Conversion, Circumcision, and Ritual Murder in Medieval Europe Paola Tartakoff, 2020-01-17 A investigation into the thirteenth century Norwich circumcision case and its meaning for Christians and Jews In 1230 Jews in the English city of Norwich were accused of having seized and circumcised a five year old Christian boy named Edward because they wanted to make him a Jew Contemporaneous accounts of the Norwich circumcision case as it came to be called recast this episode as an attempted ritual murder Contextualizing and analyzing accounts of this event and others with special attention to the roles of children Paola Tartakoff sheds new light on medieval Christian views of circumcision She shows that Christian characterizations of Jews as sinister agents of Christian apostasy belonged to the same constellation of anti Jewish libels as the notorious charge of ritual murder Drawing on a wide variety of Jewish and Christian sources Tartakoff investigates the elusive backstory of the Norwich circumcision case and exposes the thirteenth century resurgence of Christian concerns about formal Christian conversion to Judaism In the process she elucidates little known cases of movement out of Christianity and into Judaism as well as Christian anxieties about the instability of religious identity *Conversion Circumcision and Ritual Murder in Medieval Europe* recovers the complexity of medieval Jewish Christian conversion and reveals the links between religious conversion and mounting Jewish Christian tensions At the same time Tartakoff does not lose sight of the mystery

surrounding the events that spurred the Norwich circumcision case and she concludes the book by offering a solution of her own Christians and Jews she posits understood these events in fundamentally irreconcilable ways illustrating the chasm that separated Christians and Jews in a world in which some Christians and Jews knew each other intimately

Beautiful Death Susan L. Einbinder, 2002-07-01 When Crusader armies on their way to the Holy Land attacked Jewish communities in the Rhine Valley many Jews chose suicide over death at the hands of Christian mobs With their defiant deaths the medieval Jewish martyr was born With the literary commemoration of the victims Jewish martyrology followed Beautiful Death examines the evolution of a long neglected corpus of Hebrew poetry the laments reflecting the specific conditions of Jewish life in northern France The poems offer insight into everyday life and into the ways medieval French Jews responded to persecution They also suggest that poetry was used to encourage resistance to intensifying pressures to convert The educated Jewish elite in northern France was highly acculturated Their poetry particularly that emerging from the innovative Tosafist schools reflects their engagement with the vernacular renaissance unfolding around them as well as conscious and unconscious absorption of Christian popular beliefs and hagiographical conventions At the same time their extraordinary poems signal an increasingly harsh repudiation of Christianity's sacred symbols and beliefs They reveal a complex relationship to Christian culture as Jews internalized elements of medieval culture even while expressing a powerful revulsion against the forms and beliefs of Christian life This gracefully written study crosses traditional boundaries of history and literature and of Jewish and general medieval scholarship Focusing on specific incidents of persecution and the literary commemorations they produced it offers unique insights into the historical conditions in which these poems were written and performed

Power and Its Problems in Carolingian Europe Stuart Airlie, 2018-02-06 A key theme in this collection of thirteen essays is the creative tension between the Carolingian dynasty and its aristocratic followers across 250 years The first section explores the rising dynasty's attempts to consolidate its power through war and rewards The second section focuses on the exercise of authority through a complex system of governance and representation and the pivotal role played by the courts of Charlemagne and his successors In the third section we see the Carolingian system undergoing a crisis of legitimacy challenged by civil war royal divorce and aristocratic encroachment on dynastic exclusivity These essays

anatomise the dynamics of power relations in the greatest empire of the early medieval west

The Queens and Royal Women of Sweden, c. 970-1330 Caroline Wilhelmsson, 2024-10-11 This is the first major piece of scholarship to provide an overview of the lives of Sweden's earliest documented queens together with some of their most influential female relatives who lived between 970 and 1330. Spanning a period over 350 years, approximately 40 biographies are included from the semi-legendary Viking queen Sigrid Storrda to Duchess Ingeborg of Norway, the first female de jure and de facto ruler of Sweden. Rather than merely summarising previous research, this study offers new perspectives on the evolution of queenship in medieval Sweden. It tracks the different religious, political, and socio-economic trends which defined and shaped the office of queen and identifies three main phases of development which led to royal women's economic and political emancipation by the mid-fourteenth century. The study's main strength lies in its close reading and novel interpretation of the surviving primary sources, enabling readers to understand the importance of these women and wider themes such as state formation, Christianisation, and international politics. *The Queens and Royal Women of Sweden c. 970-1330* is of interest to scholars of queenship and gender studies, medieval historians in general, those with an interest in ecclesiastical history, and anyone studying medieval Scandinavia. *National Union Catalog*, 1973. Includes entries for maps and atlases.

The Cambridge History of Judaism: Volume 6, The Middle Ages: The Christian World Robert Chazan, 2018-10-11 Volume 6 examines the history of Judaism during the second half of the Middle Ages. Through the first half of the Middle Ages, the Jewish communities of western Christendom lagged well behind those of eastern Christendom, and the even more impressive Jewries of the Islamic world. As Western Christendom began its remarkable surge forward in the eleventh century, this progress had an impact on the Jewish minority as well. The older Jewries of southern Europe grew and became more productive in every sense. Even more strikingly, a new set of Jewries were created across northern Europe when this undeveloped area was strengthened demographically, economically, militarily, and culturally. From the smallest and weakest of the world's Jewish centers in the year 1000, the Jewish communities of western Christendom emerged despite considerable obstacles as the world's dominant Jewish center by the end of the Middle Ages. This demographic, economic, cultural, and spiritual dominance was maintained down into modernity.
