The Positive Manager:

The Good Enough Manager Aaron Nurick, 2020-04-22 Nearly ten years after he wrote this humanistic exploration of The Good Enough Manager or GEM Aaron Nurick returns with an updated edition What makes a GEM at the dawn of a new decade The book's central questions remain How do the best managers behave What sets them apart from their peers What impact do they have on their subordinates and co workers The GEM concept stems from the psychological theory of the good enough parent who provides an environment where an infant learns to develop an autonomous and genuine self Just as there is no such thing as a perfect parent managing people in organizations is an inherently human and fallible endeavor mainly because managing occurs by and through human relationships Through the words of over 1 000 study respondents GEMs are shown to be mentors and teachers relationship builders and models of integrity for their workers Each of these themes is explored making connections to the right brain thinking of artists and other creative professionals managing with emotional intelligence and historical ideas about management and leadership as adaptive human processes The central humanistic theme of the book along with its practical implications resonates more than ever in the current divisive and turbulent environment The second edition incorporates up to date trends and themes including the impact of increased globalization increased tribalism cultural and political polarization and populism the great expansion and proliferation of technology and the emergence of the gig economy Upper level undergraduate and postgraduate students as well as practicing managers will be inspired to rethink their own approaches to management in business government and other organizations The Good Manager Dean Gualco, 2016-07-12 You can be the smartest person in the room and even the most experienced but if you're not a good person there's little chance you'll succeed as a manager That's one of the big takeaways from The Good Manager which is based on Dean Gualco's decades of experience as a leader and manager To be good person he says you must live a decent and honorable life be kindhearted control destructive human emotions tell the truth do what's right and always look for the good In this guidebook to honing your leadership and management skills you'll learn how to understand how the view of managers has evolved over time appreciate the most rewarding aspects of management cultivate the ability to plan delegate and manage time and make work fun for yourself and others Being a good person as well as learning the necessary skills to excel as a manager are rarely taught at conferences or lectures or on the job But if you want to move along the intellectual moral spectrum from self interest to human interest negativity to positivity darkness to enlightenment and hate to friendship then you need to learn the lessons in The Good Manager *The Good Enough Manager* Aaron J. Nurick, 2012-04-23 The central questions of this book are How do the best managers behave What sets them apart from their peers What impact do they have on their subordinates and co workers The theme and organizing idea of the book is the good enough manager or GEM The concept is based on the psychological theory of the good enough mother who provides an environment where an infant learns to develop an autonomous and genuine self She does this by responding with empathy

and adapting her behavior completely meeting the child's needs in the beginning and then gradually letting go allowing more autonomy and room for the child to add something uniquely his own to the relationship This book is based on a primary principle Just as there is no such thing as a perfect parent managing people in organizations is an inherently human and fallible endeavor mainly because managing occurs by and through human relationships Through the words of over 1000 study respondents GEMs are shown to be mentors and teachers relationship builders and models of integrity for their workers Each of these themes is explored making connections to the right brain thinking of artists and other creative professionals managing with emotional intelligence and historical ideas about management and leadership as adaptive human processes

Leadership: the positive influence Eduard Beltran,2021-07-08 Leadership is a person's ability to influence and influence is everywhere from political life to the business world from civil society to our family from politics to business from civil society to our family from the old world to the world of the post COVID era But what exactly does leadership mean What does it mean to be a good leader in the post COVID world Are good leaders made or born What can you do to prepare or improve your leadership You will find specific concepts techniques and tools that will guide and assist you in the process of learning to be a good leader Remember that you are not a leader just because you want to be but you are a leader because others recognise you as a leader
