The First Texas News Barons Patrick L. Cox, 2009-04-20 Newspaper publishers played a crucial role in transforming Texas into a modern state By promoting expanded industrialization and urbanization as well as a more modern image of Texas as a southwestern rather than southern state news barons in the early decades of the twentieth century laid the groundwork for the enormous economic growth and social changes that followed World War II Yet their contribution to the modernization of Texas is largely unrecognized This book investigates how newspaper owners such as A H Belo and George B Dealey of the Dallas Morning News Edwin Kiest of the Dallas Times Herald William P Hobby and Oveta Culp Hobby of the Houston Post Jesse H Jones and Marcellus Foster of the Houston Chronicle and Amon G Carter Sr of the Fort Worth Star Telegram paved the way for the modern state of Texas Patrick Cox explores how these news barons identified the needs of the state and set out to attract the private investors and public funding that would boost the state's civic and military infrastructure oil and gas industries real estate market and agricultural production He shows how newspaper owners used events such as the Texas Centennial to promote tourism and create a uniquely Texan identity for the state To balance the record Cox also demonstrates that the news barons downplayed the interests of significant groups of Texans including minorities the poor and underemployed union members and a majority of women

Public Relations and the Press Karla Gower, 2007-08-10 Governments and corporations nonprofits and special interest groups all have spin doctors trying to turn the news to their advantage This book examines how this shift came to be and explores the questions it raises about the role of media in a democratic society and the future of journalism

Sylvia Porter Tracy Lucht, 2013-10-30 In 1942 the directors of the New York Stock Exchange met to discuss a problem The exchange its air charged with testosterone its floor scuffed by the frantic paces of men racing one another for shares of the American dream was off limits to women This it was agreed was how it

should be. However, it had recently become public knowledge that one of New York's most prolific and respected financial writers, S. F. Porter, was a woman. If Porter trained her eye on the all-male stock exchange, the NYSE might find itself the subject of some unwanted controversy during the electrified Rosie the Riveter days of World War II. But should women really be allowed into the stock exchange? The board finally saw its way around the dilemma and voted on a resolution: Sylvia is one of the boys. We hereby award her honorary pants. Sylvia Porter (1913-1991) was the nation's first personal finance columnist and one of the most admired women of the twentieth century. In *Sylvia Porter: America's Original Personal Finance Columnist*, Lucht traces Porter's professional trajectory, identifying her career strategies and exploring the role of gender in her creation of a once unique, now ubiquitous form of journalism. A pioneer for both male and female journalists, Porter established a genre of newspaper writing that would last into the twenty-first century while carving a space for women in what had been an almost exclusively male field. She began as an oddity, a woman writing about finance during the Great Depression and rose to become a nationally recognized expert, revered by middle-class readers and consulted by presidents. As the first biography of Sylvia Porter, this book makes an important contribution to the history of women and the media.

Sports on Film Johnny D. Boggs, 2021-10-11 *Sports on Film* takes readers behind the scenes of how movies get made and puts them in the stands for some of the key moments in sports in America. *Sports on Film* documents key events in American sports history through the films that depict them, starting with the integration of major league baseball when Jackie Robinson signed with the Brooklyn Dodgers. Other significant events and personalities examined include the college basketball point shaving incident of the 1950s, journalist George Plimpton's attempt to go through the Detroit Lions NFL training camp in the early 1960s, the originations and popularity of rodeo, the brief run of women's professional baseball during World War II, the underdog racehorse Seabiscuit during the Great Depression, the rise of African American boxer Muhammad Ali, the unique 1970s Battle of the Sexes tennis event between Bobby Riggs and Billie Jean King, and Ford Motor Company's run in the 1960s to take motorsports to Europe's premier event in Le Mans, France.

Journalism at the End of the American Century, 1965-Present James Brian McPherson, 2006-06-30 McPherson captures the best and worst aspects of American journalism since 1965. The press has evolved into a conglomeration of entities that today can be described as pervasive, entertaining, and justifiably mistrusted. In some ways, today's press offers the best journalism Americans have ever seen. In other ways, the modern news media fall short of the ideals held by most of those who care about journalism and far short of the promise they once seemed to offer in terms of helping create an enlightened democracy. Neither a paean to the press nor an exercise in media bashing, this book finds much to criticize and to praise about recent American journalism while illustrating that traditional journalistic values have diminished in importance, not just for many of those who control the media but also for the media consumers who most need good journalism. Chapters are devoted to various themes that include social unrest, the influence of entertainment values, technological shifts, media consolidation, and corporatization, issues of content versus context, new kinds of news media,

and why the 1970s may have been the high point of American journalism Events and issues given extra attention include the rise of television news and later CNN the Civil Rights Movement and other race related issues the Women s Movement various forms of alternative journalism wars in Vietnam and Iraq investigative journalism the World Trade Center attacks the Clinton Lewinsky scandal the 2000 and 2004 presidential campaigns and elections civic journalism and journalism scandals

