Spiritual Seed The Church Of The Valentinians:

The Spiritual Seed Einar Thomassen, 2006 This book is the first comprehensive study of the doctrines and history of Valentinianism making full use of the documents from Nag Hammadi as well as the reports of the Church Fathers

Heresy and Identity in Late Antiquity Eduard Iricinschi, Holger M. Zellentin, 2008 The papers collected in this volume shift the focus away from heretics and heresy to heresiological discourse by contextualizing the late antique Jewish and Christian groups that produced our extant literature The contributors to the volume draw from multiple literary corpora and genres bringing a variety of late antique perspective to explore the discursive construction of the Other They unravel ethnic identities and re create the multiple voices textured in the dialogue between the orthodox and heretical writers BOOK

JACKET Valentinian Christianity, 2020-07-21 Valentinus an Egyptian Christian who traveled to Rome to teach his unique brand of theology and his followers the Valentinians formed one of the largest and most influential sects of Christianity in the second and third centuries But by the fourth century their writings had all but disappeared suddenly and mysteriously from the historical record as the newly consolidated imperial Christian Church condemned as heretical all forms of what has come to be known as Gnosticism Only in 1945 were their extensive original works finally rediscovered and the resurrected Gnostic Gospels soon rooted themselves in both the scholarly and popular imagination Valentinian Christianity Texts and Translations brings together for the first time all the extant texts composed by Valentinus and his followers With accessible introductions and fresh translations based on new transcriptions of the original Greek and Coptic manuscripts on facing pages Geoffrey S Smith provides an illuminating balanced overview of Valentinian Christianity and its formative place in Christian history

The Valentinian Temple Matthew Twigg, 2022-04-11 Is the Nag Hammadi Apocalypse of Paul a Valentinian text Many would say no few would say yes The Valentinian Temple brings together all the available evidence to produce a systematic argument in favour of the Apocalypse of Paul s Valentinian origins From Valentinus himself to the Gospel of Truth and the Gospel of Philip this book traces one of the most neglected trajectories in Valentinian Christianity namely the pursuit of mystical experiences oriented around a heavenly temple Starting with the divine Name in the fragments of Valentinus the development of a high priestly Christology is uncovered across a range of primary sources culminating in the Gospel of Philip s temple based rituals of initiation The Valentinian Temple argues that it is against this intellectual background that the Apocalypse of Paul ought to be understood This book will be of interest to experts and students in Gnosticism Valentinianism early Christianity Coptic and biblical literature and Pauline studies **Guilt by Association** Geoffrey Stephen Smith, 2015

Few literary innovations have exercised as much influence upon Christian attitudes toward internal diversity as has the practice of organizing the names and alleged misdeeds of rival teachers into heresy catalogues For two millennia followers of Jesus have employed the heresy catalogue as a powerful weapon in internal struggles for legitimacy authority and supremacy Despite its enduring popularity and influence within the Christian tradition the heresy catalogue remains an

underappreciated polemical genre among historians of early Christianity *Guilt by Association* explores the creation publication and circulation of heresy catalogues by second and early third century Christians Polemicists made use of these religious blacklists which include the names of heretical teachers along with summaries of their unsavory doctrines and nefarious misdeeds in order to discredit opponents and advocate their expulsion from the authentic Christianity community The heresy catalogue proved to be especially effective because it not only recast rival teachers as menacing adversaries but also reinforced such characterizations by organizing otherwise unaffiliated teachers into coherent intellectual social and scholastic communities that are established and sustained by demonic powers Geoffrey Smith focuses especially on the earliest Christian heresy catalogues including those found within the works of Justin Irenaeus and Hegesippus to shed new light upon the complex process through which early Christianity took shape

