Mother of God Miri Rubin, 2009-04-21 A sweeping ambitious study of the Virgin Mary's emergence and role throughout Western history How did the Virgin Mary about whom very little is said in the Gospels become one of the most powerful and complex religious figures in the world To arrive at the answers to this far reaching question one of our foremost medieval

historians Miri Rubin investigates the ideas practices and images that have developed around the figure of Mary from the earliest decades of Christianity to around the year 1600 Drawing on an extraordinarily wide range of sources including music poetry theology art scripture and miracle tales Rubin reveals how Mary became so embedded in our culture that it is impossible to conceive of Western history without her In her rise to global prominence Mary was continually remade and reimagined by wave after wave of devotees Rubin shows how early Christians endowed Mary with a fine ancestry why in early medieval Europe her roles as mother bride and companion came to the fore and how the focus later shifted to her humanity and unparalleled purity She also explores how indigenous people in Central America Africa and Asia remade Mary and so fit her into their own cultures Beautifully written and finely illustrated this book is a triumph of sympathy and intelligence It demonstrates Mary's endless capacity to inspire and her profound presence in Christian cultures and beyond

The politics of Middle English parables Mary Raschko, 2018-10-03 The politics of Middle English parables examines the dynamic intersection of fiction theology and social practice in late medieval England Parables occupy a prominent place in Middle English literature appearing in dream visions and story collections as well as in lives of Christ and devotional treatises While most scholarship approaches the translated stories as stable vehicles of Christian teaching this book highlights the many variations and points of conflict across Middle English renditions of the same story In parables related to labour social inequality charity and penance the book locates a creative theological discourse through which writers attempted to re-construct Christian belief and practice Analysis of these diverse retellings reveals not what a given parable meant in a definitive sense but rather how Middle English parables inscribe the ideologies power structures and cultural debates of late medieval Christianity

Spiritual Calculations Christine Cooper-Rompato, 2022-01-21 Medieval English sermons teem with examples of quantitative reasoning ranging from the arithmetical to the numerological and regularly engage with numerical concepts Examining sermons written in Middle English and Latin this book reveals that popular English speaking audiences were encouraged to engage in a wide range of numerate operations in their daily religious practices Medieval sermonists promoted numeracy as a way for audiences to appreciate divine truth Their sermons educated audiences in a hybrid form of numerate practice one that relied on individuals pragmatic quantitative reasoning which when combined with spiritual interpretations of numbers provided by the preacher created a deep and rich sense in which number was the best way to approach the sacred mysteries of the world as well as to learn how one could best live as a Christian Analyzing both published and previously unpublished sermons and sermon cycles Christine Cooper-Rompato explores the use of numbers arithmetic and other mathematical operations to better understand how medieval laypeople used math as a means to connect with God Spiritual Calculations enhances our understanding of medieval sermons and sheds new light on how receptive audiences were to this sophisticated rhetorical form It will be welcomed by scholars of Middle English literature medieval sermon studies religious experience and the history of mathematics

Preaching and Narrative in Piers Plowman Alastair Bennett, 2025-05-27 William Langland's Piers Plowman was written and read during a golden age of English preaching. The poem describes a world where sermons took many different forms and were delivered in many different contexts from public events in the life of the realm to pastoral instruction in the parish. It dramatises preaching as part of its allegorical action showing how sermons shaped their listeners' understanding of the world; it also includes polemical critique of corrupt self-interested preaching and offers radical prescriptions for its reform. This book argues that Langland's central insight into the way that sermons moved and engaged their audiences had to do with their characteristic use of narrative. Preachers in the poem address listeners who are absorbed in the concerns of their present moment and encourage them to new forms of social and spiritual endeavour by locating that moment in a larger interpreted plot: the story of an individual life or an emergent community or of salvation history as a whole. The book employs a critical vocabulary derived from Paul Ricoeur to describe the process by which these narratives are composed and to show how they mediate and reconfigure their listeners' experiences.

Exploring the Evidence Linda Clark, 2014 Of necessity historians of the late Middle Ages have to rely on an eclectic mix of sources ranging from the few remaining medieval buildings, monuments, illuminated manuscripts and miscellaneous artefacts to a substantial but often uncatalogued body of documentary material, much of it born of the medieval administrator's penchant for record-keeping. Exploring this evidence requires skills in lateral thinking and interpretation, qualities which are manifested in this volume. Employing the copious legal records kept by the English Crown, one essay reveals the thinking behind exceptions to pardons sold by successive kings while another using clerical taxation returns adds colour to contemporary criticism of friars for betraying their vows of poverty. Case studies of the registers of two hospitals, one in London, the other in Canterbury, lead to insights into the relations of their administrators with civic and spiritual authorities. A textual dissection of the epilogues in William Caxton's early printed works focuses on the universal desire for commemoration. Other essays about royal livery collars and the English coinage are nourished by material remains and where contemporary records fail to survive, as in the listing of burials in parish churches, notes kept by sixteenth-century heralds and antiquaries provide clues for novel identifications. The book ends with exemplars of the historian's craft, the one taking as its starting point the will of Ralph Lord
