Gerald Benedict,2012-01-01 A cataclysmic change to our way of life is looming as the winter solstice of 2012 heralds the end of the 5 000 year Mayan Fourth Age With its conclusion will we see the end of the world as we know it or the dawning of a new golden age *The Mayan in the Mall* J. T. Way,2012-04-16 This twentieth century history of Guatemala begins with an analysis of the Grand Tikal Futura a postmodern shopping mall with a faux Mayan facade that is surrounded by a landscape of gated subdivisions evangelical churches motels Kaqchikel speaking villages and some of the most poverty stricken ghettos in the hemisphere **Lost Science and Technology of the Mayan Civilization** NORAH ROMNEY, The Mayan civilization is one of the most fascinating cultures of all time They flourished in Mesoamerica from around 300 BC to 900 AD and their cities were more complex than any others at the time The Maya built roads developed an accurate measurement system for distances and built enormous stone temples that served as centers of worship astronomy and astrology They also had a well developed written language which they used to record their history and communicate important messages This post will explore some of their most significant discoveries that have shaped our world today The Mayan culture flourished in the Mesoamerican region from around 300 BC The society was known for its unique and advanced knowledge of architecture astronomy calendar making and mathematics The Mayans were one of the first civilizations in the Americas to develop a written language and they had an extensive knowledge of astronomy which they used to predict eclipses Mayans lived in Mexico and Central America especially on the Yucatan Peninsula where they built sophisticated cities with pyramids and temples made of stone such as Chich n Itz or Uxmal They also built many buildings with flat roofs named patios where people would come together to worship their gods while they watched dances performed by priests dressed in colorful costumes made from jaguar skins The Maya had a well developed written language The Mayan writing system was developed before the invention of the wheel and is one of the oldest in existence It was first used to record history astronomy and astrology but later became a way for people to communicate with each other The Mayans turned out to be better mathematicians than we thought they were Their calendar could easily track lunar cycles solstices and equinoxes without error it also predicted eclipses with great accuracy **Lost Cities of the Mayan Empire** Rhandel Lopez, Chich n Itz Although many ancient civilizations have influenced and inspired people in the 21st century like the Greeks and the Romans none have intrigued people like the Mayans whose culture astronomy language and mysterious disappearance continue to captivate people today Chich n Itz the most visited and most spectacular of the Late Classic Maya cities is at the center of the fascination In the later years of Maya civilization Chichen Itz had been inhabited for hundreds of years In developing columns and exterior relief decoration Chich n Itz probably had over 30 000 residents at its peak with a spectacular pyramid enormous ball court observatory and several temples to boast The sacred cenote at Chich n Itz a sinkhole used for Maya rituals surrounding water

is of particular interest The Maya regarded it as a primary concern because adequate water was rarely found on the limestone based Yucatan surface The underwater archeology conducted in the cenote at Chich n Itz found that offerings including people possibly were thrown into the sinkhole in honor of the Maya rain deity Chaac Despite its long history Chich n Itz had a relatively short period where it dominated the region lasting from 800 950 CE Nowadays guides take tourists to one of the temples called the Nunnery for no good reason other than that the small rooms remind them of a nunnery back home
