The Political Dilemma Of Popular Education An African Case:

The Political Dilemma of Popular Education David B. Abernethy, Professor David B Abernethy, 1969 Racked the country since 1967 from inner sleeve **The Political Dilemma of Popular Education** ,1969 *Africanizing Knowledge* Toyin Falola, Christian Jennings, Nearly four decades ago Terence Ranger questioned to what extent African history was actually African and whether methods and concerns derived from Western historiography were really sufficient tools for researching and narrating African history Despite a blossoming and branching out of Africanist scholarship in the last twenty years that question is still haunting The most prestigious locations for production of African studies are outside Africa itself and scholars still seek a solution to this paradox They agree that the ideal solution would be a flowering of institutions of higher learning within Africa which would draw not only Africanist scholars but also financial resources to the continent While the focus of this volume is on historical knowledge the effort to make African scholarship more African is fundamentally interdisciplinary The essays in this volume employ several innovative methods in an effort to study Africa on its own terms The book is divided into four parts Part 1 Africanizing African History offers several diverse methods for bringing distinctly African modes of historical discourse to the foreground in academic historical research Part 2 African Creative Expression in Context presents case studies of African art literature music and poetry It attempts to strip away the exotic or primitivist aura such topics often accumulate when presented in a foreign setting in order to illuminate the social historical and aesthetic contexts in which these works of art were originally produced Part 3 Writing about Colonialism demonstrates that the study of imperialism in Africa remains a springboard for innovative work which takes familiar ideas about Africa and considers them within new contexts Part 4 Scholars and Their Work critically examines the process of African studies itself including the roles of scholars in the production of knowledge about Africa This timely and thoughtful volume will be of interest to African studies scholars and students who are concerned about the ways in which Africanist scholarship might become more African Toyin Falola a leading historian of Nigeria and a distinguished Africanist is the Frances Higginbotham Nalle Centennial Professor of History at the University of Texas at Austin His numerous publications include *Yoruba Historiography* *African Historiography and Nationalism* and *African Intellectuals* Christian Jennings is completing his Ph D at the University of Texas at Austin He has contributed chapters on environmental history to the five volume series on Africa published by Carolina Academic Press and is co editing a forthcoming book on historical methods *Education, Cultures, and Economics* Angela W. Little, Fiona E. Leach, 2013-06-17 This edited volume reviews the conflict between economic prescriptions for improved education in the developing world and local cultures Among the issues reviewed are conceptions of culture and economics in development and education literature economic considerations of school systems to promote cultural goals the differentiation of schools from other sites of cultural reproduction learning experiences of various cultural groups and the cross cultural work of development agencies **Nigeria's University Age** Tim Livsey, 2017-11-13 This book

explores the world of Nigerian universities to offer an innovative perspective on the history of development and decolonisation from the 1930s to the 1960s Using political cultural and spatial approaches the book shows that Nigerians and foreign donors alike saw the nation's new universities as vital institutions a means to educate future national leaders drive economic growth and make a modern Nigeria Universities were vibrant places centres of nightlife dance and the construction of spectacular buildings as well as teaching and research At universities students scholars visionaries and rebels considered and contested colonialism the global Cold War and the future of Nigeria University life was shaped by and formative to experiences of development and decolonisation The book will be of interest to historians of Africa empire education architecture and the Cold War *International Influences and Baptist Mission in West Cameroon* Charles W. Weber, 2016-05-30 This study presents a history based on original archival and primary source material of the Baptist mission educational situation of Cameroon province from 1922 to 1945 The provisions of the League of Nations mandate under which Great Britain administered the province in this period included complete freedom of conscience and the free exercise of all forms of worship yet from the beginning of the Mandate clear tensions existed The missions desired education to serve evangelical purposes while the colonial government strove for a uniform adaptationist program suited to European perceptions of the abilities traditions and local conditions of the African peoples The work relates thus to a number of themes European colonialism the Mandate system international theories of education a comparison of British American and German influences cross cultural mission work and the personal contributions of three particular missionaries Bender Gebauer and Dunger

New Dawn for African Women Michael Muonwe, 2016-12-13 The need for renegotiation of the place and role of women in the family the Church and the society cannot be any more urgent than now especially as people are more aware of the devastating effects of the evils of inequality discrimination and oppression It is a pity that the excellent qualities of bravery industry resilience and perseverance historically attributed to African women with which they negotiated for better place in the family the Church and the society have been manipulated to serve as instruments for their denigration The problem is that the patriarchal articulations of gender relations from the western world that entered Africa through colonialism Christianity western education and globalization allied themselves with the macho elements in African culture and institutionalized the oppression of women a move that women have always resisted both overtly and covertly But how long could they hang on This book provides exceptional and critical assessment of these issues especially from the perspective of the Igbo society of Nigeria Apart from assessing the strengths and weaknesses of the efforts made by women themselves to surmount these challenges it also explores how the autochthonous values of the traditional culture could integrate with Christian values to enthrone gender equality in the society Fr Muonwe demonstrated in this present publication his pastoral zeal for justice especially on the predicaments of women in African nay Igbo society He regrets as it were that the African Igbo traditional society is still far from realizing the Christian gospel ideal of dignity and equality of human person because of

the obvious environment that is strictly androcentric and carefully crafted in patriarchal hegemony I thank Fr Muonwe for this timely publication especially for many Igbo Christian communities today experiencing crisis in several aspects of our culture I hope the Bishops the Priests the Religious and Laity will find in this present work a rare and indispensable treasure for solutions to our pastoral predicaments Rev Fr Prof Anthony B C Chiegboka New Dawn for African Women is encyclopaedic in content and daunting in its wealth of documentation It is a well written book The contents covered much more than Igbo women or gender issues It addressed such other issues as Igbo cosmology Igbo concept of life and death the history of Christianity in Igboland and Igbo social anthropology among others It is a book which every Nigerian especially the Igbo should read The book is inspirational and provocative in the extreme it is original and displays learning lightly carried One cannot but return to it over and over again after the first reading I very strongly recommend it to the Nigerian and African reading public C Ego Uzoezie Ph D **Educational Administration In India** D.D. Aggarwal,2007 Pioneers of Change in Ethiopia Bahru Zewde,2022-11-08 In this exciting new study Bahru Zewde one of the foremost historians of modern Ethiopia has constructed a collective biography of a remarkable group of men and women in a formative period of their country's history Ethiopia's political independence at the end of the nineteenth century put this new African state in a position to determine its own levels of engagement with the West Ethiopians went to study in universities around the world They returned with the skills of their education acquired in Europe and America and at home began to lay the foundations of a new literature and political philosophy Pioneers of Change in Ethiopia describes the role of these men and women of ideas in the social and political transformation of the young nation and later in the administration of Haile Selassie Handbook of Educational Ideas and Practices (Routledge Revivals) Noel Entwistle,2015-08-11 First published in 1990 the Handbook of Educational Ideas and Practices was written for practitioners and students in the field of education and its related services and was designed to appeal to educationists no matter what their nationality Focusing mainly on compulsory schooling it provides summaries of the thinking research findings and innovative practices current at the time However the book is also careful to present a complete picture of education and therefore includes a separate section for education beyond school which covers pre school level post secondary level and adult and continuing education There are also other chapters dealing with aspects of organization curriculum and teaching in various forms of tertiary education Indeed each topic has been discussed by an acknowledged expert writing in sufficient detail in order to resist trivialization
