift Brazil to a new variety of capitalism by eclipsing the multinational companies especially IBM that dominated the Brazilian computer sector and replacing them with local companies with 100 percent Brazilian technology and ownership This ambitious policy

required repeated shifts of political strategy and policymaking institutions to respond to a constantly changing economic and political environment as Brazil made a dramatic transition from military dictatorship to democracy The innovative framework to analyze state autonomy and the sophisticated political analysis of the policymaking process will be of interest to scholars and students of Brazilian and Latin American political economy varieties of capitalism theory state theory democratic transition theory and high technology policymaking in developing countries
