currents and discover a story as vast and compelling as the river itself a testament to Jules Verne's mastery of weaving wonder and humanity into the fabric of exploration The Triumph of Human Empire Rosalind Williams, 2022-12-22 In the early 1600s in a haunting tale titled *New Atlantis* Sir Francis Bacon imagined the discovery of an uncharted island This island was home to the descendants of the lost realm of Atlantis who had organized themselves to seek the knowledge of Causes and secret motions of things and the enlarging of the bounds of Human Empire to the effecting of all things possible Bacon's make believe island was not an empire in the usual sense marked by territorial control instead it was the center of a vast general expansion of human knowledge and power Rosalind Williams uses Bacon's island as a jumping off point to explore the overarching historical event of our time the rise and triumph of human empire the apotheosis of the modern ambition to increase knowledge and power in order to achieve world domination Confronting an intensely humanized world was a singular event of consciousness which Williams explores through the lives and works of three writers of the late nineteenth century Jules Verne William Morris and Robert Louis Stevenson As the century drew to a close these writers were unhappy with the direction in which their world seemed to be headed and worried that organized humanity would use knowledge and power for unworthy ends In response Williams shows each engaged in a lifelong quest to make a home in the midst of human empire to transcend it and most of all to understand it They accomplished this first by taking to the water in life and in art the transition from land to water offered them release from the condition of human domination At the same time each writer transformed his world by exploring the literary boundary between realism and romance Williams shows how Verne Morris and Stevenson experimented with romance and fantasy and how these traditions allowed them to express their growing awareness of the need for a new relationship between humans and Earth *The Triumph of Human Empire* shows that for these writers and their readers romance was an exceptionally powerful way of grappling with the political technical and environmental situations of modernity As environmental consciousness rises in our time along with evidence that our seeming control over nature is pathological and unpredictable Williams's history is one that speaks very much to the present
