The Interrelationship of Leisure and Play Robert A. Stebbins, 2016-02-04 Augmentative play is a special activity that

substantially aids the pursuit of a larger encompassing leisure activity This approach to the study of play is unique It recognizes the hundreds of activities in which play and leisure come together *The Virtues of Mendacity* Martin Jay, 2010-05-10 When Michael Dukakis accused George H W Bush of being the Joe Isuzu of American Politics during the 1988 presidential campaign he asserted in a particularly American tenor the near ancient idea that lying and politics and perhaps advertising too are inseparable or at least intertwined Our response to this phenomenon writes the renowned intellectual historian Martin Jay tends to vacillate often impotently between moral outrage and amoral realism In *The Virtues of Mendacity* Jay resolves to avoid this conventional framing of the debate over lying and politics by examining what has been said in support of and opposition to political lying from Plato and St Augustine to Hannah Arendt and Leo Strauss Jay proceeds to show that each philosopher's argument corresponds to a particular conception of the political realm which decisively shapes his or her attitude toward political mendacity He then applies this insight to a variety of contexts and questions about lying and politics Surprisingly he concludes by asking if lying in politics is really all that bad The political hypocrisy that Americans in particular periodically decry may be in Jay's view the best alternative to the violence justified by those who claim to know the truth

The Impact of Religion Michael Welker, John Witte, Stephen Pickard, 2022-07-29 Pluralism has become the defining characteristic of modern societies Individuals with differing values clamor for equality Organizations and groups assert particular interests Social movements flourish and fade Some see in this clash of principles and aims the potential for a more just human community while others fear the erosion of enduring culture Yet beneath this welter stand powerful and pervasive institutions whose distinctive norms profoundly shape our moral commitments and character notably the family the market the media and systems of law religion politics research education health care and defense Drawing on scholarship from five continents many disciplines and diverse religious perspectives this series examines the impact of these various institutions on moral education character and values As globalization carries the shifting dynamic between individuals and institutions into every part of the globe the contributors hope that this conversation will help address the increasing challenges confronting our pluralist societies and our world The overwhelming majority of the contributions in this volume deal with the Christian religion as pluralistic societies today thrive substantially in Christian environments Contributions by Peter Carnley Gregor Etzel Johannes Eurich Jennifer Herdt Adriel Kosman Piet Naud Waihan Ng Friederike Nessel Bernd Oberdorfer Martin Percy Stephen Pickard Raja Sakrani William Schweiker Philipp Stoellger Milton Wan Renee Ip Michael Welker and John Witte Jr *Encyclopedia of Sustainable Management* Samuel Idowu, René Schmidpeter, Nicholas Capaldi, Liangrong Zu, Mara Del Baldo, Rute Abreu, 2023-11-21 This encyclopedia is the most comprehensive and up to date source of reference for sustainability in business and management It covers both traditional and emerging concepts and terms and is fully international in its scope More than 700 contributions of internationally renowned experts provide a definitive access to the knowledge in the area of sustainable and responsible

management All actors in the field will find reliable and up to date definitions and explanations of the key terms and concepts of management in this reference work The Encyclopedia of Sustainable Management represents all aspects of management and business conduct It takes sustainability as a management concept that gives due credit to the complexity and diverging constraints in which businesses and corporations act today and it emphasizes and focuses approaches that help ensure that today s management decisions and actions will be the basis for tomorrow s prosperity **Gender Equality on a Grand**

Tour Eva Blomberg,Yulia Gradszkova,Ylva Waldemarson,Alina Zvinkliene,2017-07-20 Gender Equality on a Grand Tour Politics and Institutions the Nordic Council Sweden Lithuania and Russia explores the politics around the establishment development and transformation of gender equality institutions in the Nordic countries on the example of Sweden in the former communist countries east of the Baltic Sea region the example of Lithuania and in the northwestern part of Russia The authors analyze the interplay between the internationalization and Europeanization of gender equality on the one hand and national and local contexts on the other Gender Equality on a Grand Tour also is the first study to explore the role of one of the leading transnational actors in the region the Nordic Council and the Nordic Council of Ministers in gender equality institutionalization in the Baltic Sea region Jesus, Paul, Luke-Acts, and 1 Clement David L. Balch,2023-06-19 In this book

the author draws on two original sources on a Greek biographer historian and rhetorician Dionysius of Halicarnassus as well as on Pompeian domestic art and architecture Generally NT scholars read texts but Greeks and ancient Romans loved beauty The walls and floors of their houses were decorated with thousands of colorful frescoes and mosaics art that two millennia later is still on display in Pompeii Christians lived and worshipped in those typical houses relating the art to NT texts generates many intriguing new questions What stories myths did Greeks and Romans see every day What were their sports and how violent were they Many NT scholars know as much or more Latin than they do Greek and they therefore cite the Latin historian Livy rather than the Greek Dionysius who wrote a century before the first Christian historian Luke Dionysius rhetoric expressed values shared across cultures by Greeks Romans and Jews e g by the historian and rhetorician Josephus some values that Luke also shares Dionysius makes clear that cities and ethnic groups had to praise how they treated emigrant foreigners questions handled differently by Josephus and by Luke This enables new interpretations of Jesus inaugural speech in Luke 4 and of Peter s second Pentecost speech in Acts 10 Transnational Constitution Making Alicia

