Chao, 2025-10-16 This book examines how continental great powers have attempted to develop and wield strong navies since 1801 Continental Powers and Naval Development argues that a continental great power's ability to build and effectively use a strong navy is greatly affected by two factors a naval force design capable of executing national strategy strategy coherence and the deployment of that navy to places or for purposes that minimize the dominant naval power's threat perception threat diffusion Each factor is deceptively difficult for a continental great power to achieve but through an analysis of four historical case studies this book shows how both factors

are vital not just for successful naval development but for keeping the peace among great powers Finally it highlights how states commonly thought of as unnatural naval powers can nonetheless achieve their political objectives at sea This book will be of much interest to students of naval history maritime strategy and International Relations **The USSR and Iraq** Oles M. Smolansky,1991 In *The USSR and Iraq* the first major study of Soviet Iraqi relations Oles M Smolansky examines the history of the relationship between these two countries during the past twenty years and attempts to dispel the misconception that the Soviet Union has enjoyed undue influence over Iraq Drawing on ten years of research in Western Arab and Soviet sources Smolansky analyzes the complex issues at the center of Soviet Iraqi relations from 1968 through 1988 including the nationalization of the oil industry the Kurdish question the Iraqi Communist Party the affairs of the Persian Arabian Gulf and ultimately the war between Iraq and Iran Smolansky concludes that Iraq has never been under the dominant influence of Moscow nor has it even been a loyal Soviet ally In fact Iraq has managed to reap major benefits from the relationship without losing its autonomy or sacrificing its major interests The author discusses the Soviet Union and Iraq within the larger framework of the nature of influence relationships between great and small powers Algeria, a Country Study American University (Washington, D.C.). Congress. House. Committee on Armed Services,1976 **Marcos Against the Church** Robert Youngblood,2019-05-15 The election of Ferdinand Marcos to the presidency of the Republic of the Philippines coincided with the conclusion of the work of Vatican II in 1965 and Marcos s dictatorial policies would inevitably clash with the Vatican s call for the clergy to advocate greater social justice for the poor In this authoritative account of the role of the Catholic Church in the recent history of the Philippines Robert L Youngblood traces the political engagement of the Church over the twenty years between Marcos s election and his ouster from power in 1986 Drawing upon extensive research Youngblood explains how although church and state professed to share the goal of improving the welfare of the poor Marcos s economic development policies and oppressive rule created church opposition which helped accelerate the collapse of his regime Youngblood considers the evolution of church programs from social action projects such as the organization of cooperatives and credit unions to the development of social justice programs that emphasized the creation of more

democratic and caring communities He examines the dynamics by which the leaders of the Philippine Roman Catholic and Protestant churches moved from a brief period of goodwill toward the Marcos dictatorship to considerable opposition by the late 1970s as church sponsored work among the poor was increasingly viewed by the regime as subversive Youngblood shows that after the assassination of Benigno Aquino Jr in 1983 the deterioration of the standard of living of average Filipinos along with Marcos's repressive policies toward the churches and other abuses in the name of national security were factors which impelled powerful church figures to actively oppose the dictatorship Tracing the internal deliberations of the Philippine churches as they came to take the lead in opposing human rights abuses Marcos against the Church deepens our understanding of problematic relations between church and state Historians and social scientists interested in the Philippines and modern Southeast Asia historians of religion political scientists working in comparative politics and political development and others concerned with issues of human rights will want to read it
