The Military Buildup In The High North American And Nordic Perspectives:

The Military Buildup in the High North Sverre Jervell, Kare Nyblom, 1986 **Russia's Arctic Strategies and the Future of the Far North** Marlene Laruelle, 2015-01-28 This book offers the first comprehensive examination of Russia's Arctic strategy ranging from climate change issues and territorial disputes to energy policy and domestic challenges As the receding polar ice increases the accessibility of the Arctic region rival powers have been manoeuvring for geopolitical and resource security Geographically Russia controls half of the Arctic coastline 40 percent of the land area beyond the Circumpolar North and three quarters of the Arctic population In total the sea and land surface area of the Russian Arctic is about 6 million square kilometres Economically as much as 20 percent of Russia's GDP and its total exports is generated north of the Arctic Circle In terms of resources about 95 percent of its gas 75 percent of its oil 96 percent of its platinum 90 percent of its nickel and cobalt and 60 percent of its copper reserves are found in Arctic and Sub Arctic regions Add to this the riches of the continental shelf seabed and waters ranging from rare earth minerals to fish stocks After a spike of aggressive rhetoric when Russia planted its flag in the Arctic seabed in 2007 Moscow has attempted to strengthen its position as a key factor in developing an international consensus concerning a region where its relative advantages are manifest despite its diminishing military technological and human capacities **The Secret War Against Sweden** Ola Tunander, 2004 Ola Tunander's revelations make it clear that the United States and Britain ran a secret war in Swedish waters *Problems of Communism*, 1989 **The Nordic Way** Edward L. Killham, 1993 This analysis of the delicate Nordic Balance and the role it has played in recent history is an excellent introduction to the study of Soviet policy in Scandinavia It focuses on the history of mutual entanglement among the Slavs Germans and Nordic peoples in peace as well as in war The Nordic Balance meant that the NATO membership of Norway Denmark and Iceland was balanced by Finland's security relationship with Russia while Sweden's armed neutrality acted as a buffer between the Eastern and Western spheres of influence The concept embodied a tacit recognition by all parties that this balance was stable and that any attempt to tilt it would meet a corresponding reaction from the other side *Handbook of Canadian Foreign Policy* Patrick James, Nelson Michaud, Marc J. O'Reilly, 2006-01-01 Handbook of Canadian Foreign Policy is the most comprehensive book of its kind offering an updated examination of Canada's international role some 15 years after the dismantling of the Berlin Wall ushered in a new era in world politics Highlighting both well known and understudied topics this handbook presents a marriage of the familiar and the underappreciated that enables readers to grasp much of the complexity of current Canadian foreign policy and appreciate the challenges policymakers must meet in the early 21st century **The Arctic Council** Douglas C. Nord, 2015-12-22 This book helps us to think carefully about how this area of the world should be best handled in the future by offering a concise and accessible introduction to the Arctic Council Over the past two decades the Arctic has evolved from being a remote region in international affairs to becoming an increasingly central concern of the global

