The Polished Cornerstone Of The Temple Queenly Libraries Of The Enlightenment:

The Polished Cornerstone of the Temple María Luisa López-Vidriero, 2005

Temple María Luisa López-Vidriero, 2005 Based on the Panizzi Lectures given in the British Library in November 2004 this book looks at the impact of women's educational projects on female reading and book collecting in the royal courts of the eighteenth century

The Experimental Imagination Tita Chico, 2018-06-05 Challenging the two cultures debate *The Experimental Imagination* tells the story of how literariness came to be distinguished from its epistemological sibling science as a source of truth about the natural and social worlds in the British Enlightenment Tita Chico shows that early science relied on what she calls literary knowledge to present its experimental findings More radically she contends that science was made intellectually possible because its main discoveries and technologies could be articulated in literary terms While early scientists deployed metaphor to describe the phenomena they defined and imagination to cast themselves as experimentalists literary writers used scientific metaphors to make the case for the epistemological superiority of literary knowledge Drawing on literature as well as literary language tropes and interpretive methods literary knowledge challenges our dominant narrative of the scientific revolution as the sine qua non of epistemological innovation in the British Enlightenment With its recourse to imagination as a more reliable source of truth than any empirical account literary knowledge facilitates a redefinition of authority and evidence as well as of the self and society implicitly articulating the difference that would come to distinguish the arts and sciences

Spanish Books in the Europe of the Enlightenment (Paris and London) Nicolás Bas Martín, 2018-02-12 In *Spanish Books in the Europe of the Enlightenment Paris and London* Nicolás Bas examines the image of Spain in eighteenth century Europe and in Paris and London in particular His material has been scoured from an exhaustive interrogation of the records of the book trade He refers to booksellers catalogues private collections auctions and other sources of information in order to reconstruct the country's cultural image Rarely have these sources been searched for Spanish books and never have they been as exhaustively exploited as they are in Bas book Both England and France were conversant with some very negative ideas about Spain The Black Legend dating back to the sixteenth century condemned Spain as repressive and priest ridden Bas shows however that an alternative more sympathetic vision ran parallel with these negative views His bibliographical approach brings to light the Spanish books that were bought sold and ultimately read The impression thus obtained is likely to help us understand not only Spain's past but also something of its present