Pastor y Camarasa,2024-06-14 This book examines the largely neglected but crucial role of transnational actors in democratic constitution making The writing or rewriting of constitutions is usually a key moment in democratic transitions But how exactly does this take place Most contemporary comparative constitutional literature draws on the concept of constituent power the power of the people to address this moment But what this overlooks this book argues is the important role of external transnational actors who tend to play a crucial role in the process Drawing on sociolegal methodologies but informed by new legal realism this book develops a new theoretical framework for examining the involvement of such actors

in constitution making Empirically grounded the book uncovers a more comprehensive picture of how constitution making unfolds on the ground Illuminating the power dynamics at play during the legal process it reveals not only the wide range of external actors involved but also the continuity between decolonisation and post Cold War constitution making This book the first to provide an in depth examination of external actor involvement in constitution making will appeal to scholars of constitutional law sociolegal studies law and development and transitional justice

Sociology as Analysis of the Unintended Adriana Mica, 2018-06-27 Sociology of unintended consequences is commonly depicted as a framework for understanding the outcomes that run counter to the initial intentions of social actors because of factors such as ignorance error and complexity This conventional approach however is now undergoing change under the influence of more encompassing shifts in framing in social sciences Indeed in the last few years the study of the unintended has evidently moved from the question What are the sources of the unintended to the inquiry What is it that makes the unintended possible or What risks but also opportunities do the unintended entail Explaining this puzzle in relation to the internal dynamics of sociology of unintended consequences Adriana Mica makes an erudite journey in relation to its three main analytical frameworks their semantic shifts setbacks and theoretical revivals Certainly through the examination of the use of protective headgear in boxing this volume renders explicitly the possibilistic turn not only in the specific research of the unintended but in sociology more generally Presenting the contributions of leading sociology theorists in a new light *Sociology as Analysis of the Unintended* will appeal to graduate students and researchers interested in fields such as theoretical sociology sociology of substantive issues and sociology of sport

Empathy Susan Lanzoni, 2018-09-25 A surprising sweeping and deeply researched history of empathy from late nineteenth century German aesthetics to mirror neurons *Empathy A History* tells the fascinating and largely unknown story of the first appearance of empathy in 1908 and tracks its shifting meanings over the following century Despite empathy s ubiquity today few realize that it began as a translation of Einfühlung or in feeling in German psychological aesthetics that described how spectators projected their own feelings and movements into objects of art and nature Remarkably this early conception of empathy transformed into its opposite over the ensuing decades Social scientists and clinical psychologists refashioned empathy to require the deliberate putting aside of one s feelings to more accurately understand another s By the end of World War II interpersonal empathy entered the mainstream appearing in advice columns popular radio and TV and later in public forums on civil rights Even as neuroscientists continue to map the brain correlates of empathy its many dimensions still elude strict scientific description This meticulously researched book uncovers empathy s historical layers offering a rich portrait of the tension between the reach of one s own imagination and the realities of others experiences

War, Warlords, and Interstate Relations in the Ancient Mediterranean ,2017-12-05 During the final four centuries BC many political and stateless entities of the Mediterranean headed towards anarchy and militarism while stronger powers Carthage the Hellenistic kingdoms and Republican Rome expanded towards State formation forceful military structures and empire building Edited by T aco del Hoyo and F L pez S nchez this volume presents the proceedings from an ICREA Conference held in Barcelona 2013 addressing the connection between war warlords and interstate relations from classical studies and social sciences perspectives Some twenty scholars from European Japanese and North American Universities consider the scope of multipolarity and the usefulness of warlord a modern category in order to feature some ancient military and political leaderships [Policy Strategy and Innovation Primer](#) Charles Chao Rong Phua,2023-02-10 Phua focuses on applying the best of corporate strategy and innovation tools and

praxis into the policy process with the aim of devising a coherent policy strategy innovation framework and process. Government and business strategies differ in their operating assumptions and variables but the strategy process is more similar than is often perceived. Phua debunks the government versus business dichotomy and demonstrates the potential for cross learning between both domains. Readers will benefit the most by reading this book in tandem with Phua's other works on strategy also featured in this series. This book is an essential primer for academics, practitioners, and learners of public policy, strategy innovation, and applied problem solving.
