UPDATING HINDU MYTHOLOGICALS V.K. SINHA, 2020-02-18 The story written in the Ramayana seems to be very simple and straightforward but it hides many secrets in its bosom For the layman it is a story of good versus evil with evil getting a beating and good being victorious getting a rousing welcome But there are many details that if read carefully reveal many secrets that have been hidden from the general society The present author has tried to reveal those secrets but because of lack of space has limited himself to the revelation of just a few of those secrets After a proper study it seems that Ravana was not as bad as has been made out to be It seems he had many grand ideas but because the war was lost the ideas also died One of them not mentioned in the book because of the lack of full details is that he had a medical system similar to the Red Cross that we have today Similarly there are many other details of Ravana that have been described It turns out that Ravana was not that bad a person nor was it that Rama that did not have any fault in him Ramayana emphasises that the victor is always a good and revered person and the loser is cursed by society

Religion and Gender in the Developing World Tamsin Bradley, 2010-12-07 Faith based development organizations have become a central part of the lives of the women of rural Rajasthan and have come to represent an important aspect of both individual and collective identities And yet religious teachings continue to be used to exclude women from public decision making forums and render them vulnerable to increasing levels of domestic violence In a unique multi disciplinary approach combining a range of subjects Tamsin Bradley provides a unique study of the role of development organizations and faith organizations in the lives of women in rural Rajasthan Faith and religion emerge as being able to afford a space within which women are able to interact with one another and create an identity for themselves However faith proves not just to be a positive sphere in which women are able to assert themselves Its ambiguity becomes clear as the author explains that religious women often find their visions of social justice and equality marginalised by the dominance of male leadership Nevertheless Bradley also look at how religious women challenge male dominance drawing on their beliefs and practices in creative and innovative ways Thus a complex picture emerges and including insights from gender studies and anthropology Bradley argues that religion can both empower and disempower local communities and the women who live within them By analysing development through the prism of gender studies Bradley highlights the complex nature of power relationships that are at the very heart of development
