Atkeson,2011-11-23 Major General Ret Edward B Atkeson decries the decade long campaign the United States has undertaken in the wake of 9 11 and offers a broad plan for global protection of American interests He proposes shifting the military burden to friendly indigenous fighters recruited trained and equipped under United States leadership for operation in their native environments Atkeson finds ample precedent for the effectiveness of similar legions of fighters He lays out how such a program would work and shows how these legions could help the United States achieve its global objectives in a more cost effective way *Countering the Proliferation of Weapons of Mass Destruction* Thanos P Dokos,2020-07-24 As counter proliferation is expected to become the central element in the new national security policy of the US such actions will constitute a central element of every major international conflict in the first decades of the 21st century One of the most important geostrategic phenomena of the past decade has been the extraordinary diffusion of war making capabilities from the developed North to the developing South In the eyes of some proliferant states possessing nuclear biological and chemical NBC weapons would not only add to their regional stature but would also offer an asymmetrical counter to the West s massive superiority in conventional forces In the Eastern Mediterranean and the Middle East a number of countries are assumed to possess varying levels of NBC weapons capabilities Reasons for concern include the fact that such weapons have been used in the past the region s geographic proximity to Europe and the vital interests of the West which is prepared under certain circumstances to use force to protect them the multiplicity of conflicts and other security problems and the general instability in the region including the spread of religious extremism This important and timely book assesses in detail the accuracy of predictions and perceptions about a possible military threat from the Southern Mediterranean Muslim world and their impact on NATO s political and military posture Thanos P Doxos presents an assessment of the Alliance s options for dealing with the problem This book represents an invaluable topical resource for researchers and policy makers **Army** ,1995 *The Iraq War* Anthony H.
