The Prestel New York Architecture Game:

The Prestel New York architecture game, 2004 The Architecture Co-laboratory Kas Oosterhuis, Lukas Feireiss, 2006
Publicatie n a v de conferentie gehouden op 1 april 2006 op de faculteit Bouwkunde van de TU Delft over de huidige en toekomstige veranderingen rond de digitaal ontworpen architectuur en designpraktijk **Public Space and Relational Perspectives** Chiara Tornaghi, Sabine Knierbein, 2014-12-05 Traditional approaches to understand space tend to view public space mainly as a shell or container focussing on its morphological structures and functional uses That way its ever changing meanings contested or challenged uses have been largely ignored as well as the contextual and on going dynamics between social actors their cultures and struggles The key role of space in enabling spatial opportunities for social action the fluidity of its social meaning and the changing degree of publicness of a space remain unexplored fields of academic inquiry and professional practice Public Space and Relational Perspectives offers a different understanding of public spaces in the city The aim of the book is to re introduce the lived experiences in public life into the teaching curricula of those academic disciplines which deal with public space and the built environment such as architecture planning and urban design as well as the social sciences The book presents conceptual practical and research challenges and brings together findings from activists practitioners and theorists The editors provide eight educational challenges that educators can endorse when training future practitioners and researchers to accept and to engage with the social relations that unfold in and through public space Cover image KARO Playing with the Past Erik Champion, 2010-09-28 How can we increase awareness and understanding of other cultures using interactive digital visualizations of past civilizations In order to answer the above question this book first examines the needs and requirements of virtual travelers and virtual tourists Is there a market for virtual travel Erik Champion examines the overall success of current virtual environments especially the phenomenon of computer gaming Why are computer games and simulations so much more successful than other types of virtual environments Arguments that virtual environments are impeded by technological constraints or by a paucity of evaluation studies can only be partially correct for computer games and simulations are also virtual environments Many of the underlying issues are caused by a lack of engagement with the philosophical underpinnings of culture presence and inhabitation and there are few exemplars that engage the public with history and heritage using interactive media in a meaningful and relevant manner The intention of *Playing With the Past* is to help designers and critics understand the issues involved in creating virtual environments that promote and disseminate historical learning and cultural heritage through a close study of the interactive design principles at work behind both real and virtual places Topics discussed include the design of virtual environments and especially virtual heritage environments virtual place making cultural presence the pros and cons of game style interaction augmented reality projects and appropriate evaluation methods Virtual heritage environments discussed in the book include projects from Antarctica Australia Mexico Malta Egypt Babylon the Netherlands

Cambodia and India **Contract** ,2004-07 **Architecture and Control** ,2018-01-03 Architecture and Control makes a collective critical intervention into the relationship between architecture including virtual architectures and practices of control since the turn of the twentieth to twenty first centuries Authors from the fields of architectural theory literature film and cultural studies come together here with visual artists to explore the contested sites at which in the present day attempts at gaining control give rise to architectures of control as well as the potential for architectures of resistance Together these contributions make clear how a variety of post 2000 architectures enable control to be established all the while observing how certain architectures and infrastructures allow for alternative progressive modes of control and even modes of the unforeseen and the uncontrolled to arise Contributors are Pablo Bustinduy Rafael Dernbach Alexander R Galloway Hans Ulrich Gumbrecht Maria Finn Runa Johannessen Natalie Koerner Michael Krause Samantha Martin McAuliffe Lorna Muir Mikkell Bolt Rasmussen Anne Elisabeth Sejten and Joey Whitfield **Baseball Under the Lights** Charlie Bevis,2021-05-19 Night games transformed the business of professional baseball as the smaller demographically narrower audiences able to attend daytime games gave way to larger more diversified crowds of nighttime spectators Many ball club owners were initially conflicted about artificial lighting and later actually resisted expanding the number of night games during the sport s struggle to balance ballpark attendance and television viewership in the 1950s This first ever comprehensive history of night baseball examines the factors obstacles and trends that shaped this dramatic change in both the minor and major leagues between 1930 and 1990 Mazes in Videogames Alison Gazzard,2013-04-17 From the text adventures of Zork to the arcade game of Pac Man to the corridors of Doom and on to the city streets of Grand Theft Auto IV the maze has often been used as a space to trap and confuse players in their navigation of gameworlds However the maze as a construction on the landscape has a long history before the invention of the videogame By examining the change in the maze from the landscapes of open spaces and closed gardens through to the screen of the videogame both mazes and labyrinths are discussed in terms of historical reference alongside the author s personal experiences of walking and playing these structures This book shows how our cultural experiences of real world maze landscapes may have changed and how we negotiate videogame worlds along the various paths and meanings they so often create for us **Level Design** Christopher W. Totten,2017-03-27 In this book veteran game developers academics journalists and others provide their processes and experiences with level design Each provides a unique perspective representing multiple steps of the process for interacting with and creating game levels experiencing levels designing levels constructing levels and testing levels These diverse perspectives offer readers a window into the thought processes that result in memorable open game worlds chilling horror environments computer generated levels evocative soundscapes and many other types of gamespaces This collection invites readers into the minds of professional designers as they work and provides evergreen topics on level design and game criticism to inspire both new and veteran designers Key Features Learn about the processes of experienced developers and level designers in their own

words Discover best practices for creating levels for persuasive play and designing collaboratively Offers analysis methods for better understanding game worlds and how they function in response to gameplay Find your own preferred method of level design by learning the processes of multiple industry veterans

Creating Experiences in the Experience

Economy Jon Sundbo, Per Darmer, 2008-01-01 Creating Experiences in the Experience Economy focuses on the creation of experience from a business perspective In doing so the book establishes a more solid foundation for making better and more complex analyses of experience creation paving the way for the development of analytically based and innovative experiences in experience firms and institutions The contributors emphasise that experience creation is not an easy task with a straightforward formula and examine how marketed experiences are constructed developed and innovated Presenting diverse and innovative perspectives the contributors discuss and present models for how experiences are designed produced and distributed With its cross disciplinary approach to experience creation this fascinating study will appeal to researchers and academics of business administration services culture and tourism