The Public Press, 1900-1945 Leonard Ray Teel,2006-06-30 This work is the fifth volume in the series The History of American Journalism By 1906 the nation included 45 states connected by railroads steamships wagon trails the postal system the telegraph and the press The continuing trends of migration and immigration into the cities supported the publication of more newspapers than at any time in the history of the country From coast to coast newsgathering agencies knit thousands of local newspapers into the fabric of the nation and larger metropolitan papers routinely considered the relevancy of distant news

The Opinions of Mankind Richard Lentz,Karla K. Gower,2011-02-14 During the Cold War the Soviets were quick to publicize any incident of racial hostility in the United States Since violence by white Americans against minorities was the perfect foil to America s claim to be defenders of freedom news of these occurrences was exploited to full advantage by the Russians But how did the Soviets gain primary knowledge of race riots in small American towns Certainly the Soviets had reporters stationed stateside in big cities like New York but research reveals that the majority of their information came directly from U S media sources Throughout this period the American press provided the foreign media with information about racially charged events in the United States Such news coverage sometimes put Washington at a disadvantage making it difficult for government officials to assuage foreign reactions to the injustices occurring on U S soil Yet in other instances the domestic press helped to promote favorable opinions abroad by articulating themes of racial progress While still acknowledging racial abuses these press spokesmen asserted that the situation in America was improving Such paradoxical messages both aiding and thwarting the efforts of the U S government are the subject of The Opinions of Mankind Racial Issues Press and Propaganda in the Cold War The study by scholars Richard Lentz and Karla K Gower describes and analyzes the news discourse regarding U S racial issues from 1946 to 1965 The Opinions of

Mankindnot only delves into the dissemination of race related news to foreign outlets but also explores the impact foreign perceptions of domestic racism had on the U S government and its handling of foreign relations during the period What emerges is an original insightful contribution to Cold War studies While other books examine race and foreign affairs during this period of American history The Opinions of Mankind is the first to approach the subject from the standpoint of press coverage and its impact on world public opinion This exhaustively researched and compellingly written volume will appeal to media scholars political historians and general readers alike By taking a unique approach to the study of this period The Opinions of Mankind presents the workings behind the battles for public opinion that took place between 1946 and 1965

The African American Newspaper Patrick S. Washburn, Medill School of Journalism, 2006-12-21 Winner 2007 Tankard Award In March of 1827 the nation s first black newspaper appeared in New York City to counter attacks on blacks by the city s other papers From this signal event The African American Newspaper traces the evolution of the black newspaper and its ultimate decline for more than 160 years until the end of the twentieth century The book chronicles the growth of the black press into a powerful and effective national voice for African Americans during the period from 1910 to 1950 a period that proved critical to the formation and gathering strength of the civil rights movement that emerged so forcefully in the following decades In particular author Patrick S Washburn explores how the Pittsburgh Courier and the Chicago Defender led the way as the two most influential black newspapers in U S history effectively setting the stage for the civil rights movement s successes Washburn also examines the numerous reasons for the enormous decline of black newspapers in influence and circulation in the decades immediately following World War II His book documents as never before how the press s singular accomplishments provide a unique record of all areas of black history and a significant and shaping affect on the black experience in America The Vanishing Word Arthur W. Hunt, 2013-09-01 Is image everything For many people in our culture image and images are everything Americans spend hours watching television but rarely finish a good book Words are quickly losing their appeal Arthur Hunt sees this trend as a direct assault on Christianity He warns that by exalting imagery we risk becoming mindless pagans Our thirst for images has dulled our minds so that we lack the biblical and mental defenses we need to resist pagan influences What about paganism Hunt contends that it never died in modern Western culture image based media just brought it to the surface again Sex violence and celebrity worship abound in our culture driving a mass media frenzy reminiscent of pagan idolatry This book is a clear warning that the church is being cut off from its word based heritage and that we are open to abuse by those who exploit the image but neglect the Word Thoughtful readers will find this a challenging call to be critical about the images bombarding our sense and to affirm that the Word is everything **The Media's Role in Defining the Nation** David A. Copeland, David Copeland, 2010 In 1897 William Randolph Hearst said that his newspaper did not simply cover events that had already happened It doesn t wait for things to turn up Hearst said It turns them up This book traces the close relationship between media and the United States

development from the colonial period to the twenty first century It explores how the active voice of citizen journalists and trained media professionals has turned to media to direct the moral compass of the people and to set the agenda for a nation and discusses how changes in technology have altered the way in which participatory journalism is practiced What makes the book powerful is that its assessment of the influence and use of media encompasses many levels it explores the potential of media as an agent for change from within small communities to the national stage
