The Baroque Night Spencer Golub, 2018-09-15 In The Baroque Night authorial idiosyncrasy hybridizes the concepts of baroque and noir across the fields of film theater literature and philosophy arguing for mental function as form as an impossible object a container in which the container itself is the thing contained The book is an experiment in thinking difference and thinking differently an ethics of otherness and the abstract Spencer Golub inverts the unreality of the real and the reality of fiction exposing the tropes of memory identity and authenticity as a scenic route through life that ultimately blocks the view The Baroque Night draws upon materials that have not previously been included in studies of either the baroque or film noir while offering new perspectives on other more familiar sources Leibniz's concepts of the monad and compossibility provide organizing thought models and death fear and mental illness cast their anamorphic images across surfaces that are deeper and closer than they at first appear Key characters and situations in the book derive from the works of Alfred Hitchcock Henri Georges Clozot Jean Pierre Melville Oscar Wilde Georges Perec Patricia Highsmith William Shakespeare Jean Racine Pierre Corneille and Arthur Conan Doyle among many others This is virtuality and reality for the phobic making it a fascinating and viable document of and episteme for the anxious age in which we always find ourselves living though not yet fully alive This performance of suspect evidence speaks to and in the ways we are organically inauthentic the cause of our own causality and our own worst eyewitnesses to all that appears and disappears in space and time
