The Prison Policy And Practice Studies In Crime And Justice:

The Prison Gordon Hawkins, 1976 Despite lethal explosions of violence from within and critical assaults from without it seems certain that prisons will continue to exist for the foreseeable future Gordon Hawkins argues that certain key issues which attend the use of imprisonment as a penal method must be dealt with realistically Beginning with a discussion of the ideology of imprisonment and the principal lines of criticism directed at it Hawkins examines such issues as the prisonization hypothesis the theory that prisons serve as a training ground for criminals the role of the prison guard work in prisons and the use of prisoners as research subjects for medical experiments He also deals with the prisoners rights movement and its implications for the future of prison administration Hawkins not only makes specific recommendations for reform he also carefully appraises the barriers which obstruct their implementation Hawkins devotes a large portion of this relatively short book to a discussion of some of the really crucial policy activities that tend to stifle meaningful reform and then goes on to tell how at least some of these policies can be altered The book concludes with a chapter devoted to a discussion of impediments to change that should be required reading for all serious students of penology Choice Hawkins has added a much needed down to earth analysis of prison This is not a pessimistic book It is a realistic book It avoids the pitfall of utopian and single factor solutions to an extremely complex problem Graeme R Newman Annals of the American Academy of Political and Social Science

Critical Issues in Crime and Justice: Thought, Policy, and Practice Mary Maguire, 2011 This text provides a comprehensive overview of the criminal justice and criminology curriculum through contributed essays designed to review and expand upon key areas of study The text will explore and examine theory cases laws and policies as they have been shaped by a larger social cultural and historical context Topics span the gamut of the Criminal Justice and Criminology curriculum including crime theory law enforcement jurisprudence corrections and organizations

Research Handbook of Comparative Criminal Justice Nelken, David, Hamilton, Claire, 2022-09-15 With contributions from leading experts in the field this timely Research Handbook reconsiders the theories assumptions values and methods of comparative criminal justice in light of the challenges and opportunities posed by globalisation deglobalisation and transnationalisation

The Penal Crisis and the Clapham Omnibus David J. Cornwell, 2009-07-10 What is restorative justice and does it work These are just two of the many questions posed by David J Cornwell in this incisive work Based on a lifetime of research and experience it deals with the concerns about crime and punishment of that most vivid of judicial creations The Man or Woman on the Clapham Omnibus As the author explains this human reference point for reason and good sense is likely to be far more receptive to sound explanation and argument than the media and tabloid press in particular might give credit And after all it is his or her taxes which are being routinely wasted on outmoded or discredited methods Crime will not disappear through the application of heavy handed sanctions Indeed they make matters worse With prisons overflowing in many western countries restorative justice offers a better and ultimately more intuitive solution Cornwell dismantles the traditional

arguments for locking people away and undermines the idea that it is necessary to be tough on crime The book credits people with a higher level of intelligence It provides them with proper answers and explanations based on sound data copious research and an in depth analysis of existing trends It is a work for people who value credibility rather than politically driven excuses with their increasingly damaging effects *Nordic Criminal Justice in a Global Context* Mikkel Jarle

Christensen,Kjersti Lohne,Magnus Hörnqvist,2022-10-18 This book critically investigates Nordic criminal justice as a global role model Not taking this role for granted the chapters of the book analyze how Nordic approaches to criminal justice were folded into global contexts and how patterns of promotion were built around perceptions that these approaches also had a particular value for other criminal justice systems Specific actors both internal and external to the region itself have branded Nordic criminal justice as a form of penal exceptionalism associated with human rights universalistic welfare and social cohesion The book shows how building and using the brand of Nordic criminal justice allowed stakeholders to champion specific forms of crime control across a variety of criminal justice areas in both domestic and international settings The book will be of interest to scholars and students of criminal justice international law and justice Nordic and Scandinavian studies and more widely to the social sciences and humanities **Research Handbook on Youth Criminology** Greg

Martin,Estrella Pearce,2025-07-15 This timely Handbook provides historical contemporary theoretical and methodological perspectives on youth criminology It explores cutting edge research on juvenile justice and youth governance and proposes directions for future research **Criminology Research Focus** Karen T. Froeling,2007 Criminology is the scientific study

of crime as an individual and social phenomenon Criminological research areas include the incidence and forms of crime as well as its causes and consequences They also include social and governmental regulations and reactions to crime

Criminology is an interdisciplinary field in the behavioural sciences drawing especially on the research of sociologists and psychologists as well as on writings in law This book presents leading research from around the world Environmental

Corrections Lacey Schaefer,Francis T. Cullen,John E. Eck,2015-10-09 A new paradigm for supervising offenders in the community Environmental Corrections is an innovative guide filled with rich insights and strategies for probation and parole officers to effectively integrate offenders back into the community and reduce recidivism Authors Lacey Schaefer Francis T Cullen and John E Eck move beyond traditional models for interventions and build directly on the applied focus of environmental criminology theories Using this approach the authors answer the question of what officers can do to decrease opportunities for an offender to commit a crime Readers will learn how to recognize and assess specific criminal opportunities in an offender s past and gain the tools and strategies they need to design an individualized supervision plan that channels offenders away from these criminogenic situations Out-of-Control Criminal Justice Daniel P.

Mears,2017-09-28 Out of Control Criminal Justice shows that our system of criminal justice is broken it is out of control The author writes that a research based strategy is needed that builds on the insights of those who work within criminal justice or

are affected by it Such a strategy must entail continuous evaluation and improvement so that what works can be expanded and what does not can be eliminated Out of Control Criminal Justice identifies how systems problems plague our criminal justice systems It then presents a comprehensive strategy for bringing these systems under control to reduce crime to increase justice and accountability and to do so at less cost The strategy can be used too to create greater responsiveness to victims and communities effectiveness in reducing racial and ethnic disparities and understanding of the causes and consequences of crime After describing this new approach the book identifies the tools needed to implement a systems solution to create a safer and more just society

Negotiating Class in Youth Justice Jasmina Arnež, 2022-09-30 This book examines how class shapes interactions between professionals parents and young people in the youth justice system utilising a mix of contemporary social theory and a wealth of empirical material It suggests ways to neutralise the effects of class on youth justice interventions in structurally unequal societies and argues for reform based on conceptions of negotiated justice relational agency and autonomy in dependence The author develops a theoretical framework to explore how class is negotiated within youth justice taking as its starting point the work of Bourdieu on habitus Boltanski and Th venot on the sociology of lay normativity and Sayer s work on moral understandings of class This is combined with a detailed reading of empirical material gathered through focus groups interviews with practitioners parents and children and participant observation of parenting courses The result is an innovative revisiting of the part that social class plays in determining who is diverted into and away from youth justice and a sustained theoretical and empirical argument for the continued importance of class in criminological research This book offers an original contribution to the fields of criminology youth justice and crime and the family It provides an important source of knowledge for academics and practitioners interested in discussions on social class and indirect discrimination
