## **The Mexico City Reader Americas:**

**The Mexico City Reader** Ruben Gallo, 2009-09-29 Mexico City is one of Latin America's cultural capitals and one of the most vibrant urban spaces in the world. The Mexico City Reader is an anthology of Cronicas short hybrid texts that are part literary essay part urban reportage about life in the capital. This is not the City of Palaces of yesteryear but the vibrant chaotic anarchic urban space of the 1980s and 1990s the city of garbage mafias necrophiliac artists and kitschy millionaires. Like the visitor wandering through the city streets the reader will be constantly surprised by the visions encountered in this mosaic of writings a textual space brimming with life and crowded with flaneurs flirtatious students Indian dancers food vendors fortune tellers political activists and peasant protesters. The essays included in this anthology were written by a panoply of writers from well known authors like Carlos Monsivies and Jorge Ibagórra to younger figures like Fabrizio Mejía Madrid and Juieta García González all of whom are experienced practitioners of the city. The texts collected in this anthology are among the most striking examples of this concomitant theory and practice of Mexico City that most delirious of megalopolises. An exciting literary journey Carolyn Malloy Multicultural Review

**Ecological Crisis and Cultural Representation in Latin America** Mark Anderson, Zélia M. Bora, 2016-10-04 Worldwide environmental crisis has become increasingly visible over the last few decades as the full scope of anthropogenic climate change manifests itself and large scale natural resource extraction has expanded into formerly remote areas that seemed beyond the reach of industrialization. Scientists and popular culture alike have turned to the term Anthropocene to capture the global scale of environmental and even geological transformations that humans have carried out over the last two centuries. The chapters in Ecological Crisis and Cultural Representation in Latin America examine the dynamics and interplay between local cultures and the expansion of global capitalism in Latin America emphasizing the role of art in bearing witness to and generating awareness of environmental and social crises but also its possibilities for formulating solutions. They take particular care to draw out the ways in which local environmental crises in Latin American nations are witnessed and imagined as part of a global system focusing on the problems of time scale and complexity as key terms in conceiving the dimensions of crisis. At the same time they question the notion of the Anthropocene as a species wide human historical project making visible the coloniality of natural resource extraction in Latin America and its dire effects for local people cultures and environments. Taking an ecocritical approach to Latin American cultural production including literature film performance and digital artwork the chapters in this volume develop a notion of ecological crisis that captures not only its documentary sense in the representation of environmental destruction the degradation of the oikos but also the crisis in the modern worldview logos that the acknowledgment of crisis provokes. In this sense crisis is also the promise of a turning point of the possibilities for change. Latin American representations of ecological crisis thus create the conditions for projects that decolonize environments developing new sustainable ways of conceiving of and relating to our world or returning to old ones.

transformed writers and readers conceptions of literature *Urban Chroniclers in Modern Latin America* The Shared Intimacy of Everyday Life examines the work of extraordinary raconteurs Salvador Novo Cube Bonifant Roberto Arlt Alfonsina Storni and M rio de Andrade restoring the original newspaper contexts in which their articles first emerged Each of these writers guided their readers through a constantly changing cityscape and advised them on matters of cultural taste using their ties to journalism and their participation in urban practice to share accessible wisdom and establish their role as intellectual arbiters The intimate ties they developed with their audience fostered a permeable concept of literature that would pave the way for overtly politically engaged chroniclers of the 1960s and 1970s Providing comparative analysis as well as reflection on the evolution of this important genre *Urban Chroniclers in Modern Latin America* is the first systematic study of the Latin American writers who forged a new reading public in the early twentieth century *Sources for Latin America in the Modern World* Nicola Foote,2019 *Latin America in the Modern World* is the first text to situate the history of Latin American into a wider global narrative and it does so without de emphasizing the distinctive experiences of each of the Latin American countries Focusing on five themes state formation the construction of national identity through popular culture and religion economics and commodities race class and gender and the environment and written by leading scholars *Latin America in the Modern World* provides students today with an entry point into understanding this vital region The authors emphasize the distinctive experiences of each of the Latin American countries Instead of suggesting that all Latin American nations have an interchangeable heritage the authors seek to clearly identify themes topics people and intellectual currents that help to knit the history of modern Latin America into a coherent category of study The book would not serve students well if it focused primarily on the history of the three largest countries Mexico Brazil and Argentina to the neglect of others like the Central American and Andean nations As a consequence case studies from almost all of the countries are included at some point in the narrative when their history seems to illuminate a theme or idea particularly effectively In this fashion students will come to appreciate the great diversity of history and culture within the Latin American region while simultaneously understanding how it fits into the streams and currents of world history and events more broadly **Neobaroque in the Americas** Monika Kaup,2012-11-07 In a comparative and interdisciplinary analysis of modern and postmodern literature film art and visual culture Monika Kaup examines the twentieth century s recovery of the baroque within a hemispheric framework embracing North America Latin America and U S Latino a culture As neobaroque comes to the forefront of New World studies attention to transcultural dynamics is overturning the traditional scholarship that confined the baroque to a specific period class and ideology in the seventeenth century Reflecting on the rich nonlinear genealogy of baroque expression *Neobaroque in the Americas* envisions the baroque as an anti proprietary expression that brings together seemingly disparate writers and artists and contributes to the new studies in global modernity *The Mexican Mining Journal* ,1908

illuminates the remarkable range of Greco Roman classical receptions across the western hemisphere from the late fifteenth to the early nineteenth century Bringing together fifteen essays by scholars working at the intersection of Classics and all aspects of Americanist studies this unique collection examines how Hispanophone Lusophone Anglophone Francophone and or Indigenous individuals engaged with Greco Roman literary cultures and materials By coming at the matter from a multilingual transhemispheric perspective it disrupts prevailing accounts of classical reception in the Americas which have typically privileged North over South Anglophone over non Anglophone and the cultural production of hegemonic groups over that of more marginalized others Instead it offers a fresh account of how Greco Roman literatures and ideas were in play from Canada to the Southern Cone to the Caribbean treating classical reception in the early Americas as a dynamic polyvocal phenomenon which is truly transhemispheric in reach *Reader's Guide to American History* Peter J. Parish,2013-06-17

Forment,2024-05-31 Carlos Forment s aim in this highly ambitious work is to write the book that Tocqueville would have written had he traveled to Latin America instead of the United States Drawing on an astonishing level of research Forment pored over countless newspapers partisan pamphlets tabloids journals private letters and travelogues to show in this study how citizens of Latin America established strong democratic traditions in their countries through the practice of democracy in their everyday lives This first volume of *Democracy in Latin America* considers the development of democratic life in Mexico and Peru from independence to the late 1890s Forment traces the emergence of hundreds of political economic and civic associations run by citizens in both nations and shows how these organizations became models of and for democracy in the face of dictatorship and immense economic hardship His is the first book to show the presence in Latin America of civic democracy something that gave men and women in that region an alternative to market and state centered forms of life In looking beneath institutions of government to uncover local and civil organizations in public life Forment ultimately uncovers a tradition of edification and inculcation that shaped democratic practices in Latin America profoundly This tradition he reveals was stronger in Mexico than in Peru but its basic outlines were similar in both nations and included a unique form of what Forment calls Civic Catholicism in order to distinguish itself from civic republicanism the dominant political model throughout the rest of the Western world *Commercial America* ,1919 *Placing Latin America*
