rulership over the twelve houses is a cornerstone of traditional astrology's chart interpretation and a ruling planet's condition determines its success or failure in managing the affairs of its house. Issues such as mediocre quality, troublesome relationships, poor placement or lack of sight aversion suggest stress for the planet and indicate difficult repercussions in the areas of life for which the ruling planet is responsible. Patterns which normally lie unseen or dormant within the chart become animated through rulership and with the reintroduction of lost models, the chart and life on Earth once more become reflections of the larger Universe.

Carlyle and Jean Paul: Their Spiritual Optics J.P. Vijn,1982-01-01 It has always been thought difficult if not impossible to define what the philosophy of Carlyle was Ever since the publication of Sartor Resartus in 1833 1834 the view that Carlyle had a theistic conception of the universe has been defended as well as opposed At a time therefore when Carlyle s work as a whole is being reappraised his philosophy should first and foremost be dealt with Carlyle s life philosophy is based on the inner experience of a process of conversion which set in with an incident that occurred to him at Leith Walk Edinburgh This study which settles the old question of the date of the incident demonstrates that the inner struggle the dynamics of which are described most fully in Sartor is analogous to the Jungian process of individuation For the first time in critical literature the basic ideas of Carlyle s philosophy are thus linked to depth psychology and shown to be analogous to the fundamental concepts of Analytical Psychology In recent criticism it has been

asserted that the crisis recorded in Sartor is akin to the crisis of doubt said to underlie Jean Paul's *Rede des todten Christus* 1796 which is probably the first poetic expression of nihilism in European literature and has become a classic Apart from demonstrating that in the last fifty years at least the *Rede* has erroneously been interpreted as a dream of annihilation this book invalidates the view of Jean Paul as victim of the skepticism of his age and argues that contrary to what is usually maintained the *Rede* is not the document of a crisis but of a belief which had become antiquated and obsolete for Carlyle
