The Presence Of Stoicism In Medieval Thought

Jeffrey Bardzell

The Presence Of Stoicism In Medieval Thought:

The Presence of Stoicism in Medieval Thought Gerard Verbeke,1983 **The Stoic Tradition from Antiquity to the Early Middle Ages** Marcía L. Colish,1990 Volume one Stoicism in classical Latin literature 09327 3 approaches its subject from the standpoint of intellectual history examining how Stoicism was used by Roman thinkers for what purposes and how they correlated it with their other sources Volume two Stoicism in Christian Latin thought through the sixth century 09328 1 focuses on how a particular Latin Christian author used Stoic ideas to what ends and how they were associated in his mind with the other doctrines he had to work with Annotation copyrighted by Book News Inc Portland OR **A History of Twelfth-Century Western Philosophy** Peter Dronke,1992-07-09 The first comprehensive study of the philosophical achievements of twelfth century Western Europe **The Stoic Tradition from Antiquity to the Early Middle Ages, Volume 2. Stoicism in Christian Latin Thought through the Sixth Century** Marcia L. Colish,2021-12-06 **The Stoic Origins of Erasmus' Philosophy of Christ** Ross Dealy,2017-01-18 This original and provocative engagement with Erasmus work argues that the Dutch humanist discovered in classical Stoicism several principles which he developed into a paradigm shifting application of Stoicism to Christianity Ross Dealy offers novel readings of some lesser and well known Erasmian texts and presents a detailed discussion of the reception of Stoicism in the Renaissance In a considered interpretation of Erasmus De taedio Iesu Dealy clearly shows the two dimensional Stoic elements in Erasmus thought from an early time onward Erasmus genuinely philosophical disposition is evidenced in an analysis of his edition of Cicero s De officiis Building on stoicism Erasmus shows that Christ s suffering in Gethsemane was not about the triumph of spirit over flesh but about the simultaneous workings of two opposite but equally essential types of value on the one side spirit and on the other involuntary and intractable natural instincts **The Political Animal in Medieval Philosophy** Juhana Toivanen,2020-10-12 In The Political Animal in Medieval Philosophy Juhana Toivanen investigates what medieval philosophers meant when they argued that human beings are political animals by nature He analyses the notion of political animal from various perspectives and shows its relevance to philosophical discussions concerning the foundations of human sociability ethics and politics Medieval authors believed that social life stems from the biological and rational nature of human beings and that collaboration with other people promotes prosperity and good life Toivanen provides a detailed philosophical interpretation of this view across a wide range of authors including unedited manuscript sources As the first monograph length study on the topic The Political Animal sheds new light on this significant period in western political thought **Speculative Grammar and Stoic Language Theory in Medieval Allegorical Narrative** Jeffrey Bardzell,2010-07 In this study Bardzell unveils the way signification in medieval allegorical narrative depends not on Aristotelian theories of language but rather on an alternative theory of language which began with the Stoics and was transmitted through the Middle Ages via grammar theory The Routledge Handbook of the Stoic Tradition John Sellars,2016-02-12 The ancient philosophy of stoicism has been a crucial and

formative influence on the development of Western thought since its inception through to the present day It is not only an important area of study in philosophy and classics but also in theology and literature The Routledge Handbook of the Stoic Tradition is the first volume of its kind and an outstanding guide and reference source to the nature and continuing significance of stoicism Comprising twenty six chapters by a team of international contributors and organised chronologically the Handbook is divided into four parts Antiquity and the Middle Ages including stoicism in Rome stoicism in early Christianity the Platonic response to stoicism and stoic influences in the late Middle Ages Renaissance and Reformation addressing the impact of stoicism on the Italian Renaissance Reformation thought and early modern English literature including Shakespeare Early Modern Europe including stoicism and early modern French thought the stoic influence on Spinoza and Leibniz stoicism and the French and Scottish Enlightenment and Kant and stoic ethics The Modern World including stoicism in nineteenth century German philosophy stoicism in Victorian culture stoicism in America stoic themes in contemporary Anglo American ethics and the stoic influence on modern psychotherapy An invaluable resource for anyone interested in the philosophical history and impact of stoic thought The Routledge Handbook of the Stoic Tradition is essential reading for all students and researchers working on the subject

John of Salisbury and the medieval Roman

renaissance Irene O'Daly, 2018-02-07 This book is a detailed but accessible treatment of the political thought of John of Salisbury a twelfth century author and educationalist who rose from a modest background to become Bishop of Chartres It shows how aspects of John's thought such as his views on political cooperation and virtuous rulership were inspired by the writings of Roman philosophers notably Cicero and Seneca Investigating how John accessed and adapted the classics the book argues that he developed a hybrid political philosophy by taking elements from Roman Stoic sources and combining them with insights from patristic writings By situating his ideas in their political and intellectual context it offers a reassessment of John's political thought as well as a case study in classical reception of relevance to students and scholars of political philosophy and the history of ideas

Medieval Thought David Edward Luscombe, 1997 The Middle Ages span a period of well over a millennium from the emperor Constantine's Christian conversion in 312 to the early sixteenth century During this time there was remarkable continuity of thought but there were also many changes made in different philosophies various breaks revivals and rediscoveries David Luscombe's history of Medieval Thought steers a clear path through this long period beginning with three great influences on medieval philosophy Augustine Boethius and Pseudo Denis and focusing on Alcuin then Anselm Abelard Aquinas Ockham Duns Scotus and Eckhart amongst others from the twelfth to the fifteenth century Medieval philosophy is widely regarded as having a theological and religious orientation but more recently attention has been given to the early study of logic language and the philosophy of science This history therefore gives a fascinating insight into medieval views on aspects such as astronomy materialism perception and the nature of the soul as well as of God
