aims to bring it to the fore and to show that medieval people did have standards of behaviour Although they may seem remote to modern civilised people there is both continuity and change in human behaviour throughout the centuries **The Mead Hall** Stephen Pollington,2003 Pollington has written and spoken widely on Anglo Saxon language literature society and culture Here he describes feasting and society the mead hall as living and ritual space food and feasting equipment positions of power and entertainment He includes a glossary with pronunciations and sa The Oxford Encyclopedia of Medieval Warfare and Military Technology Clifford J. The Art and Thought of the "Beowulf" Poet Leonard Neidorf, 2023-01-15 In The Art and Thought of the Beowulf Poet Leonard Neidorf explores the relationship between Beowulf and the legendary tradition that existed prior to its composition The Beowulf poet inherited an amoral heroic tradition which focused principally on heroes compelled by circumstances to commit horrendous deeds fathers kill sons brothers kill brothers and wives kill husbands Medieval Germanic poets relished the depiction of a hero's unyielding response to a cruel fate but the Beowulf poet refused to construct an epic around this traditional plot Focusing instead on a courteous and pious protagonist's fight against monsters the poet creates a work that is deeply untraditional in both its plot and its values In Beowulf the kin slayers and oath breakers of antecedent tradition are confined to the background while the poet fills the foreground with unconventional characters who abstain from transgression display courtly etiquette and express monotheistic convictions Comparing Beowulf with its medieval German and Scandinavian analogues The Art and Thought of the Beowulf Poet argues that the poem's uniqueness reflects one poet's coherent plan for the moral renovation of an amoral heroic tradition In Beowulf Neidorf discerns the presence of a singular mind at work in the combination and modification of heroic folkloric hagiographical and historical materials Rather than perceive Beowulf as an impersonally generated object Neidorf argues that it should be read as the considered result of one poet's ambition to produce a morally edifying theologically palatable and historically plausible epic out of material that could not independently constitute such a poem