Valentinus' Legacy and Polyphony of Voices Piotr Ashwin-Siejkowski, 2021-09-23 This book challenges the popular use of Valentinian to describe a Christian school of thought in the second century CE by analysing documents ascribed to Valentinians by early Christian Apologists and more recently by modern scholars after the discovery of codices near Nag Hammadi in Egypt To this end Ashwin Siejkowski highlights the great diversity of views among Christian theologians associated with the label Valentinian demonstrating their attachment to the Scriptures and Apostolic traditions as well as their dialogue with Graeco Roman philosophies of their time Among the various themes explored are myth and its role in early Christian theology the familiarity of the Gospel of Truth with Alexandrian exegetical tradition Ptolemy's didactic in his letter to Flora the image of the Saviour in the Interpretation of Knowledge reception of the Johannine motifs in Heracleon's commentary and the Tripartite Tractate salvation in the Excerpts from Theodotus Christian identity in the Gospel of Philip and reception of selected Johannine motifs in Valentinian documents *Valentinus Legacy and Polyphony of Voices* will be an invaluable and accessible resource to students researchers and scholars of Early Christian theologies as well as trajectories of exegesis in New Testament sources and the emerging of different Christian identities based on various Christologies

Individuality in Late Antiquity Alexis Torrance, 2016-05-23 Late antiquity is increasingly recognised as a period of important cultural transformation One of its crucial aspects is the emergence of a new awareness of human individuality In this book an interdisciplinary and international group of scholars documents and analyses this development Authors assess the influence of seminal thinkers including the Gnostics Plotinus and Augustine but also of cultural and religious practices such as astrology and monasticism as well as more generally the role played by intellectual disciplines such as grammar and Christian theology Broad in both theme and scope the volume serves as a comprehensive introduction to late antique understandings of human individuality

Remembering Paul Benjamin L. White, 2014-08-15 Who was Paul of Tarsus Radical visionary of a new age Gender liberating progressive Great defender of orthodoxy In *Remembering Paul* Benjamin L. White offers a critique of early Christian claims about the real Paul in the second century C E a period in which apostolic memory was highly contested and

sets these ancient contests alongside their modern counterpart attempts to rescue the historical Paul from his canonical entrapments White charts the rise and fall of various narratives about Paul and argues that Christians of the second century had no access to the real Paul Through the selection combination and interpretation of pieces of a diverse earlier layer of the Pauline tradition Christians defended images of the Apostle that were important for forming collective identity *Gospels and Gospel Traditions in the Second Century* Jens Schröter, Tobias Nicklas, Joseph Verheyden, 2018-12-03 The second century CE has often been described as a kind of dark period with regard to our knowledge of how the earliest Christian writings the gospels and Paul's letters were transmitted and gradually came to be accepted as authoritative and then later on as canonical At the same time a number of other Christian texts of various genres saw the light Some of these seem to be familiar with the gospels or perhaps rather with gospel traditions identical or similar to those that found their way into the NT gospels The volume focuses on representative texts and authors of the time in order to see how they have struggled to find a way to work with the NT gospels and or the traditions behind these while at the same time giving a place also to other extra canonical traditions It studies in a comparative way the reception of identifiably canonical and of extra canonical traditions in the second century It aims at discovering patterns or strategies of reception within the at first sight often rather chaotic way some of these ancient authors have cited or used these traditions And it will look for explanations of why it took such a while before authors got used to cite gospel texts more or less accurately **The Tyranny of Time?** D. Jeffrey Bingham, 2024-12-02 In a day fascinated with questions of historiography and with explicating a distinctive Christian philosophy of time and history Henri Charles Puech's 1950s work on Gnosis and time found an audience Studying four second century texts he marked as Gnostic he argued for the Gnostic anti cosmic anti historical pessimism about existence within the tyrannical temporal world of bondage and error Bliss and truth were otherworldly and atemporal This book reassesses Puech's argument by analysis of the writings undergirding his sample and a wide array of second century Christian and Gnostic Christian texts that display not the Gnostic view as if there were one but a broader second century theological discussion regarding time world and knowledge manifesting a spectrum of perspectives A review of past and present scholarly discourse that evoked discussions of Gnosticism and anti cosmism and informed Puech's thesis begins the volume along with study of his own thesis A discussion of the academy's reception of Puech then follows The close reading of early pertinent texts forms the heart of the work arguing for eight discernible models of history time and world that arose within the second century intellectual debate
