The Mercenary:

The Mercenary Christopher Kinsey, 2023 The growing reliance by the US Russia and China on military and security contractors suggests that the mercenary remains a key player in international politics now emerging from the shadows to help expand state influence on the world stage by serving as an important actor in the conduct of conflict and the winning of small wars

The Mercenary's Daughter Jessica Therrien, Joe Gazzam, 2020-03-31 When Special Ops recruit Tara Kafee is dishonorably discharged there's only one place to go Home But there's more waiting for her there than she's ready for It's been four years since she's been back and ten since her mother walked out on the family never to be heard of again She's determined to rekindle things with her father and keep him close That is until he goes missing Soon after stumbling upon a safe room full of weapons fake passports and a mission's dossier marking a target in Cuba she

reluctantly accepts the help of her angsty teenage brother. He's the only one she can trust so together the two set out for Havana. He was also a man of compassion. Seeing a young slave woman about to become the spoils of war, he claimed her for his own. Marrying her before God and king, he made her a free and respectable soldier's wife. Brice was born a slave. Abused and beaten, she learned quickly to avoid being noticed and to stay away from men. When her master's walls fell to enemy forces, she ran but not fast enough. In Darius' offer, she found deliverance but experience had taught her to fear power such as his. Could she trust in his protection or had she traded one form of slavery for another? *The Mercenary* Jerry Pournelle, 1986-10-01 In a future universe in which prisoner colonists are shipped to strange worlds for a corrupt alliance of Earth nations, John Christian Falkenberg gives up a brilliant military career and makes a monumental sacrifice. **Tale of the Orphan Deer** Leon G. Yap, 2021-02-03 Liza Roselynn is a young female doctor who grew up in Iron Harbour. She then met a boy who was found floating unconscious near the docks. After treating the boy, she discovered he had false memory syndrome. He remembers coming from a different world where smart phones and technology were the hype. When Liza explained to him that there was no such thing as technology and the possibility of him diagnosed with False Memory Syndrome, the boy decided to go on a journey to search for his true past. **Mercenaries and Security Contractors in the 21st Century** Eugenio Cusumano, Christopher Kinsey, Robert Parr, 2025-03-31 This book examines the debate over private security contractors using historical and contemporary cases including several non-Western examples. Since the end of the Cold War, security privatization has grown in its geographical outreach, breadth, and scope. This pervasive expansion of the private military and security market warrants a systematic investigation of commercial actors' involvement in the variety of tasks associated with the provision of violence, ranging from combat to vessel protection and cybersecurity. Combining theoretical and empirical approaches, the essays in this volume provide a historical investigation into private force that extends beyond Europe and the United States. By focusing on recent developments such as the extensive involvement of Russian mercenaries in Ukraine, new evidence from the Global South, and the added historical depth given to the study of commercial providers of warfare, this volume questions the endurance of norms like the mercenary taboo and the state monopoly of violence. In doing so, it sheds new light on the past, present, and future of private security. This book will be of much interest to students of private security studies, military studies, security studies, and international relations. **The Mercenary** Paul Vidich, 2021-02-02 From acclaimed spy novelist Paul Vidich comes a taut new thriller following the attempted exfiltration of a KGB officer from the ever-changing and always dangerous USSR in the mid-1980s. Moscow, 1985. The Soviet Union and its communist regime are in the last stages of decline but remain opaque to the rest of the world and still very dangerous. In this ever-shifting landscape, a senior KGB officer, code name GAMBIT, has approached the CIA. Moscow.
