Tibet Michael Buckley, 2012 Exploring ethnic Tibet independently is a challenge With the land of snows having some of the wildest and roughest road routes in high Asia motoring mountain biking and trekking options are all given due attention in this new edition High quality numerous maps set this guide apart from other guides on Tibet and the trekking section has been expanded to include more on the main treks including Everest Base Camp Genden to Samye Namtso trek and Kailash region treks Particular attention has been paid to the Amdo and Kham regions not usually covered in guidebooks Political and cultural issues make Tibet a sensitive destination for Westerners so Michael Buckley s authoritative advice includes guidelines on cultural etiquette local customs and travelling with minimum impact on the culture and environment The chapter on language includes a section covering Tibetan script **The Afterlives of Monuments** Deborah Cherry, 2015-09-07 South Asia is famous for its monuments past and present Monuments have been created destroyed and rescued by competing communities and incoming empires in the making and re making of history identity and memory This collection brings together an international cohort of senior scholars and younger researchers to examine the vast diversity of monuments and conceptions of monuments in South Asia from the 1850s to the present The chapters investigate what constitutes a monument and interrogate the conditions for its survival demise or recycling To explore the afterlives of monuments is to investigate how where when and why monuments have been remodelled re sited destroyed defaced or abandoned It is to investigate the theories of memory history and community as well as new forms of artistic practice and global media As different South Asian communities claim a stake in the making of national religious cultural and local

identities and histories the status of monuments and debates about cultural memory have become increasingly urgent This book was published as a special issue of South Asian Studies World Heritage Sites Haiden Farrell,2018-11-11 A World Heritage Site is a landmark or area which is selected by the United Nations Educational Scientific and Cultural Organization UNESCO as having cultural historical scientific or other form of significance and is legally protected by international treaties The sites are judged important to the collective interests of humanity The main objectives were to define the World Heritage in both cultural and natural aspects to enlist Sites and Monuments from the member countries which are of exceptional interest and universal value the protection of which is the concern of all mankind and to promote co operation among all Nations and people to contribute for the protection of these universal treasures intact for future generations This beautiful book shows off these sites providing a brief text and photographs for each It is a stunning indication of the longevity and durability culture and spirit Empire of Emptiness Patricia Ann Berger,2003-01-01 It examines some of the Buddhist underpinning of the Qing view of rulership and shows just how central images were in the carefully reasoned rhetoric the court directed toward its Buddhist allies in inner Asia The multi lingual culturally fluid Qing emperors put an extraordinary range of visual styles into practice Chinese Tibetan Nepalese and even the European Baroque brought to the court by Jesuit artists *Tibet* Brian St. Claire-King,2004 **Tibet's Fate** Warren W. Smith Jr.,2023-03-15 Tibet s Fate examines the issue of the political fate of Tibet It is told by Tibetans themselves as well as by the author from his own experiences The title is not meant to imply that the current fate of Tibet is an ultimate destiny or even that Tibet s fate is already decided It is only meant in the sense that if Tibet s fate is now determined it has been determined not by the Tibetan people but by those of China If it is to be determined by China then Tibet s fate is indeed to be an integral part of China However if Tibet s fate were to be decided by the Tibetan people if they were allowed their right to national self determination then it would definitely be different Given all the criteria for independent statehood territory culture language religion and government Tibet surely should be an independent state Tibetan territory defined by altitude was the very nearly exclusively habitation of people who identified themselves as Tibetans Those people share a distinct culture language and religion They had a central government that directly administered the territory of Central Tibet and indirectly that of Kham and Amdo Had Tibetans been allowed to determine for themselves their political status that is if they had the right to self determination as specified in the most fundamental documents of international law there is no doubt that they would have chosen independence Whatever the flaws of the Tibetan social and political systems Tibet should have had the right to determine its own fate and could have done so until deprived of that right by China The book also examines the sensitive question of the nature of the Tibetan political system and its role in the fate that has befallen Tibet The author concludes that the Tibetan political system of Chosi Shungdrel or the unity of religion and politics is implicated in the failure of Tibet to maintain its independence **Lonely Planet Tibet** Lonely Planet,Stephen Lioy,Bradley Mayhew,Megan Eaves,2019-05-01 Lonely Planet The world s leading travel
