Americans Against the City Steven Conn, 2014-07-07 It is a paradox of American life that we are a highly urbanized nation filled with people deeply ambivalent about urban life An

aversion to urban density and all that it contributes to urban life and a perception that the city was the place where big government first took root in America fostered what historian Steven Conn terms the anti urban impulse In response anti urbanists called for the decentralization of the city and rejected the role of government in American life in favor of a return to the pioneer virtues of independence and self sufficiency In this provocative and sweeping book Conn explores the anti urban impulse across the 20th century examining how the ideas born of it have shaped both the places in which Americans live and work and the anti government politics so strong today Beginning in the booming industrial cities of the Progressive era at the turn of the 20th century where debate surrounding these questions first arose Conn examines the progression of anti urban movements He describes the decentralist movement of the 1930s the attempt to revive the American small town in the mid century the anti urban basis of urban renewal in the 1950s and 60s and the Nixon administration s program of building new towns as a response to the urban crisis illustrating how by the middle of the 20th century anti urbanism was at the center of the politics of the New Right Concluding with an exploration of the New Urbanist experiments at the turn of the 21st century Conn demonstrates the full breadth of the anti urban impulse from its inception to the present day Engagingly written thoroughly researched and forcefully argued *Americans Against the City* is important reading for anyone who cares not just about the history of our cities but about their future as well

Adapting Health Communication to Cultural Needs Piet Swanepoel, Hans Hoeken, 2008

The question of what constitutes effective health communication has been addressed mainly by scholars working in American and European cultural contexts Many people who could benefit most from effective health communication however come from different cultures A prime example is the threat posed by HIV AIDS to the people of South Africa Although it is generally acknowledged that health communication needs to be tailored to the target audience s characteristics with cultural background being one of the most salient ones little research has been done on how to achieve this In this book we bring together leading scholars in the field of health communication as well as communication scholars from South Africa As such it can serve as an example of the promises and the limitations of general health communication theories to local praxis as well as provide guidelines for the development of better health communication in South Africa

Liberalism, Black Power, and the Making of American Politics, 1965-1980 Devin Fergus, 2009 In this pioneering exploration of the interplay between liberalism and black nationalism Devin Fergus returns to the tumultuous era of Johnson Nixon Carter and Helms and challenges us to see familiar political developments through a new lens What if the liberal coalition instead of being torn apart by the demands of Black Power actually engaged in a productive relationship with radical upstarts absorbing black separatists into the political mainstream and keeping them from a more violent path What if the New Right arose not only in response to Great Society Democrats but as significantly in

reaction to Republican moderates who sought compromise with black nationalists through conduits like the Blacks for Nixon movement Focusing especially on North Carolina a progressive southern state and a national center of Black Power activism Fergus reveals how liberal engagement helped to bring a radical civic ideology back from the brink of political violence and social nihilism He covers Malcolm X Liberation University and Soul City two largely forgotten federally funded black nationalist experiments the political scene in Winston Salem where Black Panthers were elected to office in surprising numbers and the liberal nationalist coalition that formed in 1974 to defend Joan Little a black prisoner who killed a guard she accused of raping her Throughout Fergus charts new territory in the study of America s recent past taking up largely unexplored topics such as the expanding political role of institutions like the ACLU and the Ford Foundation and the emergence of sexual violence as a political issue He also urges American historians to think globally by drawing comparisons between black nationalism in the United States and other separatist movements around the world By 1980 Fergus writes black radicals and their offspring were more likely to petition Congress than blow it up That liberals engaged black radicalism at all however was enough for New Right insurgents to paint liberalism as an effete anti American ideology a sentiment that has had lasting appeal to significant numbers of voters [The Black Utopians](#) Aaron Robertson,2024-10-01 One of The New York Times s 100 Notable Books of 2024 One of the Washington Post s 50 Best Nonfiction Books of 2024 A Finalist for the Los Angeles Times Book Prize for History Finalist for the Zora Award A New York Public Library Top Ten Book of 2024 A Boston Globe Best Book of 2024 A New Republic Best Book of the Fall A Time Must Read Book of the Year A 2025 Michigan Notable Book A Booklist Best History Book of 2025 Named a Best Book of the Year by The New Yorker Literary Hub Essence Elle Chicago Public Library An extraordinary new work of history and memoir Unforgettable Gabriel Bump The Washington Post A lyrical meditation on how Black Americans have envisioned utopia and sought to transform their lives How do the disillusioned the forgotten and the persecuted not merely hold on to life but expand its possibilities and preserve its beauty What in other words does utopia look like in black These questions animate Aaron Robertson s exploration of Black Americans efforts to remake the conditions of their lives Writing in the tradition of Saidiya Hartman and Ta Nehisi Coates Robertson makes his way from his ancestral hometown of Promise Land Tennessee to Detroit the city where he was born and where one of the country s most remarkable Black utopian experiments got its start Founded by the brilliant preacher Albert Cleage Jr the Shrine of the Black Madonna combined Afrocentric Christian practice with radical social projects to transform the self conception of its members Central to this endeavor was the Shrine s chancel mural of a Black Virgin and child the icon of a nationwide liberation movement that would come to be known as Black Christian Nationalism The Shrine s members opened bookstores and co ops created a self defense force and raised their children communally eventually working to establish the country s largest Black owned farm where attempts to create an earthly paradise for Black people continues today Alongside the Shrine s story Robertson reflects on a diverse array of Black utopian visions from

the Reconstruction era through the countercultural fervor of the 1960s and 1970s and into the present day By doing so Robertson showcases the enduring quest of collectives and individuals for a world beyond the constraints of systemic racism The Black Utopians offers a nuanced portrait of the struggle for spaces both ideological and physical where Black dignity protection and nourishment are paramount This book is the story of a movement and of a world still in the making one that points the way toward radical alternatives for the future
