Wilber, 1979 Monographic compilation of essays on economic policy of economic development and underdevelopment covers methodological problems of development theories historical perspectives causes of economic disparities in developing countries multinational enterprises world economic system etc development policies relation to rural development and industrialization income distribution and the need for a new international economic order Bibliography pp 464 to 466 graphs references and statistical tables **The Political Economy of Underdevelopment** Tamás Szentesi, 1976 *The Politics of Underdevelopment [By] Gerald A. Heeger* Gerald A. Heeger, 1974 *The Political Economy of Underdevelopment* S. B. D. de Silva, 2012-05-23 First published in 1982 this reissue deals with the theory of underdevelopment as Dr de Silva attempts a synthesis between the internal and external aspects of underdevelopment and in the Marxist tradition focuses on the impact of the external on the internal as the dominant reality Viewing underdevelopment as a problem in the non transformation to capitalism this analysis is in terms of the character of the dominant capital and of the dominant classes Underdevelopment thus encompasses the traditional peasant economy and also the export sector where the modernizing influence of colonialism was felt The book finally considers how the contemporary internationalization of capital affected the economies of the Third World *The Political Economy of Development and Underdevelopment in Africa* Toyin Falola, Jessica Achberger, 2013-06-07 While Africa is too often regarded as lying on the periphery of the global political arena this is not the case African nations have played an important historical role in world affairs It is with this understanding that the authors in this volume set out upon researching and writing their chapters making an important collective contribution to our understanding of modern Africa Taken as a whole the chapters represent the range of research in African development and fully tie this development to the global political economy African nations play significant roles in world politics both as nations influenced by the ebbs and flows of the global economy and by the international political system but also as actors directly influencing politics and economics It is only through an understanding of both the history and present place of Africa in global affairs that we can begin to assess the way forward for future development **The Political Economy of Underdevelopment in India** G. Krishnan-Kutty, 1999 This monograph is a new and original venture to make an interpretation of the phenomenon of under development in India Such an endeavour had not been undertaken by social scientists in the past and this work is a path breaking effort by this author The nature and causes of underdevelopment and backwardness in India which came under British domination in spite of the historic background of this country with ancient glory and spiritual history had been subjected to scientific investigation in this research work The theoretical contributions of Francois Perroux 1903 1987 the French economist of world reputation is a special characteristic of this

research work The British domination and the establishment of the British empire had been interpreted by the utilisation of the ideas of Francois Perroux This is a very special feature of this research work The author had worked in close collaboration with this economist in Paris for several years The features of Hinduism in India in relation to the precipitation of under development is also a special feature of this research work Political economy as a theme of research endeavour had not taken shape in India at the present epoch Hence this endeavour has such a major claim also for this special feature in finding out the causes of backwardness of this ancient country The features of colonialism which was established in this land are traced in depth while the religious features are given due importance

The Political Economy of Underdevelopment and Poverty in Nepal Sri Ram Poudyal, 2023-04-05 This book argues that mainstream economics cannot explain the underdevelopment and poverty of Nepal neither can it be explained in terms of economics alone nor capital inadequacy even as is conventionally believed The author asserts that Nepal's underdevelopment needs to be located in the nature of the state which has been shaped by the collusion of interest among politicians and the resulting bureaucracy triggering the growth of crony capitalism The book presents a critical and radical analysis of factors that have kept Nepal in a state of underdevelopment and poverty with huge section of the society in underprivileged and deprived socio economic conditions despite six decades of planning seven decades of dependence on foreign aid and numerous political regime changes from the Rana regime for over a century from 1846 1950 through to the republic regime from 2007 onwards To support this argument the book delves into an exploration of growth performance in Nepal government attempts at poverty alleviation foreign aid and its effects in the economy and the nature of the state with a focus on Maoists 10 year rebellion Each chapter presents the existing picture and examines the possible reasons for the failure in achieving the desired results A comparative analysis of Nepal's position with respect to South Asian Association for Regional Cooperation SAARC countries is also presented in a number of chapters The audience for the book will be students academics and researchers and within Nepal itself intellectuals politicians and officials of the National Planning Commission the central bank and other banks and financial institutions
