Soul Trade:

Soul Trade Thomas E. Sniegowski, Tom Sniegowski, Joss Whedon, 2001 Some people collect baseball cards some people collect Beanie Babies some people collect souls A vision of a young girl in pain leads Angel Doyle and Cordelia to the scene just moments too late the girl of the vision is being taken unconscious to hospital The only clue as to what could have happened to her is an ornate glass vial found at the foot of her bed which Doyle recognises as used for the containment of human souls It seems souls have many uses other than the obvious no two are alike and the soul of an innocent child is one of the most eagerly sought after items on the demonic black market Angel knows the value of a human soul for his is the source of his own salvation But can he find this young girl's in time to save her Nor is she the only one in danger For no sooner has Angel made his presence known than the demonic dealers in souls realise that there's another soul out there which is quite literally priceless a soul more unique than they could ever have dared to dream **The Lion's Wisdom** Uma

Shankari, 2019-09-10 In this channeled text a wise lion distraught by the condition of the world and its people tutors a human student about the part we all play in creating and preserving balance and harmony on Mother Earth An exploration of the true nature of the soul and spirituality The Lion's Wisdom will move you to see the world around you differently

Unidentified Funny Objects 8 Wendy Maas, David Gerrold, Simon R. Green, Esther Friesner, Rob Dircks, Jody Lynn Nye, Laura Resnick, Gini Koch, SCIENCE FICTION FANTASY HUMOR The Unidentified Funny Objects series delivers an annual dose of funny zany and unusual science fiction and fantasy stories All new fiction from the genre's top voices Superheroes mired in government bureaucracy Cat cat burglars Grandmotherly golems Literal minded self driving cars Evil overlords retired in Florida Indifferent aliens **The Delectable Negro** Vincent Woodard, 2014-06-27 Winner of the 2015 LGBT Studies Award presented by the Lambda Literary Foundation Unearths connections between homoeroticism cannibalism and cultures of consumption in the context of American literature and US slave culture that has largely been ignored until now Scholars of US and transatlantic slavery have largely ignored or dismissed accusations that Black Americans were cannibalized Vincent Woodard takes the enslaved person's claims of human consumption seriously focusing on both the literal starvation of the slave and the tropes of cannibalism on the part of the slaveholder and further draws attention to the ways in which Blacks experienced their consumption as a fundamentally homoerotic occurrence The Delectable Negro explores these connections between homoeroticism cannibalism and cultures of consumption in the context of American literature and US slave culture Utilizing many staples of African American literature and culture such as the slave narratives of Olaudah Equiano Harriet Jacobs and Frederick Douglass as well as other less circulated materials like James L. Smith's slave narrative runaway slave advertisements and numerous articles from Black newspapers published in the nineteenth century Woodard traces the racial assumptions political aspirations gender codes and philosophical frameworks that dictated both European and white American arousal towards Black males and hunger for Black male flesh

Woodard uses these texts to unpack how slaves struggled not only against social consumption but also against endemic mechanisms of starvation and hunger designed to break them. He concludes with an examination of the controversial chain gang oral sex scene in Toni Morrison's *Beloved* suggesting that even at the end of the twentieth and beginning of the twenty-first century we are still at a loss for language with which to describe Black male hunger within a plantation culture of consumption.

The Soul Traders REMI, 2021-05-07 *The Soul Traders* By REMI Ghosts both good and bad are not the real monsters of the world. More often than not monsters are in plain sight as other humans. They are those who are indifferent to suffering who erode others' self-worth and plant the belief that we are undeserving of love. People like Lucas Dean Cane absorb their own abuse and dish it out to others. Others like Candice McKinnon try so hard to do the right thing they lose themselves in the process. After all the tragedies in her life Candice has the ability to communicate with her loved ones that have passed on. They attempt to guide her through life and encourage her to move forward. With their help and motivation will Candice finally be able to find peace in her life.

Blockchain of Souls Chinmoy Mukherjee, 2025-10-03 Dr. Emil Roth, a grieving widower and scientist in Zurich, pioneers the Elysium Chain, a blockchain technology that tokenizes human consciousness, allowing souls to be preserved, forked, and resurrected digitally. Assisted by his ethical counterpart, grad student Lena Vogel, and tested on terminally ill volunteer Elias Koenig, the project begins as a means to immortalize memories and combat oblivion. As Elias's consciousness is uploaded and fragmented into non-fungible tokens, the story explores the profound implications of digitizing the human essence from personal liberation through eternal simulations to societal debates on ownership, identity, and the democratization of death. Over seven years, the narrative unfolds through escalating ethical dilemmas and technological evolutions, including uncontrolled forking leading to digital chaos, corporate attempts to commodify souls, and governmental interventions on neural piracy. Conflicts arise with black markets, forgotten fragments of marginalized souls, and hybrid integrations blending digital echoes with living minds, culminating in a global symphony where souls harmonize in equitable, self-governed eternities. Ultimately, Emil's creation transforms humanity's relationship with mortality, reflecting themes of grief, hubris, and redemption as he himself merges into the chain, leaving a legacy of unchained immortality balanced by ethical safeguards.

Order at the Bazaar Regine A. Spector,2017-08-15 Order at the Bazaar delves into the role of bazaars in the political economy and development of Central Asia Bazaars are the economic bedrock for many throughout the region they are the entrepreneurial hubs of Central Asia

However they are often regarded as mafia governed environments that are largely populated by the dispossessed By immersing herself in the bazaars of Kyrgyzstan Regine A Spector learned that some are rather best characterized as islands of order in a chaotic national context Spector draws on interviews archival sources and participant observation to show how traders landowners and municipal officials create order in the absence of a coherent government apparatus and bureaucratic state Merchants have adapted Soviet institutions including trade unions and pre Soviet practices such as using village elders as the arbiters of disputes to the urban bazaar by building and asserting their own authority Spector's findings have relevance beyond the bazaars and borders of one small country they teach us how economic development operates when the rule of law is weak