community The issues of climate change access to new energy resources the development of new global trade routes the protection of the natural environment and the preservation of indigenous cultures and languages have all come to be focused within this formerly neglected region Now in its nineteenth year of operation the Arctic Council an innovative international organization is going through a period of new growth and challenges This work identifies the major trends and directions of current Arctic diplomacy and the manner in which national regional and international leaders and organizations can all make useful contributions in dealing with the complex agenda of environmental economic and political challenges faced by this increasingly significant area of the globe This book will be of great interest to students and scholars of international organizations international relations and the environment *The NEBI YEARBOOK 2003* Pertti Joenniemi, Lars Hedegaard, Heikki Eskelinen, Bjarne Lindström, Karin Peschel, Carl-Einar Stalvant, 2012-12-06 Bjllrn Tore Godal Norwegian Ambassador to Germany Chairman of the Editorial Advisory Board Several of the contributions to the present volume of The NEBI Yearbook have been inspired by the fact that roughly speaking ten years have passed since the first steps were taken to initiate cross border co operation in the Barents and Baltic Sea areas One of the most important co operative organisations in the European Northeast i e The Council of the Baltic Sea States was launched in 1992 The Barents Euro Arctic Council was established in 1993 An avalanche of co operative and cross border initiatives has since hit this part of Europe with all kinds of actors participating states regional and municipal authorities univer sities national organisations businesses and private interests Even international organisations and actors from outside the immediate NEBI area have taken a special interest in this dynamic part of the world Among the most important is the European Union whose Finnish inspired Northern Dimension initiative has become a permanent fixture As many of the chapters in NEBI 2003 testify integration in the NEB I area across old political and ideological borders and cultural and socio economic divides that are among the most pronounced anywhere in the world has on the whole been a great success News of Norway ,1987 *Land Based Air Power or Aircraft Carriers?* Gjert Lage Dyndal, 2016-04-22 During the 1960s in the midst of its retreat from empire the British government had to grapple with complex political and military problems in order to find a strategic defence policy that was both credible and affordable Addressing what was perhaps the most contentious issue within those debates this book charts the arguments that raged between supporters of a land based air power strategy and those who favoured aircraft carriers Drawing upon a wealth of previously classified documents the book reveals how the Admiralty and Air Ministry became interlocked in a bitter political struggle over which of their military strategies could best meet Britain s future foreign policy challenges Whilst the broad story of this inter service rivalry is well known the Air Force s proposal for a series of island based airfields and the Navy championing of a small number of expensive but mobile aircraft carriers the complexity and previous lack of archival sources means that it has until now only ever been partially researched and understood Former studies have largely focused on the cancellation of the CVA 01 carrier programme and offered little depth as regards the Royal Air Force perspectives

Given that this was a two Service rivalry which greatly influenced many aspects of British foreign and defence policy decisions of the period this book presents an important and balanced overview of the complex issues involved Through this historical study of the British debate about maritime air power and strategic alternatives in the 1960s the detailed arguments used for and against both alternatives demonstrate clear relevance to both historical and contemporary conceptual debates on carrier forces and land based air power Both from military strategy and inter service relationship perspectives contemporary Britain and many other nations with maritime forces may learn much from this historical case *Finland's Search for Security through Defence, 1944-89* Risto E.J. Penttila, 1991-06-18 Based on the author's doctoral dissertation at Oxford this study examines with a historical perspective the national defence strategy of Finland 1944-1989 The author explores Finland's dilemma with respect to its geographic position and the Cold War politics between the US and the USSR

State, 1988 **Strategic Analysis and the Management of Power** Olav F. Knudsen, 2016-07-27 The book is a tribute to Johan Jorgen Holst Norway's late Minister of Foreign Affairs It considers the outstanding issues of our time the high politics of East West confrontation and the post Cold War readjustment in Europe Holst contributed significant ideas to the handling of these issues Though representing merely a small state Johan Holst's mastery of the subject matter and authoritative personal presence gave him an influential voice in high level discourse on Western policy during more than two decades

The United States and the Cold War in the High North Rolf Tamnes, 1991 The author looks at the relationship between the United States and Norway from the Second World War through to the 1980s in a book that is solidly based on research in American British and Norwegian archives as well as interviews with many policymakers In particular Tamnes pays attention to Norway's somewhat ambivalent position of encouraging on the one hand an American commitment to the country's defence while on the other maintaining a policy of allowing no foreign military bases or nuclear weapons on Norwegian soil

Coercive Cooperation Lisa L. Martin, 2021-03-09 This innovative study shows that multilateral sanctions are coercive in their pressure on their target and in their origin the sanctions themselves frequently result from coercive policies with one state attempting to coerce others through persuasion threats and promises To analyze this process Lisa Martin uses a novel methodology combining game theoretic models statistical analysis and case studies She emphasizes that credible commitments gain international cooperation and concludes that the involvement of international institutions and the willingness of the main sender to bear heavy costs are the central factors influencing the sanction's credibility
