Redeeming the Screens Jeanne C. DeFazio,William David Spencer,2016-05-03 How does the future look to us Well clearly we realize we now live in a world of screens from the microcosmic universe of to smartphone to the imposing vigil of the multiplex giants looming over us in Imax and 3 D more

real than real and to all the screens in between from computers to iPads to muted high definition flat screens pouring out images in homes restaurants banks businesses schools doctors offices and hospitals and on and on everywhere we turn We cannot change this reality so what these Christians and so many like them are doing is trying to find ways to redeem what we put on these screens what message we are sending out in word and image to the watching world So clearly our task whether we have been called to create or not is to join these artists as screen redeemers assisting the Holy Spirit in reconciling the world to God 2 Cor 5 18 19 through helping the pervasively influential means of the media adjust its goals to the mission of Jesus Christ

Attached at the Heart Barbara Nicholson, Lysa Parker, 2013-08-06 Attached at the Heart offers readers practical parenting advice for the modern age In its most basic form attachment parenting is instinctive A crying baby is comforted and kept close to parents for protection If hungry he or she is breastfed And while it is understood that there is no such thing as perfect parenting research suggests that there is a strong correlation between a heightened sense of respect empathy and affection in those children raised the attachment parenting way In this controversial book readers will gain much needed insight into childrearing while learning to trust the intuitive knowledge of their child ultimately building a strong foundation that will strengthen the parent child bond Contrary to popular belief attachment parenting has been practiced in one form or another since recorded history Over the years it had been slowly replaced by a more detached parenting style a style that is now believed by experts to be a lead contributing factor to suicide depression and violence The concept of attachment parenting a term originally coined by parenting experts William and Martha Sears has increasingly been validated by research in many fields of study such as child development psychology and neuroscience Also known as conscious parenting natural parenting compassionate parenting or empathic parenting its goal is to stimulate optimal child development While many attachment parenting recommendations likely counter popular societal beliefs authors Barbara Nicholson and Lysa Parker are quick to point out that the benefits outweigh the backlash of criticism that advocates of detached parenting may impose
