

## THE MASK, THE UNICORN, AND THE MESSIAH

*A Study in Solar Eclipse Symbolism*

by

**ELMER G. SUHR**

What possible relationship could there be between the facade of a Japanese sacred house and a mythical unicorn? And what does either of them have to do with the messianic Christ or Siegfried? The key to understanding ancient mythology and its development into the cultures we know today is found, according to well-known archaeologist Elmer Suhr, in the solar eclipses and their interpretation. In this final book of his trilogy, *The Column of the Cosmos*, Dr. Suhr brings to a lucid distillation the fruits of his lifetime work in mythology, religion, and archaeology.

Thoroughly versed in the many scholarly theories of mythological interpretation, Dr. Suhr is able to put each theory in its place. While giving each its due, he urges students to avoid advocating any single device to account for all phases of mythology. Instead he says that one must examine carefully the panorama of primitive vision, including the structure of its cosmos and the use of analogy to explain the operation of that cosmos. In his preface he goes on to say:

This study draws together a number of symbolic facts and implications from an area too little explored in the past; facts which, drawn mainly from astronomy and meteorology, can be used to explain characters and motives in terms of primitive needs. The solar eclipse, with its lunar shadow in the role of a cosmic connection between heaven and earth, adds another dimension to the pattern of suffering, death and regeneration to be found in so many areas of human experience. . . . There is reason to believe that the eclipse figured as one of man's earlier visions, and if so, it must have contributed considerably to the other two areas.

It is fascinating for professional and layman alike to follow the devastating detail of Dr. Suhr's arguments as he shows how the unicorn—a mythical monster who dwells in a sort of twilight zone between heaven and earth—is related to the terrors of solar eclipse and the eventual relief from terror primitive man felt when he realized that the moon was not devouring the sun. He goes on to show how the whole idea of redemption from death (the Messiah) evolved from this reinterpretation of the solar eclipse.

The sun, the source and dispenser of life energy, became very important as the dwelling place of the gods, a kind of paradise with its tree of life, its fountain of youth and haven of plenty and happiness. But the picture of the cosmos remained under the guise of the new interpretation.

Profusely illustrated with rare and unusual photographs carefully chosen for their relevance to the argument, *The Mask, the Unicorn and the Messiah* is the glorious finale of a trilogy which may well cause a complete revision of traditional studies of mythology.
