Havana Syndrome Armin Krishnan, 2025-09-04 Havana Syndrome is most likely caused by unknown types of directed energy weapons either of the acoustic or electromagnetic variety The technology for such weapons has been under development since at least the 1960s The first covert attacks on U S diplomats may go back to that time when the phenomenon was called the Moscow Signal Havana Syndrome A Threat to National Security covers the history of anti personnel directed energy weapons DEW from the Soviet psychotronic weapons that were rumored to exist since the 1970s to the nonlethal weapons developed in the West in the 1980s onward The book examines the publicly known details of Havana Syndrome and provides some analysis of the U S government investigations into Havana Syndrome with respect to what has been declassified The most likely perpetrators are the Russian or Chinese governments as some incidents seem to be related to their strategic interests and as both would have the technology to carry out such sophisticated attacks Havana Syndrome establishes a connection between the Anomalous Health Incidents and what NATO analysts have termed cognitive warfare to speculate about the true purpose of these mysterious attacks

Subcommittee on General Oversight and Investigations,1990 **EMF Book** Mark Pinsky,2009-10-31 Electromagnetic fields and radiation are everywhere near power lines computers radio and television signals microwave ovens toasters alarm clocks and everyday electrical appliances The media are warning of the possible hazards of EMFs and EMR and recent studies suggest that they cause leukaemia in children and breast and brain cancer in adults This book gives facts about the dangers revealing that most of us are exposed to radiation and electromagnetic fields everyday It advises which levels to worry about and how to minimize the risks It is also a sourcebook for citizens seeking action from utility companies employers manufacturers and governmental agencies **Cellular Phones, Public Fears, and a Culture of Precaution** Adam Burgess,2004 This is the first account of the health panic surrounding cellular phones that developed in the mid 1990s Treating the issue as more social construction than evident scientific problem it tells the story of how this originally American anxiety diffused internationally having an even bigger impact in countries such as Italy Burgess highlights the contrasting reactions to the issue ranging from positive indifference in Finland to those such as the UK where precautionary measures were taken These differences are located within the emergence of a precautionary culture driven by institutional insecurity that first appeared in the US and is now most evident in Europe Anxieties about cell phone radiowaves are also situated historically in the very different reactions to technologies such as x rays and in the more similar microwave suspicions about television In addition Burgess outlines a history and sociology of what is despite media driven anxieties a spectacularly successful device *Remote Brain Targeting - Evolution of Mind Control in U.S.A.: A Compilation of Historical Information Derived from Various Sources (Mind Control Technology Book Series) Book I of 7* Renee Pittman,2011-10-13 The objective today is to isolate targets through technological harassment remote viewing electronic surveillance and also focus on using everyone around them subliminally influenced The target is depicted to the community as incompetent disloyal troublesome mentally unbalanced or ill to mobilized community stalking efforts This permits an expertly crafted promotion

and denial that highly advanced mind invasive technology exists The whistleblower targeted individual targeted for various reasons is then heinously maliciously secretly abused by electromagnetic systems difficult to prove because it is unseen to the human eye or detectable as extremely low frequency ELF radio and microwaves waves The objective is to push the target over the edge to suicide hurting self or others entrapped jail or be institutionalized Others watch and become frightened preventing them from speaking out against these extreme immoral and unethical injustices in the form of covert terrorism with many players and denial of Human Rights Remote Neural Monitoring testing has also thrived within the Association of Psychiatry historically The electromagnetic assaults physical psychological and verbal continue until the target is left discredited exhausted and in poor health financially crippled or his or her life is in ruins or worse And it is legal Remote Brain Targeting confirms Pittman's credibility in this five book series which details her personal experiences and others detailing how the slow kill effect is being used today as a form of physical coercion electromagnetically All five books in the Mind Control Technology book series are a must read and a wake up call to an older generation familiar with and knowledgeable of some of these programs specifically MK ULTRA mind control testing officially in the 50s 60s and 70 s and Pittman's renewed hope to stir the consciousness of a new generation through awareness of what is factually happening today to many Today the technology has erupted into an electromagnetic invasion that is unparalleled in this day and time and heinously capable of delivery through many methods and from a considerable distance This technology is no joke A MUST READ Knowledge is Power Awareness is Key TRUTH a powerful weapon
